I. SOCIALIST PARTY CANDIDATES IN THE 25 APRIL ELECTIONS

A. Candidates backed by organized crime and criminal gangs (10 facts)

1. **Ornaldo Rakipi**, the son of Aqif Rakipi, who was dismissed from Parliament upon the insistence of the Democratic Party for the adoption and enforcement of the Law “On Decriminalization”, as a person with a long and serious criminal record. In the 25 April elections he included in the candidate list for Tirana his son, who because of the criminal connections of his father and the massive vote buying efforts broke the formula and jumped from 32nd in the list to number 2, pushing down renowned names of the Socialist Party including the SP Chair for Tirana Ervin Bushati and Pandeli Majko.
2. **Sajmir Hasalla**, son in law to Aqif Rakipi, ranked 5th in the SP list in Elbasan. He also broke the formula and jumped to second place in Elbasan only below the most voted SP candidate Taulant Balla because of his connections with and backing of crime.
3. **Tom Doshi**, a person with powerful criminal connections, who was forbidden entry into the US by the State Department with its decision 16 April 2018, and was declared “non grata” under the motivation of being involved in significant corruption practices. His campaign was ridden with massive vote buying, as a result of which he will be represented by 3 members of parliament in the upcoming Legislature. Because of the massive vote buying and the involvement of individuals with serious criminal records in the campaign, the Democratic Party has brought charges with SPAK twice during the campaign.
4. **Rrahman Rraja** part of the **Rraja criminal clan**, proven to be involved in vote buying in 2017 by way of the surveillance under File 339, ran in the safe zone of the Socialist Party list in the Region of Durres.
5. **Jurgys Cyrbja** part of and sponsored by the **Altin Hajrit criminal clan**, proven to be involved in vote buying in 2017 by way of the surveillance under File 339, ran in the safe zone of the Socialist Party list in the Region of Durres. This person has direct connection to Emiliano Shullazi, another organized crime exponent connected to the Vollga Hotel file in Durres.
6. **Illir Ndraxhi** part of and sponsored by the **Jul Balla criminal clan**, also proven to be involved in voting buying in 2017 in the framework of the File 339 surveillance, ran in the safe zone of the Socialist Party list in the Region of Durres.

The three individuals above were supported during their campaign by **Vangjush Dako**, former Mayor of Durres and members of the SP Leadership, also declared “non-grata” by the State Department for his involvement in serious corruption affairs and who was not only one of the main faces of the SP campaign in Durres and present in every event, but was also present in the ballot counting centers. Another SP exponent in Durres was **Adrian Çela**, the OSHEE sh.a. General Director and at the same time leaders of the Socialist Party campaign in Durres, directly involved in massive hiring sprees in OSHEE and organizer and implementer of the criminal vote buying scheme in the Region of Durres, delated three times to SPAK by the Democratic Party during the campaign.

7. **Aurora Marra**, sister of the international drug trafficker Genti Mara, involved in vote buying in Dibra in 2016 as proven by the surveillance under File 184, who because of the direct connection to the crime world came out on top as the most voted candidate in Dibra in the 25 April elections.
8. **Taulant Balla**, was the most voted candidate in Albania because of the connections with one of the most dangerous crime exponents, Suel Çela, and the direct involvement in the campaign of individuals with criminal records and part of the Elbasan criminal gang.
9. **Damian Gjikhuri**, involved in the criminal vote buying scheme in Dibra in 2016 as proven by the surveillance under File 339.
10. **Meri Merkiçi**, Tom Doshi’s member of parliament and wife to Artur Hata, a person with serious criminal records, who in 1992 murdered citizen Bashkim Katica in the “Ruse” Neighborhood in Shkodra, and is suspected of having wounded Shkodra Police Chief Nderim Muja. In cooperation with Tom Doshi, Pëllumb Gjokë and Dor Duli, who are all individuals with serious criminal records, have bought votes in Shkodra during the 25 April elections, in regard to which the Democratic Party has brought Criminal Charges with SPAK.

B. Other candidates involved in serious corruption affairs (10 facts)

11. **Arben Ahmetaj**¹, the initiator and key person of the corruptive mafia waste scheme established by Edi Rama and Erion Veliaj, element of the Ndragheta and the Lushnje Gang regarding the Tirana Incinerator of **430.6 million Euro**, the payments for which continued during the quarantine and the election period as well, and the Shara Landfill,

54. In the Budget Law adopted in the beginning of the year, Unconditional Transfers for the same 11 municipalities were projected in the amount of **8,299,271,265 ALL** or **67,528,651 Euro**. Common Unconditional Transfers are funds from the State Budget allocated to Municipalities to guarantee the provision of some basic services by local government, such as basic education, social protection, forest administration, road and

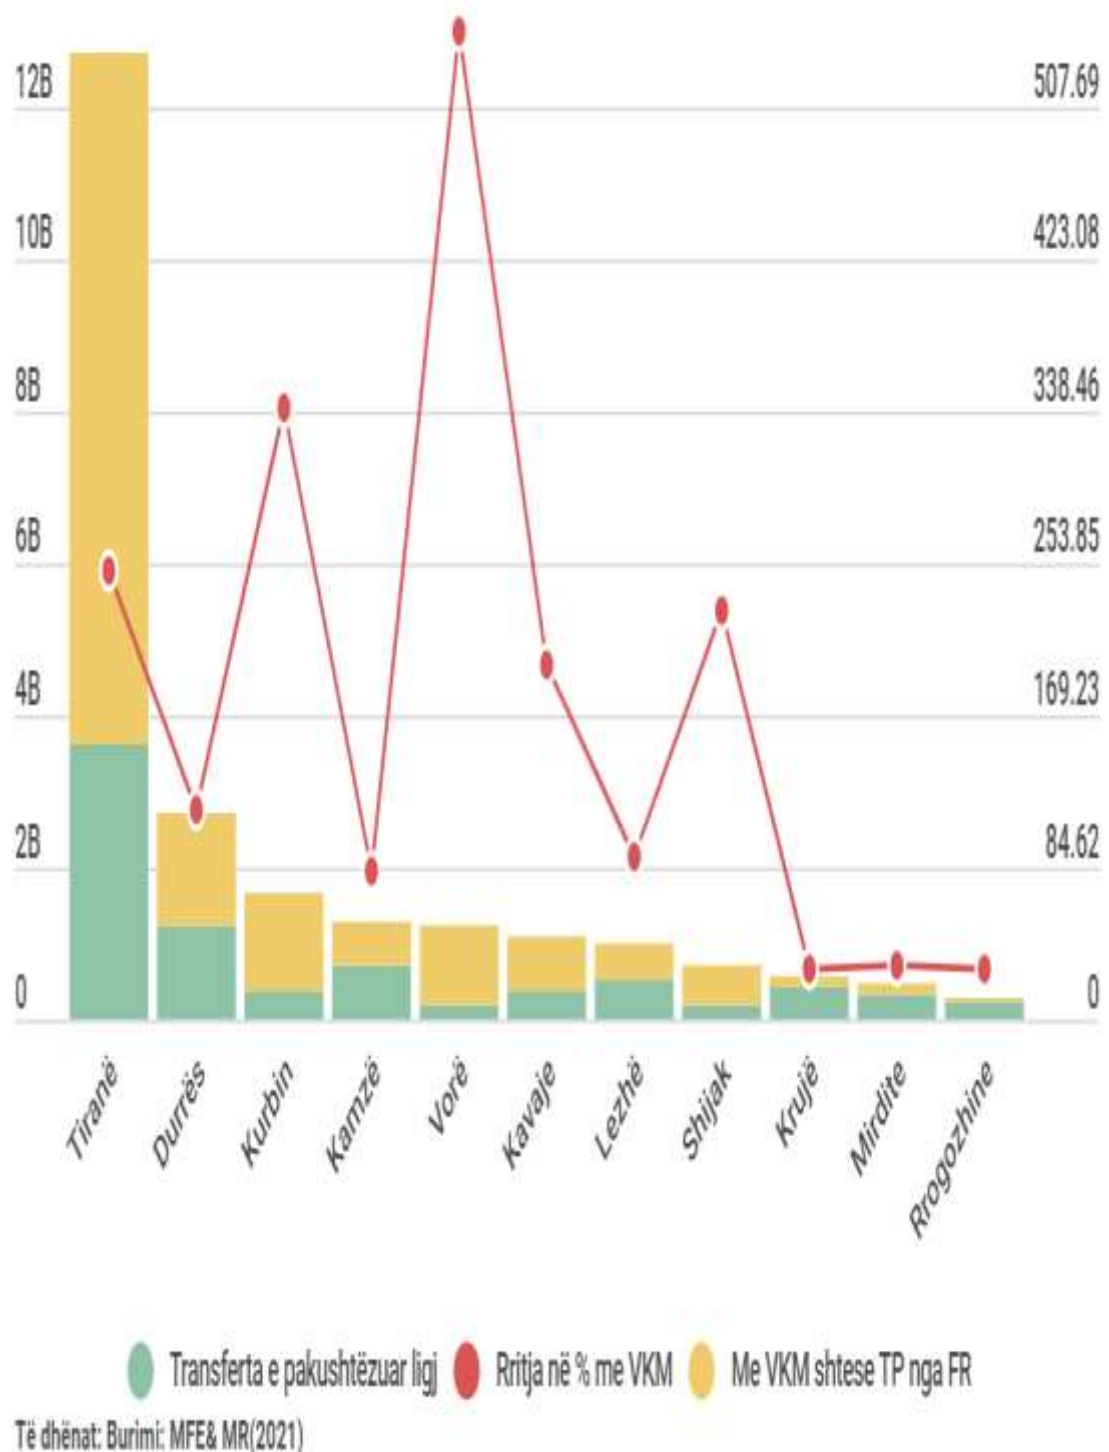

water management, etc. These allocations are projected annually based on a formula and are approved as a separate table and line in the Law on the State Budget. If we compare the amounts defined in December 2020 with the additions obtained by the municipalities, Unconditional Transfers related to reconstruction and approved by Decision of the Council of Ministers during the pre-election period and the 30 days of the election campaign, are concentrated during the dates which the Electoral Code defines as election period dates.

55. In violation of article 91 of the Electoral Code, which provides that “*Four months before election day and until the constitution of the new government after the election, the proposal, approval or adoption of legal and secondary legislation acts, providing for the granting of benefits to specific population categories, such as acts providing for salary, pension, economic or social support increases, the cutting or abrogation of taxes, the start of fiscal amnesties, privatization or awarding of property or compensations, etc. shall be forbidden, with the exception of the initiatives that are conditioned by natural disaster situations*” and of **article 3, paragraph 3 of Decision No. 9 “Rules for reporting public institutions, state agencies and/or enterprises public activities, prohibited category activities, and the monitoring of the activities, behavior and use of public, financial and logistic resources of the state administration prior to elections”** which provides that “*Four months before election day and until the constitution of the new government after the election, the proposal, approval or adoption of legal and secondary legislation acts, or their publication for public information purposes related to the decision making of the adopting institution on the relevant website, providing for the granting of benefits to specific population categories, such as acts providing for salary, pension, economic or social support increases, the cutting or abrogation of taxes, the forgiving of late fees, fines, tax dues and customs obligations, the start of fiscal amnesties, privatization or awarding of property or compensations, etc. shall be forbidden, with the exception of the initiatives that are conditioned by natural disaster situations or epidemics/pandemics, or when it aims at meeting an international legal obligation or complying with a final court decision*” in the **last 4 months, 10 municipalities** have been granted, through **Council of Ministers Decisions**, additional funds in the form of unconditional transfers from the reconstruction fund in the amount of **15,430,836,420 ALL or 125,556,033 Euro**, which is an **increase of 186%**.
56. The municipalities of **Tirana, Durrës, Kurbin** and **Kamza** received the highest increases in terms of amount. When considering the weight of the Unconditional Transfers projected in the Budget Law at the start of the year, record increases were allocated to municipalities like **Vora (549%), Kurbin (340%), Tirana (250%)** and **Shijak (228%)**.

D.5 Investigation by MCN media regarding the use of individual grants from the reconstruction fund to buy votes during the last week of the campaign¹⁰ (1 fact)

93. On 22 April, citizen B.M from Durrës¹¹ received a text message from her bank. It wrote: your account has been credited with 1,000 Dollars. The sender was the state budget, or more accurately the reconstruction grant program after the earthquake. The following day, the citizen went to the bank to withdraw the check sent by the government and two days later she went to vote.
94. The instance of citizen B.M was not an isolated case, but a wide ranging phenomenon. The same text message was sent to thousands of households in Durrës two to three days before the election. MCN was able to exclusively secure the documentation and to track hundreds of bank transfers to the household accounts by the government. What you see here are only some of the transfers by the budget to the accounts of the aforementioned households from 19 to 23 April.

¹⁰<http://www.mcntv.al/2021/04/30/para-n-bank-para-votimeve-video>

¹¹<https://www.facebook.com/mcntv2021/videos/186673596610266/>

95. Cash funds transferred from the budget to the accounts of the Durrës households during the last week of campaigning before the election were the final step of a well-coordinated operation of the Municipality of Durrës. On 4 February, the appointed mayor of the Municipality of Durrës, Emirjana Sako and the Municipality Council of this city urgently adopted the first list of 806 households, which would benefit more than 2 million Euro in cash transfers from the government as compensation for the damage caused by the earthquake. On 14 April, the Municipality adopted another, even longer list, of 1,351 households, which got transfers totaling 4 million Euro in their accounts in the last days before the election.
96. Furthermore, by way of a number of decisions made in the last weeks of the period in question, the Municipality of Durrës changed the damage classification for hundred of households, promoting them from a DS1 to a DS2 or from a DS2 to a DS3 classification, which automatically increased the amount of compensation they benefited from the government.

97. Even though Durrës was the epicenter of the reconstruction cash transfers, this was a nationwide operation, covering a number of regions in the country and coordinates by the government in Tirana. Using more than 20 decisions adopted in the period between 3 February and 14 April, the Council of Ministers created for itself legal avenues to flow millions of Euro in the bank accounts of households impacted by the earthquake that had struck six months earlier, on the eve of the elections.
98. These confidential documents secured by MCN show that the government used the reconstruction grants program in March and April to transfer a total of 40 million Euro in cash to thousands of households in Durrës, Shijak, Kamza, Vora, Rrogozhina, Kavaja, Mirdita, Lezha, and all other areas impacted by the earthquake.
99. The phenomenon was so massive that it could very well be the largest vote influencing operation ever recorded in Albania. And it did not use informal money, but was executed directly with state budget money, or in other words citizen taxes. Everything was done legally and right under the nose of the opposition. In the meantime, the latter was actually having militant convoys traveling the country and campaigning. And while the opposition was living in its dream land of winning elections, the government was executing in the shadows the largest vote influencing operation, the results of which became clear of 25 April.

Cash transfers to families by municipality

D.6 Grants awarded during the election period at 89-fold the amount distributed during the December 2019 to 25 March 2021 (official start of the election campaign) period (4 facts)

100. Only in transfers to individuals, the Municipality of Durrës distributed a total of **6 million Euro** for residential reconstructions by citizens themselves during the last week of the campaign. According to the official data of the Ministry of Finance, the total amount distributed during the last week of the campaign was **89 times higher than the amount distributed for the same purposes during the December 2019 to 25 March 2021 period** (15 months).
101. According to the data of the General Treasury Directorate, from 25 March (campaign start) to 25 April, the Municipality of Durrës has ordered the Treasury to execute **744,469,274 ALL** or **6,102,207 Euro** in transfers for individuals that would reconstruct their own residences (**Treasury Code 6060099**).
102. The analysis of the official data shows that payments for this Expenditure Line from **1 December 2019** (first month with earthquake consequences) to **25 March 2021** (first day of the campaign) amount to only **6,637,194 ALL** or **54,403 Euro**.
103. Thus, during the campaign month there was an increase of the grant for individuals fund by **737,832,080 ALL** or **6,047,804 Euro** more than the post earthquake period from December 2019 to 25 March 2021, when the campaign started officially.

D.7 Reconstruction grants awarded during the election period to heads of households in the Municipality of Durrës (11 facts)

104. According to the 4 decisions of the Municipality of Durrës Council during the election period between January and April 2021, grants (in cash) for the construction of properties impacted by the earthquake from scratch were granted to **182 beneficiary heads of households** or **787 individuals in total**.
105. **DMC (Decision of the Municipality Council), No. 13, dated 4.2.2021, Municipality of Durrës** *“On adopting the list of beneficiaries that will benefit the grant for the reconstruction of individual residences damaged by the 26 November 2019 earthquake, according to the model design”*.

106. **DMC No.17 dated 22.2.2021, Municipality of Durrës** “*On adopting the second list of 22 beneficiaries that will benefit the grant for the reconstruction of individual residences damaged by the 26 November 2019 earthquake, according to the model design*”.
107. **DMC No. 38, dated 31.3.2021, Municipality of Durrës** “*On adopting the third list of 78 beneficiaries that will benefit the grant for the reconstruction of individual residences damaged by the 26 November 2019 earthquake, according to the model design*”.
108. **DMC No. 48, dated 14.4.2021, Municipality of Durrës** “*On adopting the fourth list of 44 beneficiaries that will benefit the grant for the reconstruction of individual residences damaged by the 26 November 2019 earthquake, according to the model design*”.
109. The total grant amount projected in this regard was **521,491,224 ALL** or **4,243,216 Euro**.
110. The following is considered to be the **Model Design** referred to in the DMCs:

By way of **DMC no. 46 dated 14.04.2021** “On adopting changes to DMC No. 55, dated 26.06.2020, No. 64, dated 07.07.2020, No. 70, dated 20.07.2020, No. 81, dated 10.08.2020 regarding changes to the name list of households benefiting from the reconstruction grant for residences damaged by the natural disaster of the 26 November 2019 earthquake, resulting from the changes to the damages caused classification” and **DMC no. 51 dated 14.04.2021** “On adopting changes to DMC No. 55, dated 26.06.2020, No.64, dated 07.07.2020, No. 70, dated 20.07.2020, No. 81, dated 10.08.2020, DMC No. 1000, dated 30.09.2020, DMC No. 129, dated 24.12.2020, DMC No.15, dated 22.02.2021 and DMC No. 11, dated 04.02.2021” regarding changes to the name list of households benefiting from the reconstruction grant for residences damaged by the natural disaster of the 26 November 2019 earthquake, resulting from the changes to the damages caused classification” **the classifications have been ungraded to a more severe class resulting in higher reconstruction grant amounts.**
117. The grant for reconstruction amount (baseline) defined in **DMC No. 47, dated 29.05.2020** “On adopting the reconstruction grant amount or the ds1, ds2, and ds3 damage repair level for the residences damaged by the 26.11.2019 earthquake in the city of Durrës” is as follows:

¹²<https://www.durres.gov.al/bashkia/keshilli-bashkiak/133-vendime-te-keshillit-bashkiak/1421-vendime-te-keshillit-bashkiak-2021>

For the DS1 damage level the reconstruction or repairs amount is set at **100,000 ALL** or **813 Euro**.

For the DS2 damage level the reconstruction or repairs amount is set at **250,000 ALL** or **2,034 Euro**.

For the DS3 damage level the reconstruction or repairs amount is set at **500,000 ALL** or **4,068 Euro**.

118. The reassessment and approval were done 16 months after the earthquake of 26 November 2019 and the date of the new approval coincides with the dates which are defined as **election period** by the Electoral Code, during which no legal and secondary legislation acts granting benefits or forgiving obligations for specific categories of the society may be made, pursuant to article **91 of the Electoral Code**.
119. Changes in the reconstruction grant beneficiary lists according to **DMC No. 46, dated 14.04.2021** and **DMC No. 51 dated 14.04.2021**.
120. Beneficiaries whose damage classification was changed **from DS1 to DS2** based on the Decisions of the Durrës Municipality Council changes during the election period.

135. According to the official data of the Ministry of Finance¹⁵, the Municipality of Lezha has paid out an amount of **667,579,180 ALL** or **5,471,960 Euro** in the form of grants for reconstruction from the earthquake for the January to April 2021 period. Of these, **279,779,180 ALL** or **2,276,478 Euro** were executed during the election campaign between 25 March and 25 April 2021.

D.10 Vote buying through the reconstruction of individual and collective residential objects during the 4-month period before the elections (54 facts)

We note that during the same period in 2020, **no residences were reconstructed** using the reconstruction fund and this fact was not related to the pandemic, because the construction mafia was allowed to build laundering **1.6 billion Euro** over the last three years in Tirana only. This was related to the fact that this fund was put aside to provide compensations during an election year and to serve the party in power to illegally maximize the number of votes in their favor.

E. Concession granting during the election period (4 facts)

E.1 Concessions granted in violation of the law (3 facts)

Article 3, paragraph 4 of Decision No. 9, dated 24.12.2020 “*On rules for reporting public institutions, state agencies and/or enterprises public activities, prohibited category activities, and the monitoring of the activities, behavior and use of public, financial and logistic resources of the state administration prior to elections*” of the Central Elections Commission provides

³⁷<https://qbz.gov.al/>

that: “*Starting four months before the election and until election day, the awarding of public concession contracts/public private partnerships (PPP), for which no public announcement has been made regarding their organization, which are not in the process of a concessionary procedure that has been identified and started, or which have not been projected as procedures to be funded through the budget adopted for the election year, shall be prohibited*”.

191. DCM³⁸ No. 1185, dated 24.12.2020 “*On defining the movement monitoring methodology and procedures in the hydrocarbons field*”, published in Official Gazette No. 27, dated 19.02.2021³⁹, and taking effect on that same date. With this decision, the government awarded a concession on the monitoring services and transaction movement in the hydrocarbons sector. This concession is worth **100 million Euro** and will be in place of a **10-year period**⁴⁰.

The Democratic Party reported this case the Central Elections Commission, because it was made in violation of Decision No. 9/2020 of the Regulatory Committee of the Central Elections Commission⁴¹.

On 02.03.2021, the Democratic Party delated with the Special Prosecution Against Corruption and Organized Crime (SPAK), citizen Erion Braçe, Deputy Prime Minister of Albania, and any other unidentified individuals, who with their actions and failure to act have committed the criminal offenses of “Abuse of power” provided for in article 248 of the Criminal Code, “Violation of the equality of participants in public tenders or auctions” provided for in article 258 of the Criminal Code, and “Use of public functions for political or election activities” provided for in article 328/a of the Criminal Code.

In the quality of Deputy Prime Minister and in violation of Decision No. 9, dated 24.12.2020 of the Central Elections Commission, and by way of DCM No. 1185, dated 24.12.2020 “*On defining the movement monitoring methodology and procedures in the hydrocarbons field*”, published in Official Gazette No. 27, dated 19.02.2021, and based on evidence attached to these Charges, citizen Erion Braçe in cooperation with other citizens has awarded the concession for the monitoring and transaction movement in the hydrocarbons sector.

This concession is worth **100 million Euro** and will be in place of a **10-year period**.

⁴¹<https://aktivitete.kqz.gov.al/2021/02/22/partia-demokratike-e-shqiperise/>

In addition to seeming tailor made for whoever it is to be awarded, because the general and special requirements to be met by the winner are clearly developed with the company identified as the winner in mind, this concession is also being organized at a time when the special law (Electoral Code) and relevant CEC secondary legislation expressly prohibit the awarding of concessions or public favor during a period so close to the elections.

Namely, decision No. 9, dated 24.12.2020 of the Regulatory Committee of the Central Elections Commission⁴², provides the following in article 3, paragraph 4:

“Starting four months before the election and until election day, the awarding of public concession contracts/public private partnerships (PPP), for which no public announcement has been made regarding their organization, which are not in the process of a concessionary procedure that has been identified and started, or which have not been projected as procedures to be funded through the budget adopted for the election year, shall be prohibited”.

Even though on first sight the concession appears to have been approved on 24.12.2020, it was published and entered into effect on 19.02.2021, during the period when the law and secondary legislation prohibit it.

It is clear that the concession award is aimed at a predetermined company, on the one hand violating the legal guarantees for impartial competition and on the other aiming to create election favors for the political subject to which the individual delated by us belongs, namely the Socialist Party of Albania.

F. Individuals with criminal records benefiting money and public property to support the elections (4 facts)

The Democratic Party has been publicly denouncing the involvement of individuals with criminal records as Socialist Party financial supporters for years, who then benefit public money and property in the last 4 months before the election in exchange for their criminal influence to threaten and intimidate citizens, buy votes and collect ID cards to stop citizens from voting. The DP has filed Criminal Charges with SPAK regarding these facts.

197. Tirana and Shkodra - Citizen **Pëllumb Gjoka**⁴⁸ is one of the most powerful drug traffickers in the Velipoja and Shkodra area, he is a collaborator of the Bajra gang, denounced by the Democratic Party as a person involved with the SP to secure votes in Velipoja in 2017 and 2019.

In November 2020, the **Frozzier shpk** Company with NIPT M01629004C⁴⁹, a company with less than 1 year of experience was awarded by the **Municipality of Tirana** a tender regarding the “*Purchase of materials for personal protection against Covid-19*” at a cost of **1.2 million Euro** and a difference of **443,000 Euro** from the lowest bid submitted, which would have been saved if the Law “On Public Procurement” was complied with and the lowest bid was qualified.

totaling **1,107,726,228 ALL** or **9,079,723 Euro**. The value of these procedures approaches 99 to 100% of the limit fund set for them.

199. **Fier** - Citizen **Renato Sali** aka **Renato Cami** is an individual with serious criminal records, denounced by the DP in 2017 for sponsoring the SP campaign in the Fier Region. Using the company he owns, **A G A - 1 shpk** with NIPT K62713404B⁵², he was awarded a tender for “*Fuel purchasing*” with a limit fund of **1.3 million Euro** and contract value of **1.3 million Euro** (the difference between the limit fund and the contract value was just 346 Euro) by the Municipality of Fier without any competition on 21.01.2021

During the 2014 to 2021 period and only in the Fier Region he has been awarded **73 tenders** totaling **14 million Euro**, mainly **without a competition** and **with contract values as high as 98% of the limit fund**.

On 21 April, 4 days before the election, this company was awarded **2 procurement procedures** totaling **159,990,048 ALL** or **1,311,394 Euro** by the Municipality of Fier as the only company competing, which means without competition.

Another **2 procurement procedures** were awarded to a joint venture of operators with the **Vesa 2014 shpk** company owned by citizen **Edison Sali**⁵³, a member of the Geron Xhafaj gang, the brother of Fatmir Xhafaj. This company has been awarded **18 tenders** totaling **2.4 million Euro** over the 2014 to 2021 period.

200. **Berat** - At the helm of the Toto criminal family stand citizen **Myrteza Toto**, sentenced to 12 years for drug trafficking in Italy, **Gramos Toto**, sentenced for drugs in Italy, their nephews **Edison Çobo** and **Fatos Çobo**, sentenced for drugs and violence and cousin **Jemin Toto**.

The individuals named above have been also listed by the **Force of the Law Operation (OFL) as criminal family**⁵⁴, but after supporting the Socialist Party, the case was closed and they went right ahead profiting public money through public procurement procedures and public assets.

According to the official data of the Public Procurement Agency and the Ministry of Finance, **Gramoz Toto** has profited a total of **6.3 million Euro** through his **T&T Beton shpk** Company with NIPT K83103001E, while citizen Jemin Toto has profited **16.5 million Euro** through his **TOTILA shpk** Company with NIPT K13001010G.

This criminal family was actively involved in support of the SP in the 25 April elections, massively buying votes, threatening and intimidating voters in Berat.

G. Use of public money for election investments by the Albanian Road Authority (4 facts)

From January to April, the Albanian Road Authority has procured a total amount of **5,673,435,671 ALL** or **46,503,571 Euro** VAT excluded in 14 procedures, where the **contract value equals 96% of the limit fund**, and where the winners have been decided without a competition, or even if theirs is the highest bid. If the Law “On Public Procurement” was complied with and the lowest bid had been qualified, the state budget would have saved **1,207,461,446 ALL** or **9,897,225 Euro** in just **7 of these procedures**.

Only in April **4 procurement procedures** were awarded through **negotiation without announcement** and **without a competition**, totaling **1,578,112,968 ALL** or **12,935,352 Euro**.

201. On **01.04.2021**, using a procedure of **negotiation without announcement** and **without a competition**, a tender regarding “*The rehabilitation of the overpass road segment at pallati me shigjeta - Shqiponja roundabout, Lot 2 (additional works)*” was awarded with a value of **313,399,085 ALL** or **2,568,845 Euro**.

H. Granting legalizations for election purposes (6 facts)

H.1 Information according to the statements of the State Cadaster Agency (1 fact)

205. According to official State Cadaster Agency data, a total of **10,003 objects** were legalized during the January to March 2021 period. Influencing voters by issuing legalization permits is also stressed in the preliminary 25 April elections reports of the International Elections Observation Mission of the OSCE-ODIHR, which notes the following:

ODIHR's LEOM also got reports of attempts to influence voters through incentives. This includes the issue of legalization permits."

This report also notes the decision of the Central Elections Commission which provided that the activities prohibited in the 4-month period before the election included the distribution of legalization permits, the registration of ownership titles, the use of the central and local state administration in the election campaign.

The strategy of massive legalizations for election effect has not only been employed in national elections, but also local ones. The 2015 ODIHR report raised the same concern: *"A high number of figures from the large governing parties used state activities and resources for election campaign purposes, including the distribution of legalization certificates to legalize properties, which blurred the division between state and party"*.

H.2 Vote buying scheme through legalizations in the Kombinat area (1 fact)

206. The State Cadaster Agency was established pursuant to Law No. 111/2018 "On Cadaster" and has the competence to organize the state cadaster regime, to register private, state and public immovable property, real rights on that property and to improve/update the immovable property register.

This institution has the obligation to issue cadaster acts. The latter are the unique official documents that the State Cadaster Agency issues to each immovable property owner or any real rights holder. These acts include certificates, attestations, extracts of the cadaster sheet, cadaster map and other acts provided for in the relevant law.

Even though the law is clear regarding the institution responsible and the procedures to be followed when applying for and obtaining legalization certificates, in the Kombinat area, the institution only serves as a criminal scheme for vote buying.

This vote buying criminal scheme was created, and is organized and led by **Belinda Balluku**, in the quality of the candidate for parliament for the Region of Tirana in the Kombinat area, who through a structured criminal group, provides Kombinat citizens with legalization certificates, ownership titles, etc. in exchange for votes for the Socialist Party and Belinda Balluku, who came on top as one of the most voted in the Region of Tirana.

This criminal scheme is executed by **Laureta Omeri**, Balluku's campaign Chief of Staff in Kombinat and at the same time Advisor and Member of a number of boards of the Ministry of Infrastructure and Energy. She was previously directly appointed by Belinda Balluku as Deputy Mayor of the Municipality of Vora. This citizen plays a key role in this criminal organization which aims at buying votes through legalizations, ownership titles, etc.

In order to maximize votes for Belinda Balluku and the Socialist Party, **Laureta Omeri** in the quality of Balluku's Chief of Staff has ordered **Political Organizations** to identify individuals/households in the field that have issues with legalizations, ownership titles, etc.

Using **coordinators** and **political patrons**, the **Political Organizations** have not just identified in the field individuals/households that had issues with legalizations, but also promised them to complete their legalization process in exchange for their vote. This is evidenced, because group discussions found materials developed by the POs where these individuals are included by the political patrons in the confirmed voter lists.

Again, in the quality of the campaign manager, this citizen opened a group chat on Whatsapp entitled “**Kombinat Measuring Group**” using the image of the Kombinat candidate **Belinda Balluku**, who serves as a connecting bridge between the **Political Organizations** (Socialist Party structures) and the **State Cadaster Agency** administration, which operates only based on her instructions and orders. We note that the entire conversation chain is riddled with the words **voter**, **list** and **patron votes** (confirmed votes), which means this is an organized vote buying scheme, and the also includes the relevant materials/documents.

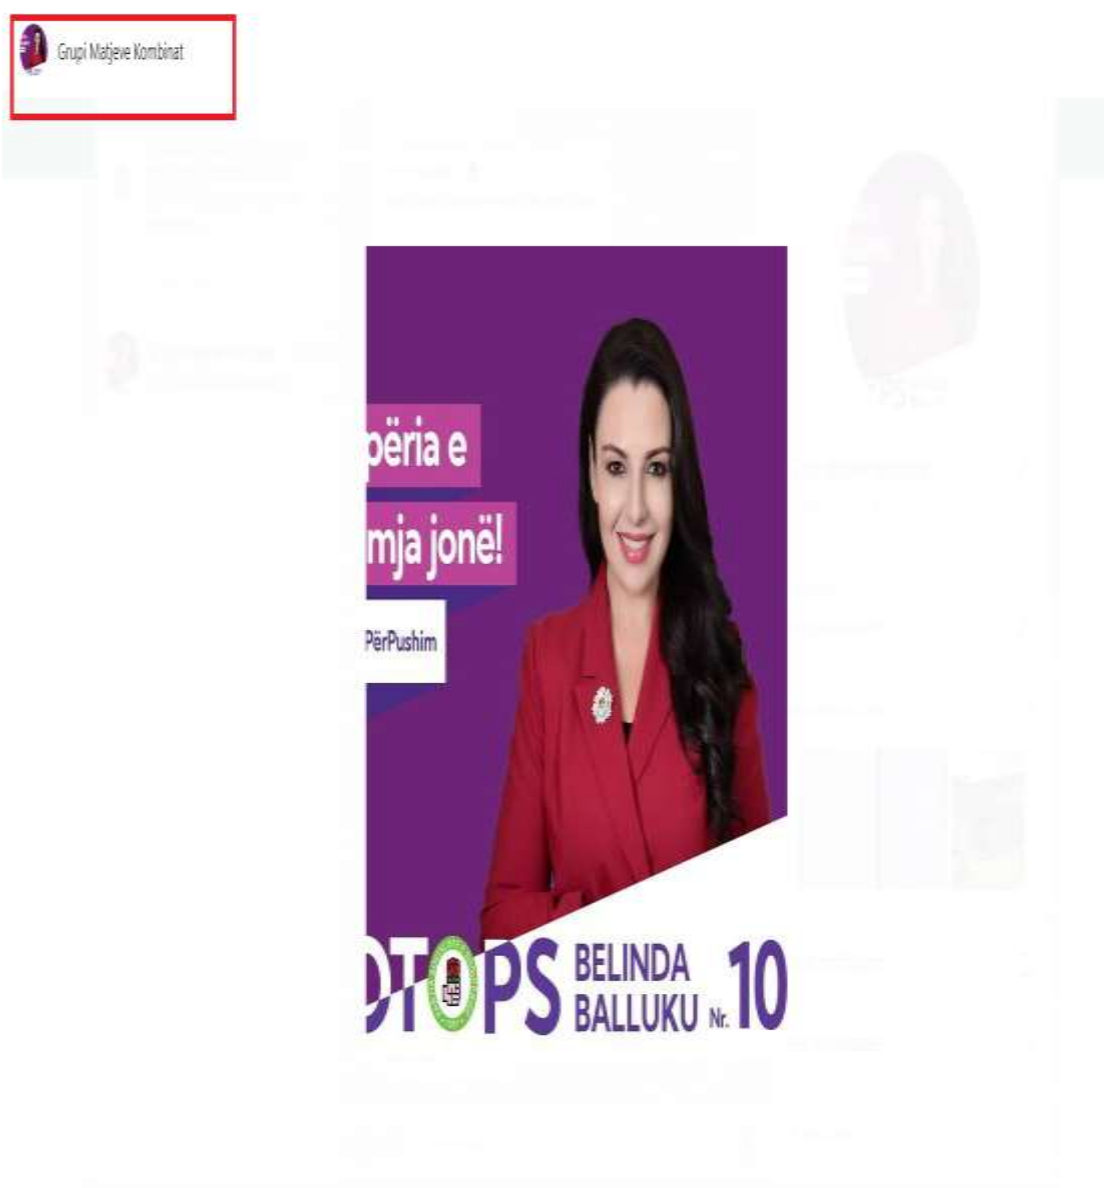

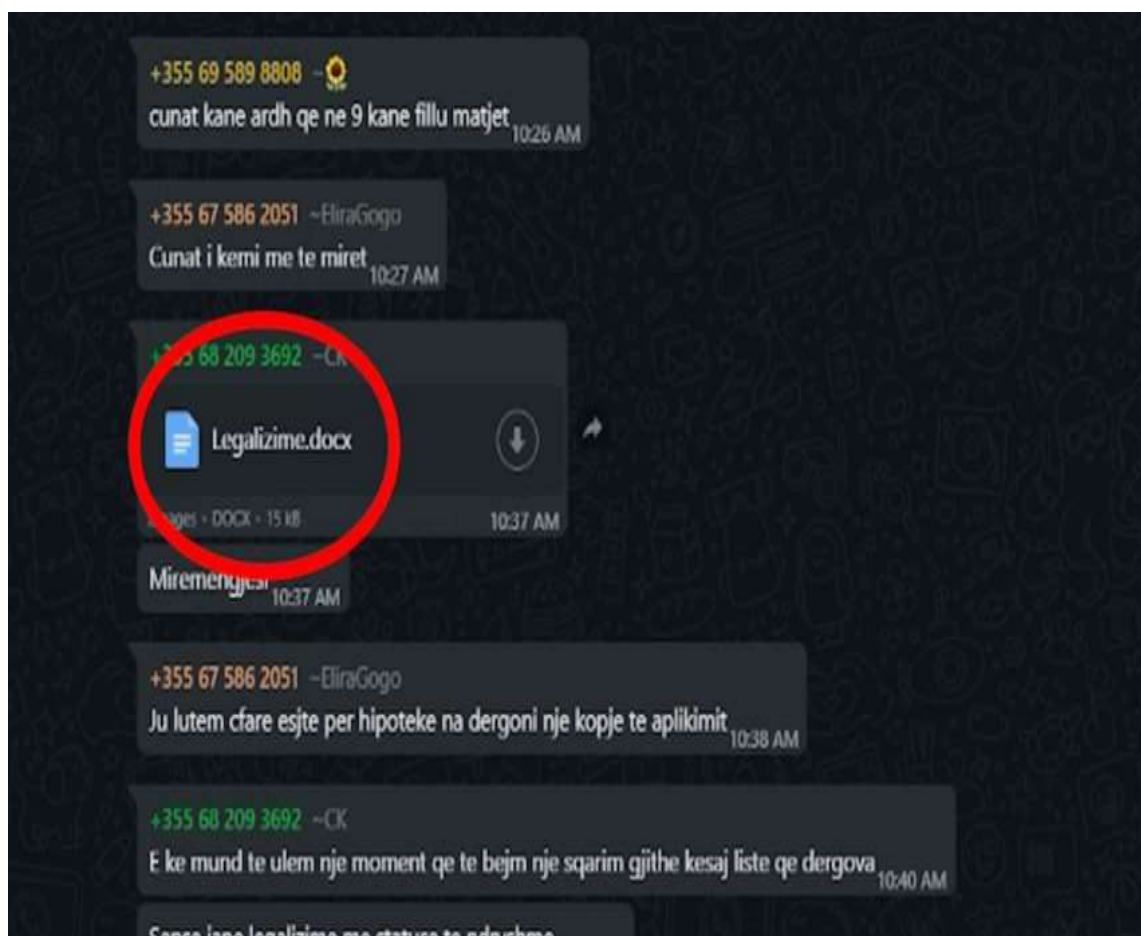

Figure shows that the Whatsapp group logo matches the campaign poster

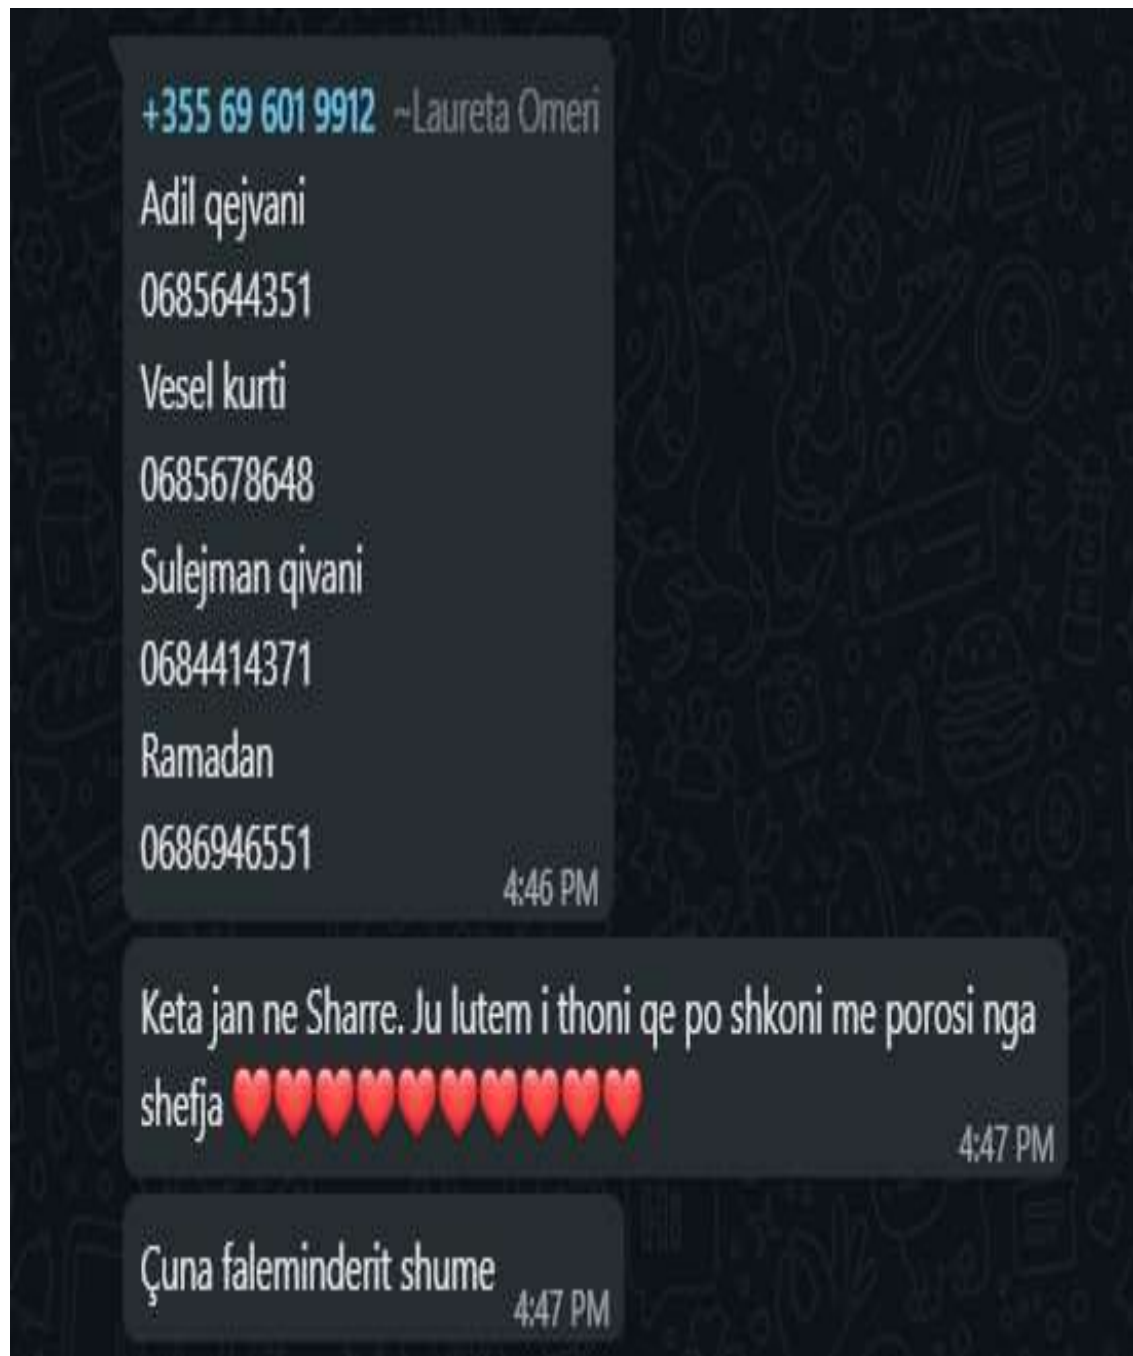

Just the conversations available to us show **8 completed legalization lists**, provided by the following Socialist Party coordinators:

1. **Johana Bushi** (Former chief of cabinet to Belinda Balluku, when she was the Director of the National Air Transport Agency (ANTA))
2. **Erga Ibrahimi**
3. **Ceno Klosi**
4. **Gazment Zela**
5. **Juljana Melyshi**
6. **Ilir Belba**
7. **Elfrida Brati**
8. **Anisa (no last name)** – list in which we are currently taking measurements.

Whatsapp text chain showing the relevant names. The document circled is entitled “Legalizations.docx”

After **Laureta Omeri** receives the confirmed voter lists from the SP structures, which are aligned with the objects that need to be legalized, she **issues an order** to the Director of the State Cadaster Agency Tirana South Office, **Elira Gogo** (responsible for the Kombinat Area).

Another text chain showing persons being dispatched to specific locations for measurements

In the group communications Laureta says:

“Remember that one neighborhood/block is one measurement group. Then the Director has to find her own solutions with the colleagues that will process the files”.

Elira Gogo sends the lists to the field teams of the State Cadaster Agency administration, who take the measurements. According to the communications, these people are politically appointed in the administration and completely involved in the campaign for Belinda Balluku and the Socialist Party.

In order to prove the measurements have been taken, they share the relevant locations in the Whatsapp group along with the name and number of the individuals included in the Political Organization lists as persons with legalization issues, and to prove that they went to the field to take measurements as a primary conditions to then submit the files for approval to the State Cadaster Agency.

According to the communications, after the measurements are taken, the administration is obligated by Laureta Omeri to call the citizens and inform them “with love” that the promised legalization is being completed.

*“Please, once done with what you are doing right now, let’s finish with these two. Discussing the last two cases of a list). Gazi follows up on it, **and you call the gentlemen with a bit of love**”.*

From 24.03.2021 to date (dates for which we have information), the properties of **250 households** have been measured in the field, who **have been included in the political patrons lists as verified votes**.

After the field measuring process is completed, the file is sent for approval to the Director of the Tirana South SCA, **Elira Gogo**, who after completing this administrative process posts the relevant approved certificate in the group chat.

During the campaign, the Democratic Party has filed Criminal Charges regarding this case with SPAK. Even after the charges with SPAK, until 24 April when all members of the group left, the illegal vote buying activity through legalizations continued undisturbed.

H.3 The state criminal fraud scheme of legalizations in exchange for votes (1 violation)

207. Home legalization is one of the most sensitive issues for Albanians, and it is being massively used in the election campaign, promising these legalizations to illegally maximize the number of votes for the Socialist Party.

According to audio surveillance published by **journalist Artan Hoxha** on 20.04.2021⁵⁵, General Director of the State Cadaster Agency **Artan Lame** was caught on tape stating that prime minister **Edi Rama** had ordered for **100 thousand citizens to be lied to regarding the granting of legalizations for their homes.**

During the talk with his staff, citizen **Artan Lame** gives directives on how to defraud these people as the only way to secure their votes, telling them that after the elections the legislation would be reviewed, because the current one does not allow for the legalization of these illegal properties.

General Director of the State Cadaster Agency, **Artan Lame** gives specific instructions on how the cadaster administration is to behave with citizens, so that **100 thousand citizens are lied to and made empty promises** regarding the legalization of their homes, with the only aim of securing their vote in the general elections, **since they would vote for the Democratic Party if they are told their homes would not be legalized.**

The 100 thousand citizens awaiting the legalization of their homes from the General Director of the Cadaster **have been included in the Socialist Party political patrons lists** from the state and official database data, who can check if the home of citizen is legalized or not.

Below is the transcribed audio recording of General Director of the State Cadaster Agency, **Artan Lame.**

⁵⁵<https://dosja.al/pergjimi-drejtori-i-kadastres-artan-lame-vartesve-320-mije-aplikuesit-per-legalizime-do-ti-genjejme-marrim-voten-dhe-legalizojme-60-mije/>

There was a meeting with the Prime Minister about a month ago regarding the legalization process from now on. Of these 320 thousand objects for which there are self-declarations, meaning there are physical files, some 150 have been completed, which means there are still 170 pending. Of these 170 we deal with just 60, because we were discussing before how long it would take to complete the 60 thousand. Only some 60 thousand can be done, the rest cannot be done or should not be done because they have criminal violations.

*This means that right now we have some 100 thousand permits, **100 thousand objects which we knowingly will continue to hold on to, because these are people and if you tell them, it cannot be done, they go to the other side and become fodder for the other side. So, we will keep treating them, we will take a look, we will address it, discuss it, review it when the legislation is also reviewed.** When you go and yourself tell these 100 thousand that I will disqualify you because I cannot legalize anything for you, you push them to the other side, **so in this meeting we agreed that we will continue to keep the situation pending regarding these cases.***

So, we will continue work with the 60 thousand and we will continue to keep the situation pending, because there may be legal changes in the future, because we will review this again, and so on, but this will result and has resulted in many of them saying you have been here once and twice and why don't you do it. Rest assured that in many cases stands to reason that we don't want to tell them your house cannot be legalized and will be demolished, because Miloscevic will say I will legalize and then they think they get their home, are you clear.

This does not exclude the fact that we are preparing some 40 thousand objects with the municipalities, mainly the Municipality of Tirana and which we will declare for massive disqualification, and if I were a candidate, I would go and tell them the day after that right after the election you will be legalized and they will get them on their side, because naturally no one cares about politics, they want to save their homes.

H.4 Vote buying through candidates securing legalizations (28 facts)

The distribution of legalizations by the members of parliament in exchange for votes is a grave criminal offense of abuse of power and active corruption during elections.

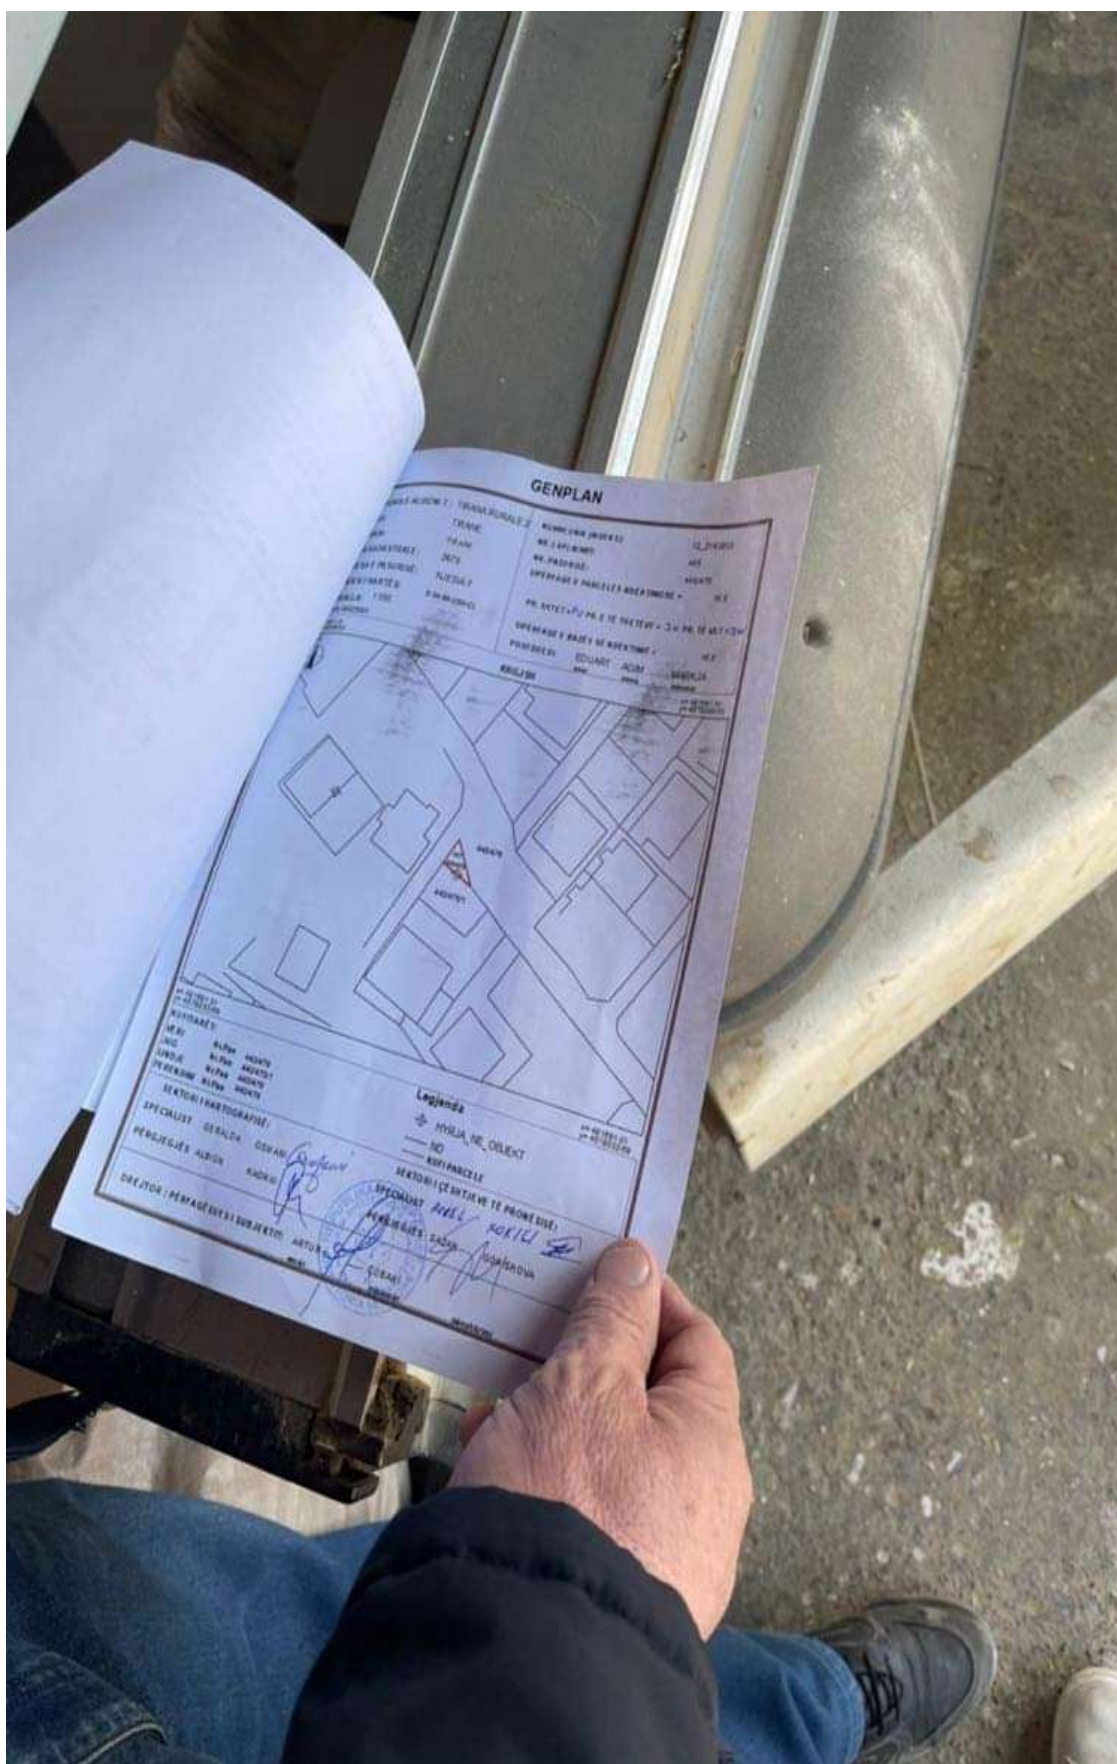

208. On 27 February, the staff of the Minister of Justice Etilda Gjonaj, used the official vehicle of the Ministry of Justice and abusing their power and using public assets, thus

committing a criminal offense, distributed 12 legalizations in administrative unit No. 7, Tirana.

224. **Tirana.** The candidate of Democratic Party, Belind Këllici⁵⁶, has denounced finding, just 4 days before elections, some certificates, statements of place of residence, statements for involvement in legalization procedures, and voters' lists, in Vaqar, inside a vehicle with plate no. AA043EC. These legalization permits were to be distributed to residents of Kombinat area. The goal was to rig votes in that area in favor of the Socialist Party candidate, Belinda Balluku, by using the administration and state in function of the party.

225. **Kukës and Has.** Mr. Safet Gjici, in his capacity as the Socialist Party-political leader for Kukës Region and at the same time Mayor of Kukës, together with Mr. Adem Lala, Mayor Has, personally distributed, by order of the Prime Minister Rama, more than 60 legalization permits for apartments and premises during the campaign of 25 April, in exchange for votes in favor of the Socialist Party. Using state for personal interests to control voters, their aim was to bring Socialist Party in power once again.

226. **Saranda.** A strange and suspicious flow of citizens was noticed on 24.04.2021, coming into the Saranda Cadastral Office. Only one day before elections, i.e., during the electoral silence, the citizens were called to get their certificates of title to their houses. Outside the cameras, the institutions' staff told us that they were obliged to go to office and that they had video recordings and photos showing citizens entering and leaving with documents from this office.

I. Spending for the campaign. Budget expenditures increase to record levels in April (1 fact)

227. During the month of April, when the general election campaign culminated, the Government boosted budget expenditures, in particular, for local government, investments, maintenance and reconstruction port-earthquake, and personnel wages, compared to April of last year.

228. Based on Ministry of Finance's official data, total expenditures in April amounted to ALL 48.7 billion, **meaning an increase by 16.4 percent** or **EUR 56 million**. This month marked the highest level of spending from the moment the Ministry of Finance started to report the indicators.

229. In April 2021, the government spent more than the same month a year before, despite there was an unusual spending rise in April 2020, resulting from the allocation of pandemic relief packages and the doubling of economic aid. However, this April, spending increased even more driven by the election campaign, a period historically characterized by a boost in spending.

230. In April of this year, the increase was focused in several items, but the local government was one of the biggest beneficiaries, because of **reconstruction funds reallocation**. In April, the funds allocated to local government amounted to ALL 4.6 billion with an increase of **61 percent, compared to 2020**. In April, the local government received over **ALL 4.6 billion-funds** compared to **ALL 2.8 billion allocated in April 2020**.

231. **Capital expenditures** marked an annual raise of over **23 percent in April**. During this month, ALL 6.4 billion were allocated for capital expenditure, compared to ALL 5.1 billion that were allocated in April last year.

234. For the period January-April, the total budget expenditures went up by 12.2% compared to the same quarter of 2020, and 14.4% compared to 2019.

235. Capital expenditures raised by 19%, while for the local budget by 14%.

J. Vote buying as an electoral “fiscal incentive” (2 facts)

J.1 Electoral employment during the election period (1 fact)

236. The first indicator of this phenomenon is the sudden and significant raise of employment in administration, compared to previous periods. In the last quarter of 2020, there was an increase by 10,000 persons employed in this sector, compared to the same quarter of 2019, or 8,000 persons more, to the third quarter of 2020 (Monitor, 2021).

An increase in employment, even in the public sector, can be considered satisfactory by the direct beneficiaries of jobs, but in reality, when such a sudden increase of job position that is not addressing the real institutions' needs for staff, is an additional and unnecessary cost for the state budget. The creation of these jobs does not reflect the real needs of the market, and these new jobs cannot have the same positive impact as job creation from improved private sector, or new investments. Moreover, facing an economic crisis created by the pandemic, it is necessary to stimulate employment through financial aid to sectors mostly affected by the pandemic, which have real potential to generate recovery and economic growth.

J.2 Fluctuation of exchange rate during the election period (1 fact)

237. The second indicator is depreciation of domestic currency against Euro. Such a phenomenon usually occurs in two moments of the year: in the summer season, due to migrants' visits or tourist's inflow in the country, the amount of foreign currency in the country increases, leading to domestic currency depreciation, and at the year-end holidays due to migrants' visits or an increase of remittances from migrants.

The current period does not correspond to either of these two seasons, and a depreciation of Euro is atypical for this moment. The chart below shows the exchange rate performance from 1 March to 13 April.

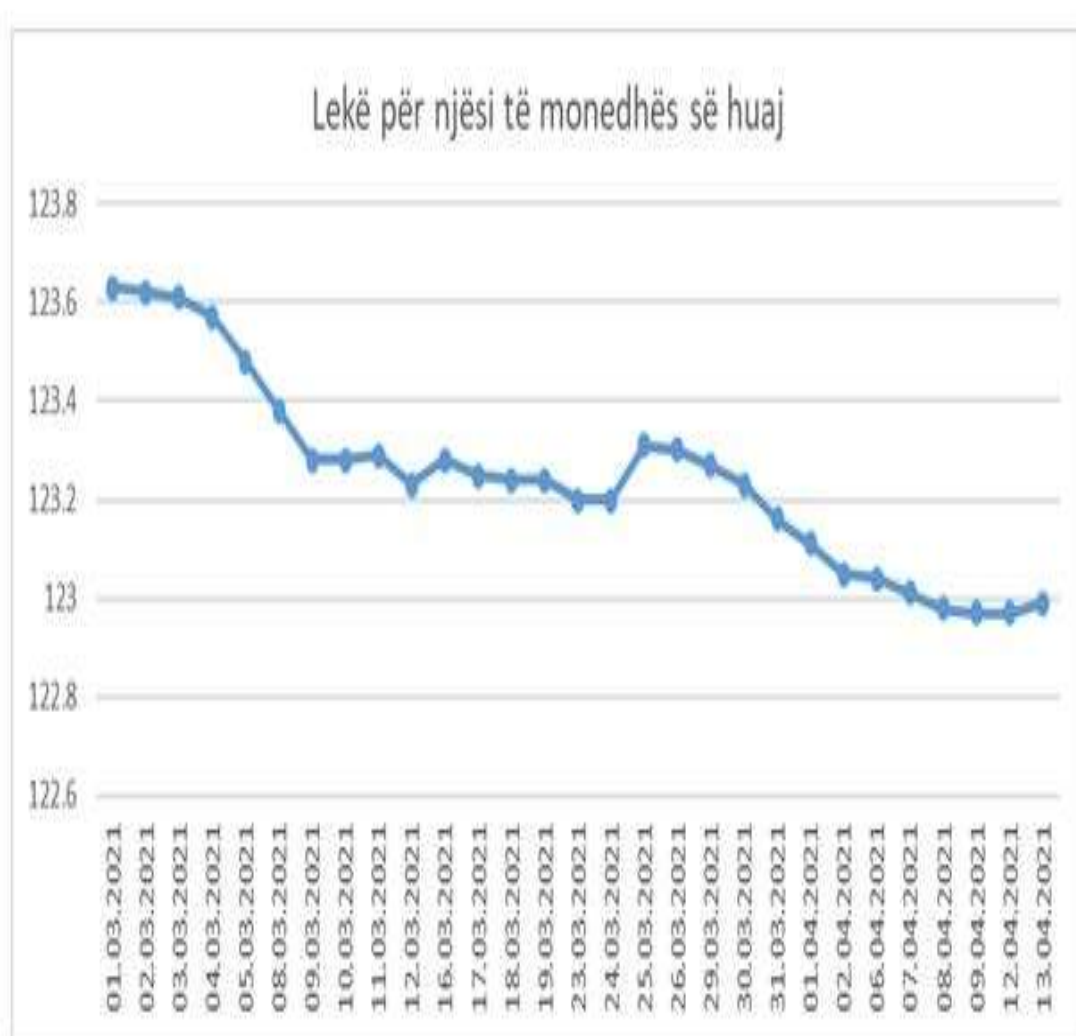

As observed from daily exchange rate data, euro has suffered a steady decline during March and the first half of April. The maximum value of Euro versus ALL was on 1

March, **when 1 Euro** was exchanged for **ALL 123.63**, while the minimum value on 9 and 12 April, **when 1 Euro** was exchanged for **ALL 122.99**.

The fact Euro was depreciated in this period of year unaffected by tourist's inflow from Eurozone, or the increase of remittances, means that it is due to election campaign in the country. The amount money in Euro circulating has increased and its source may be undeclared foreign activities and used by the government and persons with criminal records with whom the SP has made its campaign, bought votes and rigged the result of elections of 25 April.

III. VOTING BUYING AND CRIMINAL INFLUENCE

A. Buying votes in cash (6 facts)

The elections of 25 April were doomed by massive vote buying in cash. The source of these money is from massive corruption in public administration and involvement of organized crime and their illegal money.

The criminal scheme of buying votes in cash was implemented by candidates for MPs, persons working in public administration and persons with serious criminal records.

We stress that the Supreme Audit Institution has concluded that the damage caused to the state budget from 2014 to 2020 is EUR 8 billion or equal to two Albanian state budgets, i.e., 2 out of 7 budgets were stolen and misused.

The criminal scheme of buying votes in cash ranges from **EUR 50** per person to **EUR 1,000** per family.

For the cases below, the Democratic Party has pressed charges before SPAK for: **“Active Corruption in Elections”** provided by Article 328, **“Use of public office for political or electoral activities”** provided by Article 328/a, **“Passive Corruption in Elections”** provided by Article 328/b, **“Intimidation or Violence against Participants in Elections”** provided by Article 329; and **“Illegal taking or use of identification documents”** provided by Article 331/a, **“Illegal possession and production of firearms, explosives and ammunition”** provided by Article 278, **“Obstruction of election contestants”** provided by Article 325 and **“Structured Criminal Group”** provided by Article 333/a of the Criminal Code.

238. **Durrës.** The scheme of vote buying ranges from **EUR 50 to EUR 1,000 per family**. This scheme is organized by **Ardian Çela**, leader of campaign in this District and at the same time Head of OSHEE sha; and implemented by administrative staff of all levels and, above all, by MPs who are sponsored by criminal gangs and persons with serious criminal records.

Despite the international recommendations not to include on the lists as candidates for MP persons involved in corruption or with criminal record, as well as the constant call not to include persons with criminal records in the campaign, crime and politics are working together in Durrës District. They are using every means and in an unlawful way, to make the Socialist Party win the elections of 25 April.

Durrës, Kavaja and Shijak areas are known for a criminal area, where organized crime does not recognize the rule of law due to the very close, visible and decisive ties with politics.

A mere vote buying scheme is working in this District and it takes the following forms: giving cash, unlawful employment through temporary employment contracts, granting legalization permits or certificates of title to property, payments in cash or in kind unlawfully through the process of post-earthquake reconstruction, payment of rental bonuses and economic aid, collecting identity cards to prevent supporters of Democratic Party from exercising their constitutional right to vote and a several other criminal forms.

This criminal scheme is run and organized by the senior members of Socialist Party and implemented by government top-management and persons with serious criminal records, as we will explain below.

Ardian Çela, Administrator of OSHEE, is the leader of this criminal vote buying scheme in Durrës District. He is distributing cash to individuals in charge of specific areas. In addition, **Plator Mehmeti**, Head of OSHEE Durrës, is among the most active persons in vote buying.

In Shijak, the person fully engaged in vote buying is **Altin Hajri**, currently wanted for murder as a result of killing a hostage at the Gold Resort in Pjeze, Shijak. Despite the fact that he is wanted by justice, he is freely moving and buying votes for the Socialist Party. He is regularly seen with **Ardian Çela** and almost every night meets with **Jurgis Çyrbja** a SP MP.

Arbër Koka, the son of SP MP **Lefter Koka**, is the leader of vote buying scheme in Spitalla zone in Durrës. **Gentian Thartori**, **Roni Shqopa**, **Fetah Mataj** and **Emilian Lako**, persons with criminal records, are working with him.

Artur Fetaj is not a resident of Shkallnur area, former Rrashbull Comune, but he is known as the envoyee of **Ardian Çela** for vote buying. He is paying **EUR 1,000 per family in exchange for vote**. This person has criminal records. He was convicted of forgery of documents and together with **Alion Hyska**, Head of Durrës Road Company, are in charge of vote buying in this zone.

In Shijak, **Durim Keci** is active in vote buying for SP. The Court of Genoa, Italy, by Decision No. SIEP 294/2013 dated 21.02.2014 convicted and sentenced him to 9 years, 7 months and 22 days imprisonment for the following crimes : *“Violence, threat*

and outrage to judicial authorities”, “Destruction of property with serious consequences”, “Trafficking in narcotics”,

“Gun Crimes Against Person”, “Participation in a criminal organization for the purpose of trafficking in narcotics “ and “Exploitation of prostitution”.

In Sukth, **Bert Hoxha**, known as Office's Bert, is engaged in vote buying. In the elections of 2015, this person, in collaboration with Mr. **Rumi** alias **Land/Pëllumb Muharremi** and **Gëzim Hoxha**, were the leaders of the criminal structure who threatened the Democratic Party's supporters with firearms. They even threatened to kill every DP representative in Commissions, thus leaving the seat of DP empty in most Sukth Municipality's commissions. After the elections, this person was rewarded for vote buying and was appointed Administrator of Sukth Administrative Unit.

In Kruja, Thumana and Fushë-Krujë, **the Rraja family gang**, led by **Xhelal Rraja**, a person with several criminal records, and the brother of SP candidate **Rrahman Rraja** is active. Likewise, in this area and mainly in Thumana, the Mayor of Kruja, **Artur Bushi**, is active in vote buying and exerting pressure.

In Quarter 15, in Spitalla, the criminal activity of vote buying was conducted by **Roni Shqopa**, Head of Food Authority in Durrës, and **Alfred Mullaraj**, Chairman of Durrës District Council. These two top-management officials of public administration are buying votes through **Fetah Mata**, **Alban Çela**, the nephew of Ardian Çela, **Rradon Qerreti**, **Ilir Lleshi** and **Gëzim Prenga**.

Artur Feta is in charge of vote buying in the Shkallnur area.

Spartak Kovaci, Director of Durrës Water Supply Company, is in charge of vote buying in Quarters No. 10 and No. 7, by distributing cash through **Ger Dauti** and **Gezim Kosovari**.

Arben Isaku, Legal Director in Durres Municipality distributes money in exchange for the vote in Quarter No. 6 through **Zakarel Zake** and **Readian Kalastra**.

Ardian Iljazi, Director of Services in Durres Municipality, is in charge of vote buying in Quarter No. 5, Durrës.

Emiljan Jani, Director of Driving Licenses is in charge of vote buying in Quarter No. 4.

Ledion Lako, Director of the National Coastal Agency, is in charge of vote buying in Quarter No. 2, together with the driver of Mrs. Sako, Durrës Mayor.

Jurgen Zaza is in charge of vote buying in Quarter No. 2, together with **Ermal Pronjari**, Head of Reconstruction Office, in Durrës Municipality.

Jolanda Mustafaraj is in charge of vote buying in Quarter No. 1, together with **Eljo Jani**, Legal Director of Durrës Port, the son of the Head of Durrës Regional Hospital.

Gerald Ceka, Chancellor of Aleksandër Moisiu University in Durrës, is in charge of vote buying in Quarter No. 8.

Petrit Ismailati, Director of State Social Service, is in charge of vote buying in Quarter No. 9.

Agim Karaj, Director of Vocational Training, is in charge of vote buying in Quarter No. 12. This person is distributes oil, cash and cards through **Soren Dedja Njala**, employee of Durrës Municipality.

Ermal Kapllani and **Fred Dhuli** are in charge of vote buying in Quarter 13.

Alion Hysko, known as an exponent of vote buying in previous elections, is in charge of vote buying in Quarter No. 14.

Afrim Baka is in charge of vote buying in Quarter No. 18, together with **Densi Shkodra**, employee of OSHEE and close collaborator of Ardia Çela and **Elvis Pengili**, employee of the Mortgage Office.

Kastriot Xhangoli and **Denis Gjoni** are in charge of vote buying in Quarter No. 17.

In the Ishëm Unit, the person in charge of vote buying is **Sulejman Ibrahimimi**, a person with criminal records, who is buying votes and campaigning for the Socialist Party, while being under house arrest with Meçen.

In Sukth Administrative Unit, **Dorian Baba**, Director of OSHEE, is the person in charge of vote buying. This person is buying votes through the **Cërri brothers** : **Mand Cërri** and **Ed Cërri**.

Indrit Cerloi, Director of Health State Inspectorate in Durrës, is in charge of vote buying in Arapaj area.

Xhomo Sula is in charge of Manëza area.

239. **Elbasan.** In Elbasan District, the candidates of Socialist Party have created a criminal structure that is in violation of election standards. It consists mainly in intimidating the Democratic Party structures by using persons of organized crime, the vote buying for a certain amount of cash, promising employment by Socialist Party exponents operating in Elbasan District, threatening of job dismissal, collecting identification documents, like IDs or Passports . This is a well thought and well-organized mechanism, as certain individuals operate in different areas of a town, in particular in the suburbs, where economic impact is even more suffered. Its sole purpose is to rig elections of 25 April 2021 in favor of the Socialist Party.

Despite the increase in the number of legal provisions about election crimes and democratic system offences, their non-impunity has created room for such persons to continue undisturbed their criminal activity, in particular in the town of Elbasan.

Mr. **Taulant Balla**, the Socialist Party's political leader in Elbasan District for the elections of 25 April 2021, is the organizer of such criminal scheme involving a significant number of persons with specific assigned roles in the buying votes in cash.

The **Elbasan Gang** and other persons with serious criminal records, like **Suel Çela**, **Klemend Ymer Xhaferri**, **Marsel Agron Rroka**, **Gëzim Shpend Rusi**, **Erinaldo Përparim Metaj**, **Erest Mustafa Skilja**, **Mehmet Greca**, **Endi Haxhia**, **Mario Çela** and **Gëzim Rusi** are engaged in vote buying. All these persons were accompanying the Prime Minister Rama on 14 March.

Gjergj Luca, the owner of “Rozafa Complex”, has bought votes throughout the entire Elbasan District by using a network of persons employed by him. They are distribute cash after the entry into force of curfew due to “COVID-19” pandemic.

Ardian Peqini, an employee of the Municipality, is in charge of vote buying in the “Chinese” Quarter and in the area known as “Islat”.

Dashamir Myzeqari is in charge of vote buying in the area known as the “Nursery” Quarter.

Artan Faik Firaku and **Xhevahir Njelina** are in charge of vote buying in “5 May” Quarter.

Ledi Hoti (Ledian) and **Arben Veseli** are in charge of paying cash in exchange for voting for the Socialist Party in Bradashesh area.

Arjan Sinani, a former municipal police officer, is in charge of vote buying in the “11 November Zone” and a zone called “Harqet - Firakasit”, by offering ALL 5,000 or EUR 40 per vote.

Aurel Safret Kaja, Director of Water Supply and Sewerage, in Elbasan Municipality (former Head of Municipal Police), is involved in person directly and indirectly by setting up a network of people who are paying cash in exchange for votes for Socialist Party, throughout Elbasan District.

Dhurata Shyqyri Mata, Chief of Human Resources at Railways, at the same time the Chairwoman of Socialist Woman in “Emin Matraxhiu” Quarter, is in charge of vote buying in this zone and is paying from ALL 5,000 or 40 Euro to ALL 7,000 or 60 Euro per vote.

Gentian Mustafa Sharra, a person with criminal records, has made available all the premises of his bar, at the intersection of old Bradashesh Road with Zaranika bridge, where a network of persons is organized and paying cash to voters in Bradashesh and Fushë Mbret area.

Themistokli Nikolla Bebi has funded EUR 100,000 (though he is no not an official sponsor) for vote buying in favor of the Socialist Party, for the SP to win the elections of 25 April 2021.

Tit Muzhaqi and **Gent Derzeza** are in charge of vote buying in 11 November Quarter, in Elbasan.

Arian Ibershimi is in charge of vote buying in “Dyli Haxhire” Quarter.

Met Peqini (Met of Tuja) and **Tit Caka** are in charge of vote buying in the zone known as “New Train Road”.

Shaqir Prroi, Donald Varfi and **Shyqeri Hoxha** are in charge of vote buying in “Haxhias” Quarter.

Afrim Vullnetar is in charge of vote buying in “5 May” Quarter. A bar known as “the bar with arches” is used as a base for distribution of narcotics in the town of Elbasan.

Fadil Meta, a State Police staff, is in charge of vote buying in “Fushë-Mbret” Quarter.

Andi Haxhia, Mario Çela and **Gëzim Rusi** are in charge of vote buying in “5 May” Quarter.

Gent Sharra, Marsel Rroka and **Klement Xhaferri** are in charge of vote buying in “Fushë-Mbret” Quarter.

Gen Coku, Ervin Gjoka, Durim Koci, Ligor Macolli, Durim Sadiku, Art Majori, Gjel Ndreca, Shkelqim Deliu, Kujtim Haka, Ibrahim Musmuca, Altin Fizaku, and Shazivar Haka are in charge of vote buying in some zone of the town of Elbasan.

Agron Rrokaj, the Chief of Human Resources at Elbasan Prison, and **Krenar Kasi**, Commander of Accompanying Group at Elbasan Prison, are active at the pre-trial prison of Bradashesh, blackmailing prisoners so that their family members cast votes for the SP in the elections of 25 April.

It should be stressed that all such criminal activity is conducted under the protection of State Police, which, by its omission to do its constitutional and legal duty, is not taking any measures to detect and stop such criminal activity. Although the Director of Elbasan Local Police Directorate was informed by us several time about such activities, he has not undertaken any action, thus abusing with police power and omitting to do his legal duty.

On 07.04.2021, the Democratic Party filed criminal reports against all the above-mentioned persons before the Special Structure Against Corruption and Organized Crime (SPAK).

240. **Shkodra. Tom Doshi**, a person with serious criminal records has organized the criminal scheme of vote buying, which was implemented by persons with serious criminal records who were injecting cash originating from the criminal world. By its decision of 16 April 2018, the US Department of State ***banned Tom Doshi from entering the US for being significantly involved in major corruption cases.***

Because of this fact, the US Embassy in Tirana repeatedly and strictly called for this person not to be included in the lists of candidates contesting the elections of 25 April, by reacting seriously even after CEC's decision not to exclude Doshi from the contest. *"I think CEC has the duty to consider all the records in order to ensure that a candidate is eligible. In this case he was not disqualified, but this does not mean he is innocent"*, said Ambassador Kim.

Ambassador Kim evaluated the denunciation the DP made against Tom Doshi's candidacy and said that SP should do the same. *"I want to say that it is a very good thing that the Democratic Party has been explicit in condemning this person by asking this person be removed from the list of candidates for MP"*.

Tom Doshi has been a member of the Socialist Party and an MP of this political party for three legislatures in 2005, 2009 and 2013. In 2017, after the "**purchase**" of the **Social Democratic Party**, he re-entered the Parliament as an MP of this political party, but without cutting the ties with the Socialist Party and the Prime Minister Edi Rama.

In the elections of 25 April, the party he is running won three mandates in the Albanian Parliament. The three candidates for MP are members of the Socialist Party and also part of the public administration over the years, which is a "de facto" proof of their affiliation with the Socialist Party. **Gertian Deda** is Vice Director of Kamza Water-Supply and Sewerage Company. **Meri Markiçi** is Director of Vocational Training Agency, and **Gledis Çeliku** is Director of Albanian Road Authority.

These mandates were illicitly won by using the criminal scheme of buying votes in cash. A scheme that was implemented by persons with serious criminal records and directly related to Tom Dosh, as we will explain below.

Meri Merkiçi, the future MP under the logo of Tom Doshi's party, a person with criminal records, is married to **Mr. Artur Hata**. The latter killed Mr. Bashkim Katica,

in 1992, in Russian Quarter, in Shkodra, and he is suspected of injuring the former Shkodra Police Chief, Nderim Muja.

This person with a criminal past implemented a criminal scheme of buying votes in cash in collaboration with other persons with criminal records, with the final goal of maximizing votes for his wife running from the Tom Doshi's party.

One of the collaborators of the aforementioned persons in the scheme of buying votes in cash, in favor of the candidate, now an MP of Social Democratic Party, is Mr. **Dor Duli**, another person with criminal records. He was convicted of murder.

One of the key collaborators in this case is Mr. **Pëllumb Gjoka**, one of the most powerful drug dealers in Albania, an accomplice of Bajraj gang.

This person was denounced earlier by the Leader of Democratic Party, Mr. Lulzim Basha, as a drug dealer and affiliated with Tom Doshi (then an MP for SP). Through this person, Doshi has bought votes in all election campaigns recently.

In the public release of 21.08.2019, the Leader of Democratic Party, Lulzim Basha, said: “ *the votes for Edi Rama's party are provided by organized crime*”. According to him, the debate between the Socialist Party's leaders in in Shkodra, which was published in the media, is an evidence of this fact.

“Yesterday the public opinion was informed of the debate between the SP's leaders in Shkodra, where it is evident that the party governing the country is led by Tom Doshi, and that the votes for Edi Rama's party are secured by organized crime. During the socialists' debate with Senida Mesi, in order not to hand over Shkodra to Tom Doshi as ordered by Edi Rama, they are talking of the votes secured in Velipoja as well. Senida Mesi denies the contribution of socialists and recognizes his as a person outside the Socialist Party. This person is Pëllumb Gjoka, one of the most powerful drug dealers in Velipoja area and Shkodra, an accomplice of Bajraj gang. In Tirana, he wears the businessman costume enjoying Edi Rama's support. For Edi Rama, the drug dealer Pëllumb Gjoka is collecting votes, while Edi Rama dines with his family and often invites foreign friends in Gjoka's restaurant in the center of Tirana, “, wrote Basha in his social network.

Based on official data of the National Business Center, Mr. **Artur Hata**, the husband of Tom Doshi's party candidate, together with Mr. **Pëllumb Gjoka**, were the shareholders of the company “*American Security & Communication Group*” Shpk, with VAT no. **L42026004U**.

Based on official data of the National Business Center, **Pëllumb Gjoka** incorporated on 29.04.2020 **the company FROZZER Shpk** for “*Import, Export, Wholesale and Retail and Supply of Cleaning and Disinfection Products. Providing cleaning and disinfection services to*

*public and private premises. Providing disinfection and sterilization services. Trade in products related to disinfection and sterilization services. Trade in hygienic, sanitary items in general. **Participation in public and private tenders** to sell and provide products and services in the field of disinfection, sterilization, assistance with agricultural products, treatments or reagents in general. Any other activity directly and indirectly related to and serving to fulfill the activities above-mentioned. Cleaning of indoor and outdoor environments. Cleaning and greenery of outdoor areas. Maintaining indoor and outdoor areas. Importing, packaging and repackaging of products related to the field of cleaning and their trade. 3-D services: disinfection, disinfection and deratization. Providing expert hygiene and sanitary services, hygiene and sanitary intervention services, disinfection, disinsection, deratization and disinfection gas treatment services with products that can store food raw materials, food warehouses, food production plants, etc. The Company will open branches, subsidiaries in other countries for the purpose of exercising its business activity. This activity will take place at international and national level”.*

Based on the public data of the Public Procurement Agency, over the 4-month period before the election day, the above-mentioned company, despite having no experience day, and directly Pëllumb Gjoka was awarded 3 corrupted procurement procedures by Tirana Municipality worth **ALL 153,829,830 or EUR 1,260,900**.

On the other hand, the said drug dealer benefited with the Prime Minister's signing, under a Decision no. 15 of National Territorial Council of 26.01.2021, a “Construction permit for the “Silver Sand Resort” tourist complex for 11.3 ha located in Pulaj-Plazh area, Velipoja, Shkodra Municipality”, awarded to the **Imperial Group sh.p.k**, as a **strategic investment with a special procedure**.

The construction of this resort, despite the special procedure as strategic investment, is contrary to criteria of Buna River Protected Landscape Area and its surrounding wetlands, declared by DCM No. 682, dated 2.11.2005. These criteria are explicitly set in the Law 81/2017 “On Protected Areas”, in Article 48, which bans all types of constructions in the central sub-area of this protected area.

Based on this Article 48, we consider to have an apparent violation of the Law and DCM on Protected Area. However, this ban is not applicable to the persons with criminal records hiding behind such investment. This project is also contrary to territorial planning documents, such as Shkodra Municipality's Local Master Plan, National “Albania 2030” Master Plan, and Integrated Cross-Sectoral Plan for the Coastal Areas, which do not provide for any intervention in this area, but for safeguarding of protected area.

To pave the way for this investment, the Albanian Government undertook a campaign to demolish temporary facilities, like beach bar, in the sand belt. This act demonstrated once again that the state is using every public asset for the purpose of vote buying, by

favoring persons with serious criminal records, who are subsequently giving support through pressure and threatening of citizens and, above all, by implementing the criminal scheme of buying votes in cash, the source of which is the state budget and taxes of Albanian citizens.

The criminal scheme of buying votes in cash implemented by **Tom Doshi, Pëllumb Gjoka, Artur Hata** and **Dor Duli**, persons with serious criminal records, was finalized with **Mrs. Meri Markiçi** winning as MP in the elections of 25 April.

241. **Fushë – Arrëz.** The criminal scheme of vote buying, starting **from ALL 50,000 or EUR 40**, was organized and implemented in this area by **Mr. Fran Tuci**, Mayor of Fushë Arrëz, **Albert Tuci**, the brother of the Mayor of Fushë Arrëz, **Ardjan Marku**, Chief of Fushë Arrëz's Municipal Police, **Anduel Gjinaj**, Urbanist in Fushë Arrëz Municipality, **Bardhok Jaku**, Administrator of Fierza Administrative Unit, **Gjon Gjonaj**, Mayor of Puka, **Lula Mema**, Administrator of Rrapë Administrative Unit, Puka Municipality.

242. **Berat.** Mrs. **Hatixhe Konomi**, candidate running for MP ranked first in the multi-nominal list of Berat District, **Mr. Nasip Naçoo**, an MP candidate ranked fourth in the multi-nominal list of Berat District, **Mr. Mirel Konomi**, Head of Administrative Unit No. 1 of Berat Municipality and Mr. **Lorenc Toroveli**, created a criminal scheme of vote buying with criminal and unidentified financial resources.

This criminal scheme, implemented by the above-mentioned persons, is extended to the entire territory of Berat District and consists in distributing **ALL 5,000 or EUR 40** in exchange for voting for the Socialist Party.

Mr. **Mirel Konomi** is the Head of Administrative Unit No. 1 of Berat Municipality and, at the same time, the brother-in-law of Mrs. Hatixhe Konomi, the candidate leading the list for Berat. This person is paying **ALL 50,000** per voter and is distributing identity card vouchers to those who do not have an ID card. In this case, they buy the voucher to issue an ID and then the citizen receives another **ALL 30,000** in cash, in exchange for the vote.

In this scheme, the data of civil register are used to identify voters, their phone numbers or other data. In almost every Administrative Unit, where the Chairmen, through a trusted employee, stay in office after the official working hours to take voters' data from the civil register.

Mr. **Nasip Naçoo**, an MP candidate ranked fourth in the multi-nominal list of Berat District, in cooperation with his trustee Mr. Lorenc Toroveli, are buying votes for **ALL 50 thousand** in the area of former Velabisht Commune.

243. **Puka.** In Qelez, Qerret, Fierza, Gjegjan and Rrapë areas of Puka Municipality, some persons with criminal records in collaboration with the candidates of Socialist Party running for MPs as well as top-managers and staff of public administration implemented a criminal scheme of buying votes for **EUR 100**.

The criminal vote buying scheme was organized by **Benet Beci**, an MP candidate ranked third in the multi-nominal list of the Socialist Party in Shkodra District, **Tom Doshi**, member of Albanian Parliament, Leader of Social Democratic Party and candidate for MP for Tirana and Shkodra District; a person with serious criminal records, **Mark Frroku**, former MP and a person with serious criminal records and **Gjon Gjonaj**, Mayor of Puka.

The criminal scheme of vote buying for EUR 100 was implemented as follows:

Benet Beci is the organizer of the criminal vote buying scheme on the job. He engaged also **Mark Frroku**, a person with criminal records and all his criminal ties in Puka and mainly in Gjergjan, criminal connections used also in the elections of 2013, 2015 and 2017.

These persons have created a structured criminal group for vote buying and paying in cash through ties with other individuals and administrators or employees of Administrative Units.

In Gjergjan, the criminal vote buying scheme is run and organized by **Mark Frroku** and the cash are paid by Luka family: **Ndue Luka**, **Lek Luka** and **Zef Luka**.

In Rapë, the criminal vote buying scheme is run and organized by **Mark Frroku** and distributors are Mr. **Shkurt Lasku**, owner of “SHSH” Bar-Restaurant-Hotel in Bicaj, and Mr. **Ndricim Lasku**, employee of Rrape Administrative Unit, Puka Municipality, as well as the owner of “Oda e Kabashit”, **Dritan Frroku**.

In Qerret, the criminal vote buying scheme is run and organized by **Mark Frroku** and the distributors are Mr. **Martin Përdedaj**, the Administrator of Qerret Administrative Unit, who is also the husband of the principal of “Pal Lufi” School and at the same time an employee of the administrative unit.

In Qelëz, the criminal vote buying scheme is run and organized by **Mark Frroku** and distributors are Mr. **Florin Kolaj**, Administrator of Qelëz Administrative Unit, **Arben Guga**, Municipal Counselor and **Sokol Frroku**, the driver of the Mayor of Puka.

In the town of Puka, some cash distribution points are active, namely:

“Oda e Kabashi”- with distributor **Mr. Dritan Frroku**.

The bar is owned by the Hajdaraj family, where Mrs. **Dake Hajdari (Curri)**, who is affiliated with **Mark Frroku**.

“Hotel Tourism Puka”, where the Co-owner is the Mayor of Puka, **Gjon Gjoni**, also the organizer and distributor of cash in exchange for votes through the staff of Municipal Administration, mainly service employees.

In Fierza, the criminal vote buying scheme is run and organized by **Benet Beci**, in the capacity of Director of KESH and **Vasil Muslia**, the Director of Fierza HPP.

In Fushë – Arrëz Municipality, the criminal vote buying and cash distribution scheme is run and organized by **Tom Doshi** in person.

244. **Tropoja.** The votes are bought by the Director of Services in Tropoja Municipality, **Altin Zenelaj** for ALL **10,000** or **EUR 83**. This phenomenon was verified after receiving money from Mr. Përparim Dem Malaj, Sefer Isuf Hajdarmetaj, Valdete Isuf Hajdarmetaj, Mylazim Kursmajli, from Mark village.

245. **Tirana.** The criminal scheme of vote buying in cash was organized by **Tom Doshi**, who, as noted above, was a candidate for MP in Tirana and Shkodra District. He is also a person with serious criminal records and by Decision of 16 April 2018, the US Department of State banned him from entering the US *for being significantly involved in major corruption cases*. This criminal scheme has been implemented by persons with serious criminal records by using cash originating directly as a product of crime and corruption.

Filip Gjeloši and **Pal Gjeloši** (Filip's uncle), two of the main elements of crime world in Tirana, involved in serious crimes, such as murder, kidnapping and others, are in charge of vote buying in Unit No. 4 in Tirana, “Siri Kodra” Street, Allias and Babrru.

In “Qemal Stafa” street, Administrative Unit No. 8, in Tirana, in the place known as “Neli's Bar” is created a structure for vote buying, blackmail and threatening, and collecting ID cards from persons directly related to the Socialist Party.

This criminal vote buying scheme is organized and operated by Mr. **Aleksandër Lipivani**, **Emiljano Dusha**, **Ardian Davidhi**, **Rexhep Spahiu**, **Marlind Shkreli** and a person named **Klodi**, who are paying cash to citizens in exchange for votes for the Socialist Party.

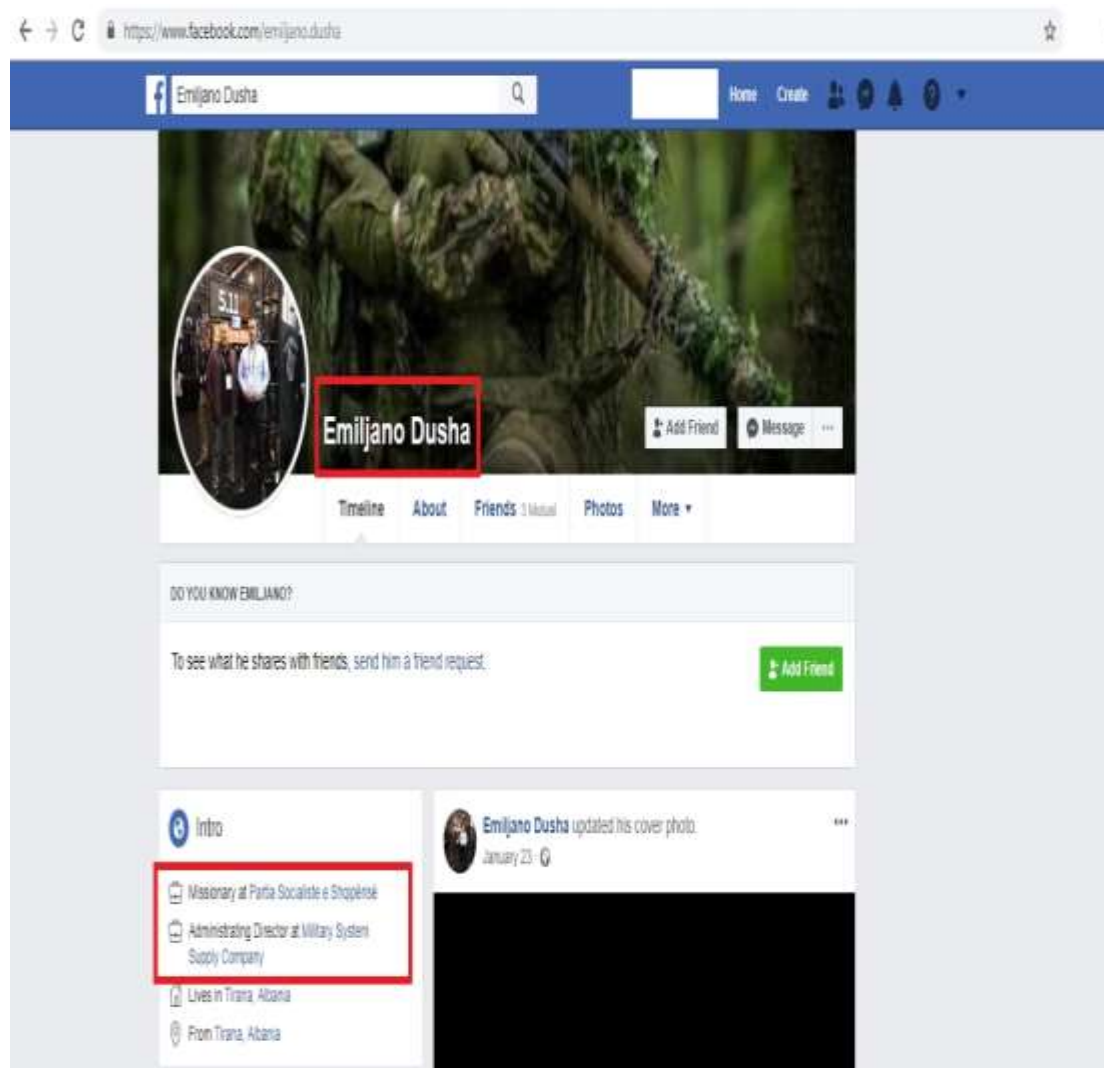

The main persons of this scheme are **Alexander Lipivani**, **Emiljano Dusha** and **Ardian Davidhi**, who are also considered as the “money bags” distributing cash to citizens in exchange for votes.

The source of money is entirely unlawful and a product of criminal activities. This because Mr. **Aleksandër Lipivani**, as an employee of the public administration, has often been accused of corruption over the years. Mr. **Emiljano Dusha**, who is the owner of **MSSC Military System Supply Company Sh.p.k** with VAT No. L01306040L, is a beneficiary of Government money not only through corrupt

procurement procedures but also classified (secret) contracts for purchasing arms and equipment for the State Police, the Republican Guard and the Prison Police.

Based on Public Procurement Agency's official data, this company was awarded **5 corrupt procurement procedures** worth **EUR 3 million**, without free competition in bidding, but it was the highest bid with a difference of thousands of EUR from the lowest bid and the contracts value is 98% of the limit fund value. On the other hand, based on official data of the Ministry of Finance, this company has benefited from **55 treasury transactions classified (secret) contracts** worth **EUR 11 million**.

Based on official data, Mr. **Emiljano Dusha**, who introduces himself as a “missionary of the Socialist Party” in social media, was awarded EUR 14 million tenders and secret contracts from the Government and already used this money in violation of the law in the campaign to buy votes.

In addition, Public Procurement Agency's official data, the fact that Mr. **Ardian Davidhi**, through his company **KOAN Shpk** with VAT K41710001D, has benefited from 12 procurement procedures worth EUR 5.7 million. These tenders were mainly awarded without open competition or as the highest bid with a difference of thousands of EUR with the lowest bid and where the value of the contracts is 97% of the limit fund value.

Another key person in vote buying in Tirana is Mr. **Aqif Rakipi**, who was elected a member of Albanian Parliament from the multi-nominal list of Elbasan District in the IX legislature.

Based on the Law 138/2015 “*On Guaranteeing the Integrity of Persons Elected, Appointed or Performing Public Duties*” and under Decision No. 4, dated 05.01.2018, the Central Election Commission revoked him the MP's mandate because of criminal records.

The above-mentioned person is also known worldwide for his connections with crime and gangs. In elections of 25 April, despite he did not run-in person, with his direct support and criminal gangs, his son **Ornaldo Rakipi** was 30th in the multi-nominal list of Socialist Party in Tirana, while his son-in-law, **Saimir Hasalla**, was 5th in the multi-nominal list of Socialist Party in Elbasan.

Both of these persons resulted among the most voted in the respective districts, as well as among the most voted at national level.

Ornaldo Rakipi, despite not having a single day of experience in political, managed to get 15,700 votes. He is going to enter the upcoming Parliament as the most preferred candidates from the residents of Vora, Gerdec, Marqinet and a number of other villages in Tirana outskirts, the third most voted in Tirana District and among the most voted in Albania. On the other hand, **Saimir Hasalla** received 11,528 votes, entering the Parliament as the second most voted in Elbasan District and among the most voted in Albania.

Such high number of votes that the above-mentioned persons are the result of direct intervention of **Mr. Aqif Rakipi** and his ties with the world of crime and the use of public human and asset resources as explained below.

The criminal vote buying scheme, i.e., paying in cash in exchange for voting for Ornaldo Rakipi, in Administrative Unit No. 2 in Tirana was implemented by Mr. **Alban Dushku**, Vice Director of Anti-Smuggling in Customs. Mr. **Ilir Dauti**, an employee of UKT and, at the same time, a person with a criminal record involved

in hostage-taking and beatings. And **Lorenc Metani** who lives between England and Albania.

The criminal vote buying scheme, i.e., paying in cash in exchange for voting for Orinaldo Rakipi, in Administrative Unit No. 2 and 12 in Tiranë was implemented by Mr. **Veiz Tresa**, former Director of OSHEE, convicted of corruption and owner of “Tresa Farm” in Baldushk.

The criminal scheme of vote buying for Orinaldo Rakipi in Vora Municipality was implemented through the distribution of public funds, in the context of reconstruction process and disbursement of this fund only a few days before election day on April 25. It was implemented directly by Mr. **Gentian Picari**, Mayor of Vora, **Roland Muka**, Director of Taxes, in Vora Municipality, **Ahmet Gjika**, Director of Vora Water Supply and Sewerage Company, **Sajmir Alushi**, Administrator of Preza Unit, **Dritan Zeneli**, Administrator of Bërxull - Domje Unit, **Bernard Shiba**, Member of Municipal Council, **Besnik Shateli**, **Sajmir Merja**, **Asllan Treziu**, **Zenel Picari**, the father of the current Mayor and **Bashkim Muça**.

The criminal scheme of vote buying, for Orinaldo Rakipi in Kavaja Municipality by paying in cash or in kind in exchange for votes, was implemented by Mr. **Ervin** or **Elvis Rroshi**, former Mayor of Kavaja, convicted of “rape” in 1992 in Italy, as well as **Redjan Krali**, Mayor of Kavaja.

The criminal scheme of vote buying for Orinaldo Rakipi in Rrogozhina Municipality by paying in cash or in kind in exchange for votes was implemented by **Luan Sheshi**, Municipal Police Officer, **Besmir Pone**, administrative staff of Rrogozhina Municipality (resident in Durrës), **Elidon Bega**, administrative staff of Rrogozhina Municipality (resident in Tiranë), **Mir Meka**, beneficiary of the Municipality, as he is managing the Bazaar of Rrogozhina, **Hajrulla Kalo**, former administrator of Gosa Administrative Unit, **Astrit Abazi**, businessman, **Shkelqim Gjoni**, Administrator of Kryevindh Administrative Unit, **Denis Sako**, administrative staff of Rrogozhina Municipality, **Agron Xhelezi**, Head of Spille Village and **Artur Tosku**, a former administrative staff, convicted of abuse of office.

In Rrogozhina Municipality, Mr. **Artur Demiri** was directly involved in the criminal vote buying scheme. Despite being sentenced to house arrest, he was one of the most active persons in the campaign and buying votes in favor of Orinaldo Rakipi. **Likewise, is Mr. Agust Hoxha**, who is running a kiosk on Spille beach.

Two days after the election, Aqif Rakip's gangs shoot Mr. **Agust Hoxha** with two bullets in his leg because they were not satisfied with the results of votes bought in

this area. Due to the dangerousness of gangs connected to Aqif Rakipi and for fear, Mr. Hoxha did not file a criminal report with the competent bodies.

Mr. **Kol Hyseni**, a prosecutor of Tirana Prosecution Office, has been working every day on the campaign to collect votes for the Socialist Party by paying in cash. Kol Hyseni owns a bar in front of Tirana Prosecution Office. In this bar, the actual purchase of votes was made by paying **from EUR 200 to 300**. Such payments were made by the director of OSHEE Tirana in person, Mr. **Klevis Jahaj**.

B. Involvement of persons with criminal records in the campaign (17 facts)

246. **Mr. Vangjush Dako**, the former Mayor of Durres, is campaigning for the Socialist Party. The US Department of State banned him and his family from entering the United States for involvement in major corruption cases. The purpose of his involvement in the campaign was to maximize the number of votes for the Socialist Party, as Mr. Dako is one of the most influential persons in the world of crime and corruption in this district.

Dako's ties with organised crime were made known in two cases. *In the first case*, on 5 December 2016, Durrës Court of Appeal released **Lulzim Berisha**, leader of Durrës gang because Mr. Dako gave a guarantee for his employment in Durrës Municipality.

In the second case, the inclusion of Dako in **file 339/1**. Bild's wiretapping shows that Mr. Dako has communication with Astrit Avdylaj, leader of an international drug trafficking organization, for the elections of 2017. The candidates for MP and current MPs in office of the SP were **Jurgis Çyrbja, Ilir Ndraxhi, Rahman Raja**, known for their ties with organised crime. Çyrbja, former director Cadastre, has appeared in prosecution's wiretaps as involved in crimes. The concrete case was the privatization of Volga. Ndraxhi appeared on BILD's wiretaps as the man for whom criminals had been working to secure votes for him. Rahman Raja and his family are known as criminal gang in Fushë Kruja and his family members are persons with terrible criminal records.

247. **Mr. Mark Frroku**, former MP and a person with criminal records is involved in the campaign of the Socialist Party in Shkodra District. In the photo below he appears next to Socialist candidates for MP, Benet Beci and Ilir Beqja.

248. **Rexhë Byberi**, Mayor of Tropoja, is the leader of the criminal group in Tropoja, identified by Kukës Police Directorate for organized crime, corruption, abuse of office, violation of equality in tenders, hiding of assets, etc. This person has several criminal cases in trial before SPAK Court in Tirana and the court hearings have started. Up to date, he has postponed the proceedings by not showing up until after the elections of 25 April 2021. In addition to the cases against Mr. Rexh Byberi under investigation by Prosecution Office and SPAK, he is under investigation also by Tropoja Prosecution Office. Some persons employed in Tropoja Municipality and currently involved in election campaign are part of the criminal group led by Rexhë Byberi.
249. **Adem Lalaj**, born on 28 April 1967, in Nikoliq, Has, currently leader of Socialist Party Branch in Has Municipality, is the leader of criminal group in Has, identified by Kukës Police Directorate for organized crime, corruption, abuse of office, violation of equality in tenders, hiding of assets, etc. This person was convicted by SPAK Court of Appeal in Tirana. The Special Court found Mr. Adem Lala guilty of charges and sentenced him to one year in prison. Due to the expedited trial, the sentence was reduced to 8 months and the court decided to suspend him for a probationary period of 1 year and 4 months. Likewise, the Court decided to prohibit Mr. Lala from holding any public office for 5 years.
250. **Kujtim Onjea**, the brother-in-law of the driver of Gjirokastra Municipality, was dismissed from Tepelena prison for serious criminal violations. After being involved in the campaign for the Socialist Party, he was recently appointed to Saranda prison.
251. The involvement of persons with serious criminal records in Gjirokastra, who have been and are part of state police structures, such as **Julian Qibini, Bilbil Makri, Oltion Bistri, Perlat Cullaj, Klodian Haruni, Edmond Targaj, Maks Hadëri and Ervin Hoxha**. Gjirokastra Branch of Democratic Party denounced this case in a media release.
252. **Elbasan**. On 14.03.2021, at 10.00, according to the official announcement, the Democratic Party of Albania held an event on the occasion of summer day on the main boulevard of the town of Elbasan.

At 10.20, while the Leader DP, Mr. Lulzim Basha was holding a meeting in the inside the former Tourism hotel and DP sympathizers were staying outside in the square of former Tourism hotel, in front of the square on the side of Elbasan Castle, the Prime Minister of Albania Mr. Edi Rama passed accompanied by members of criminal groups, local officials and supporters of the Socialist Party.

Some of the DP's supporters started to shout “Rama Go Away” while the Prime Minister was passing by. At this moment, some of the persons, also members of criminal groups, who were close to the Prime Minister, confronted and clashed by pushing and threatening some of the DP's supporters.

These persons are Pjerin Xhuvani and Marsel Rrokaj, the latter is the son of Agron Rrokaj, head of Human Resources at Elbasan Prison Directorate.

After 40 minutes, as the Prime Minister was coming back from his walk and other supporters were accompanying him, some DP's supporters repeated the calls “Rama Go Away”. At this moment, the Prime Minister stopped and turned in front of DP's supporters making gestures with his hands and head. Some of the supporters who were closely accompanying the Prime Minister separated from him and started to threaten and offend the leader of Opposition and his supporters. These persons are:

Pjerin Anastas Xhuvani, born on 02.11.1965,
Klemend Ymer Xhaferri, born 25.12.1982,
Marsel Agron Rroka, born 23.03.1987,

Met Peqini (Met of Tuja) and Tit Caka are engaged in collecting ID documents and vote buying in the neighborhood known as “New Train Road”.

Shaqir Prroi, Donald Varfi and Shyqeri Hoxha are engaged in collecting ID documents and vote buying in “Haxhias” Quarter.

Afrim Vullnetari is engaged in collecting ID cards and vote buying in “5 May” Quarter. A bar known as “the bar with arches” is used as a base for distribution of narcotics in the town of Elbasan.

Fadil Meta, a State Police staff, is engaged in collecting ID cards and vote buying in “Fushë-Mbret” Quarter.

Endi Haxhia, Mario Çela and Gëzim Rusi are engaged in collecting ID cards and vote buying in “5 May” Quarter.

Gent Sharra, Marsel Rroka and Klement Xhaferri are engaged in collecting ID cards and vote buying in “Fushë-Mbret” Quarter.

Gen Coku, Ervin Gjoka, Durim Koci, Ligor Macolli, Durim Sadiku, Art Majori, Gjel Ndreca, Shkelqim Deliu, Kujtim Haka, Ibrahim Musmuca, Altin Fizaku, Shazivar Haka, are engaged in the scheme of distributing cash and collecting ID cards in some zones of the town of Elbasan.

Agron Rrokaj, Chief of Human Resources at Elbasan Prison, and **Krenar Kasi**, Commander of Accompanying Group at Elbasan Prison, are active at the pre-trial prison of Bradashesh, blackmailing prisoners so that their family members cast votes for the SP in the elections of 25 April.

274. **Berat. Mrs. Hatixhe Konomi**, an MP candidate, ranked first in the multi-nominal list of Berat District, **Mr. Nasip Naço**, an MP candidate, ranked fourth in the multi-nominal list of Berat District, **Mr. Mirel Konomi**, Head of Administrative Unit No. 1 of Berat Municipality and **Mr. Lorenc Toroveli**, have created a criminal scheme of collecting ID card for ALL 5,000 or EUR 40.

275. On 05.10.2020, the Investigative Show “STOP”, on Klan TV, confirmed with voice and image that the hospital staff have handed over their ID cards to the hospital directorate. But this is not all. Some of them have also handed over the ID cards of their family members. The medical staff admitted that the Peshkopia Hospital Directorate has collected ID cards for the general elections of 25 April 2021.

276. **Shkodra**. The criminal scheme of collecting ID cards by paying in cash is organized by **Tom Doshi** and **Pëllumb Gjoka** and implemented by **Artur Hata** and **Dor Duli**, all persons with serious criminal records.

277. **Tirana**. The criminal scheme of collecting ID cards by paying in cash is organized by **Tom Doshi**. And it is implemented by **Filip Gjeloshi** and **Pal Gjeloshi** (Filip's uncle), two of the main elements of crime world in Tirana, involved in serious crimes,

such as murder, kidnapping and others. Mr. **Aleksandër Lipivani**, **Emiljano Dusha**, **Ardian Davidhi**, **Rexhep Spahiu**, **Marlind Shkreli**, who have collected ID cards in exchange for votes at “Qemal Stafa” street, Administrative Unit No. 8 in Tirana, at the place known as “Neli's Bar”.

278. **Korça.** The criminal scheme of collecting ID cards for cash is implemented by **Besa Spaho**, Director of Mortgage Office in Korça, **Jani Andoni**, Deputy Mayor of Korça, **Ketjon Kita**, Deputy Mayor of Korça, **Marjana Lera**, Director of State Social Service and **Alfons Vranishti**, staff of Korça Municipality administration.

E. Use of economic aid, food and Earthquake Fund for vote buying

E.1 Distribution of food in exchange of vote(3 facts)

279. **Rrogozhina.** During this period, the citizens in economic difficulties or families in need are helped through various aids. This is because this social group has most of the population and is being massively used for election campaigns to maximize the number of votes for the Socialist Party.

Knowing very well the sensitivity of this group in the elections and considering many poor families live in Rrogozhina, on 18.03.2021, in Quarter No. 1 in Rrogozhina (see photo attached to this Report), during the official working hours, Mr. **Rakip Tosku**, Head of Civil Emergency in Rrogozhina Municipality, distributed aids, like blankets and clothing in exchange for votes, by order of the Mayor **Edison Memolla**, with the intention to maximize number of rigged votes for the Socialist Party.

We stress that this is not a sporadic case. It is part of the daily electoral activity and consists in allocating aids in exchange for votes for Socialist Party.

Mr. Rakip Tosku has used a car owned by Rrogozhina Municipality for the distribution of aids to different families, in complete violation of the law.

Below, we have inserted some photos from the distribution of aids in Quarter No. 1, in Rrogozhina Municipality, by Mr. Rakip Tosku.

Through such actions Mr. **Rakip Tosku**, Head of Civil Emergency in Rrogozhina Municipality and Mr. **Edison Memolla**, Mayor of Rrogozhina Municipality have consumed the elements of “**Abuse of Office**”, provided by Article 248. “**Active Corruption in Elections**” provided by Article 328, and “**Use of public office for political or electoral activities**” provided by Article 328/a of the Criminal Code. For this case, the Democratic Party has filed a report with SPAK.

280. **Tirana.** On 14.04.2021, to favor the candidate Ogerta Manastirliu in the elections of 25 April, food was distributed to families in need in exchange for votes by using a vehicle owned by the Tirana Municipality and the food was stored in the premises of “Petro Zheji Library”, in Administrative Unit No. 9, Tirana.

We stress that Erion Veliaj, in the capacity of Political Leader of Tirana District, has made available the entire structure of administration and public assets of Tirana Municipality to serve the election campaign and to maximize the number of votes for the Socialist Party's Candidates.

281. **Berat.** On 19.04.2021, the Socialist Party distributed food in exchange for voting in Berat district, by using the food resources of the state reserve. This food stuff was transported in a van that was caught red handed by some of Berat citizens and the political leader of Democratic Party, Mr. Tomor Alizoti. The video images show clearly that boxes containing foods have the “*State Material Reserves*” logo⁶⁵.

The organizer and implementer of this criminal scheme was Mrs. **Joana Melengu**, chairwoman of Administrative Unit No. 2 in Berat Municipality, who was also on the list of SP's observers for ballot counting in Berat District, an observer at Table No. 3 of KAS, and she threatened the Democratic Party's observer.

E.2 Fraud through economic assistance (1 fact)

282. **Mr. Taulant Balla** was appointed political leader in Elbasan District for the Socialist Party and also holds the office of Secretary General of this party, as well as Chair of the Parliamentary Group of SP.

We mention all the hats of this person for the sole reason of showing that this person, in his state or political activity, has nothing to do with the economic assistance of vulnerable families. However, **using DCM No. 85, dated 10.02.2021**, he used the temporary doubling of economic assistance for political benefits.

Beneficiaries of economic assistance in Elbasan District were called from several telephone numbers identified by us. The Economic assistance beneficiaries were informed that the doubling of economic assistance for them was made by Taulant Balla. Some of the phone numbers from which this message was sent are as follows:

0696038505
0686059399
0686067361
0686052471
0686042338

The message sent to these vulnerable persons from the above telephone numbers is:

“Hello, this message is from Taulant Balla's office and we would like to inform you that your economic assistance was doubled from February to June. This is was made possible from Taulant Balla. We look forward to your support. Thank you.

Some families, beneficiaries of economic assistance were exerted pressure from them, i.e., they would have benefited the assistance only in exchange for votes for Socialist Party.

It is evident that those who made such phone calls and are unidentified by us are part of Mr. Taulant Balla's Election Staff and follow his orders and instructions.

As a consequence, these persons, in collaboration with Mr. Taulant Balla, have committed election crimes, such as “Active Corruption in Elections” in collaboration with others, provided by Articles 328 and 25 of the Criminal Code,

and “Use of public office for political or electoral activities” provided by Article 328/a paragraph 4. For this case, the Democratic Party has filed a report before SPAK on 23.02.2021.

This person is aware of the fact that Regulatory Commission at CEC has adopted Decision of the Regulatory Commission No. 9 dated 24.12.2020 “*On reporting rules of activities of a public character of any public institution and with state capital, agencies, state entities, categories of prohibited activities, as well as monitoring the activity, conduct and use of human, financial and logistical resources of state administration before the elections*”. One of the prohibited activities is precisely the latter promoted by this person and this is explicitly laid down in Article 3, paragraph 3 hereof.

E.3 Use of Earthquake Funds for vote buying

E.3/a Unconditional Transfers of Earthquake Reconstruction Fund used for vote buying(1 fact)

283. After the earthquake of 26.11.2019, the Albanian Government adopted a series of Laws, Decisions of the Council of Ministers and Decisions of the Municipal Councils concerning introduction and implementation of measures to eliminate the consequences and rebuild the damaged and destroyed buildings from the earthquake, defining the beneficiary buildings and the amount to be spent.

Taking advantage of the natural disaster, the Government and the Municipalities have created a criminal scheme of vote buying and corruption with the earthquake reconstruction funds, in order to maximize number of votes for the Socialist Party, thus consuming serious criminal offenses and extraordinary corrupt affairs.

Such criminal scheme of vote buying through reconstruction grants to individuals is evidenced by the official data of the General Directorate of Treasury, Ministry of Finance (<https://www.financa.gov.al/thesari-borxhi/>) during the election campaign period and related to the Reconstruction Fund and namely **Budgetary Increase in Unconditional Transfers to 11 Municipalities**, namely **Tirana Municipality, Kamza Municipality, Kurbin Municipality, Shijak Municipality, Vora Municipality, Durrës Municipality, Kavaja Municipality, Mirdita Municipality, Rrogozhina Municipality, Kruja Municipality and Lezha Municipality.**

Based on the public data of the Ministry of Finance, under **decisions of the Council of Ministers, Unconditional Transfers of Reconstruction Fund** were

used to maximize the number of votes for the Socialist Party, during the election period **from 1 January 2021 to 25 April 2021**, i.e., **4 months before election day**, as provided by **Election Code and Decision No. 9/2020 of the Regulatory Commission, Central Election Commission**.

The budget increase in unconditional transfer to eleven Municipalities from the Reconstruction Fund from **1 January 2021 to 25 April 2021** is **ALL 15,430,836,420** or **EUR 125,556,033**.

Only in the last 30 days of election campaign, this unconditional transfer to the municipalities affected by the earthquake amounted to **ALL 8,574,636,507** or **EUR 70,283,988**.

Contrary to Election Code, in the first quarter of the year, the Albanian Government has spent 56% of the total Reconstruction Fund in **unconditional transfers to municipalities**. Most of transfers were transfers to individuals, i.e., **compensation in cash**.

On 1 December 2020, a report of the International Monetary Fund (IMF) criticized the Albanian Government for failing to implement the post-earthquake reconstruction project, which **in September was only 8% of the total**. The IMF report says *“Total spending increased by 5.5 percent on an annual basis, but is underachieved compared to the budget plan. This underachievement is particularly evident for post-earthquake reconstruction, with spending in September being only 8 percent of annual budget planning.”*

Unexpectedly, in 2021, we notice a determination to implement the Reconstruction Fund, **particularly during the electoral period from 25 March 2021 to 25 April 2021**. It is apparent that the state has organized and is implementing a **criminal scheme of vote buying through funds and reconstruction process**.

The Council of Ministers meeting of **25 March**, i.e., within the electoral period under the Election Code, allocated **ALL 7,488,614,019** or **EUR 60,932,579** to municipalities as unconditional transfer from the Reconstruction Fund.

The Council of Ministers meeting of **31 March**, i.e., within the electoral period under the Election Code, allocated **ALL 391,879,325** or **EUR 3,188,603** to municipalities as unconditional transfer from the Reconstruction Fund.

The Council of Ministers meeting of **14 April**, i.e., within the electoral period under the Election Code, allocated **ALL 694,301,163** or **EUR 5,649,318** to municipalities as unconditional transfer from the Reconstruction Fund.

Under decision of the Council of Ministers for the period January - 24 April, i.e., electoral period under the Election Code, the Albanian Government allocated **ALL 6,856,199,913** or **EUR 55,786,818** to municipalities as unconditional transfer from the Reconstruction Fund.

Under decision of the Council of Ministers for the period 25 March - 25 April, i.e., electoral period under the Election Code, the Albanian Government allocated **ALL 8,574,646,507** or **EUR 70,283,988** to municipalities as unconditional transfer from the Reconstruction Fund.

Under decision of the Council of Ministers for the period January - 25 April, i.e., electoral period under the Election Code, the Albanian Government allocated **ALL 15,430,836,420** or **EUR 125,556,033** to municipalities as unconditional transfer from the Reconstruction Fund.

All unconditional transfers from the Reconstruction Fund made during the election period were used to rig the citizens' vote in favor of maximizing the number of illegal votes for the Socialist Party and its candidates.

Below is a diagram from Open Data Albania for Unconditional Transfers from Reconstruction Fund to each municipality, including the election date and the pre-election date. Its data were received from the Ministry of Finance, the General Directorate of Treasury and the Ministry of Reconstruction.

Under the Law on State Budget 2021, the unconditional transfers to these 11 municipalities amounted to **ALL 8,299,271,256** or **EUR 70,283,988**. However, under DCM, in **four months only, the increase in unconditional transfers to these 11 municipalities amounted to ALL 15,430,836,420** or **EUR 125,556,033**, i.e., an **186% increase**.

Tirana, Durrës, Kamza and Kurbin Municipalities received the highest increase, whereas **Vora Municipality (549%)**, **Kurbin Municipality (340%)**, **Tirana Municipality (250%)** and **Shijak Municipality (228%)** received the highest increase in unconditional transfers to municipalities according to the Law on Budget 2021.

The municipalities benefiting from unconditional transfers, under decisions of the Council of Ministers, from this fund, between **25 March 2021 and 25 April 2021**, are presented in the tables below.

Typical unconditional transfers are State Budget funds for Municipalities to guarantee some basic services of the Local Government such as basic education, social protection, forest management, roads, water, etc. It is provided by a formula each year and is approved as a separate table and item of the Law on State Budget. If we compare the amount of December 2020 with the increases allocated to Municipalities, as unconditional Reconstruction Transfers, under a pre-election DCM and during the electoral period DCM, we notice a significant increase during the period considered as electoral date by the Election Code.

There was no dividing line between the state and the ruling party during these elections, as the administration and public assets were unlawfully made available to the Socialist Party to maximize the number of votes in the elections of 25 April.

Minister of State for Reconstruction **Arben Ahmetaj**, Mayor of Tirana **Erion Veliaj**, Mayor of Kamza **Rakip Suli**, Mayor of Kurbin **Majlinda Cara**, Mayor of Shijak **Elton Arbana**, Mayor of Vora **Gentian Picari**, Mayor of Durres **Emiriana Sako**, Mayor of Kavaja **Redjan Krali**, Mayor of Mirdita **Ndrec Dedaj**, Mayor of Rrogozhina **Edison Memolla**, Mayor of Kruja **Artur Bushi** and Mayor of Lezha **Pjerin Ndreu**, with active criminal actions and direct intent have organized and implemented a criminal scheme of vote buying through reconstruction funds, especially in Tirana and Durrës districts, as these two districts have the biggest number of MPs.

D.3/b Using the Reconstruction Fund for vote buying from persons who did not suffer damages from the earthquake: Investigative Show “STOP”(1 fact)

284. On 24 March 2021, STOP TV Show (season 6, episode 143) addressed the issue of abuse of earthquake funds in Kamza Municipality.

The area called former-stalls, in Bathore Administrative Unit, Kamza Municipality, was one of the areas affected by the earthquake of 26.11.2020. The Stop TV Show has received several complaints related to the Bathore Administrative Unit allocating funds for reconstruction of houses affected by the earthquake.

According to the legal provisions, every head of household with a house appraised a DS3 should receive ALL 450,000 as compensation for the repair of the house. Some residents say this amount is not enough to make the house habitable again. Others say they have not received any cash benefits, unlike their neighbors, who are in the same or even more worse conditions.

There are some residents in the former-stalls area who have commented on benefiting the reconstruction grant.

Resident 1, Mr. Agim Topalli. His house was appraised as DS3 and has received ALL 450.000. He considers this amount as insufficient for the reconstruction of the house.

For resident 2, the house classification based on papers is DS4, but he has benefited DS3 status. He added that a part of the area's residents has received rental bonus while living in their home.

Resident 3 has not benefited anything for the house damages. When he went at the administrative unit to ask for information, they told him that he has no certificate of title and is not eligible to receive any money.

Resident 4, Mr. Sefer Tanushi, admits the injustice that the municipality or the State have done with the allocation of funds. 30 families have benefited. Among them are two of his neighbors who benefited from the reconstruction fund, while he received nothing.

In the list of names that “Stop” TV Show managed to find, there are persons who, despite not eligible, have received funds. In addition to the head of household, in some families, also other family members have received cash. Some families that do not live in the former-stalls area, and some live abroad, are part of the list that Stop TV Show has.

If a house is damaged, it doesn't matter how many family members live in it, for only the head of household is the beneficiary. On the basis of uncontested confirmations, persons living abroad and in Kosovo have benefited.

STOP TV Show managed to find the list of DST compensation fund. Under Draft Decision No. 130 dated 02.02.2021 “On approving the list of beneficiaries of the reconstruction grant”, Kamza Municipality set up a Special Reconstruction Commission for collective buildings. The members of this Commission are **Ardjen Markola, Erlend Baballëku, Teuta Çami, Mirela Ndreu, Ernest Sinani**. Contrary to what the procedure foresees, they are not part of Kamza Municipality.

Referring to “STOP” TV Show and the list of beneficiaries it managed to find, the head of first household, Agim Ibish Lleshi is the beneficiary of ALL 450.000 for the reconstruction of the house according to the definition made for this family under DS3 form. Surprisingly, we notice from the list, that three other members of

this family have also benefited cash: Ermal Agim Lleshi, Egzon Agim Lleshi and Ramazan Agim Lleshi. The abuse of Earthquake Funds for this family amounts to ALL 1.35 million.

In the second family, Vehap Ibish Lleshi is the head of household. However, another member of this family, Eduard Vehap Lleshi, appears to have benefited. The abuse of Earthquake Funds for this family amounts to ALL 450.000.

In the third family, Fatime Bajram Bulica is the head of household and entitled to receive ALL 450.000. Meanwhile, according to the list, two other members of this family, Agim Jonuz Bulica and Urim Jonuz Bulica, also have benefited. The abuse of Earthquake Funds for this family amounts to ALL 900.000.

In the fourth family, Shkëlzen Bajram Hasa is the head of household and entitled to receive ALL 450.000, but also Ardit Shkëlzen Hasa and Bajram Shkëlzen Hasa appear on the list. The abuse of Earthquake Funds for this family amounts to ALL 900.000.

In the fifth family, Xhemal Bajram Toluli is the head of household and entitled to ALL 450.000 under the law, but Ylli Xhemal Toluli is also on the list. The abuse of Earthquake Funds for this family amounts to ALL 450.000.

As it is clear from this list, Bathore Administrative Unit has a set an ALL 450.000-fund to be allocated to each head of household. However, it has abusively allocated this amount to all members of a family, in some cases, despite the law provides that only the head of household is entitled to this fund to make the house habitable.

As a result, many families who really needed and are entitled to compensation for reconstruction have not benefited.

Some persons that are not residents of the former-stall area in Bathore and some that live abroad are part of this list. Surprisingly they have received ALL 450.000 from Bathore Administrative Unit as follows:

Rexhep Haxhi Mulaku and Ardian Fatmir Hamzaj are not residents of former-Stalls in Bathore.

Fatmir Vesel Lashi results to live in Italy.

Elisabeta Agim Kurhaska results to be married in Kosovo.

To be transparent and to dig further into this case, “Stop” TV show went first at Bathore Administrative Unit and Kamza Municipality to ask whether this limit fund allocated to rebuild the houses falling into DS3 category is paid to all family members or only the head of household. Bathore Administrative Unit confirmed that only the head of household and not all family members were entitled to this amount. From Bathore Administrative Unit, Kamza Municipality, a female employee and a male employee named Elidon Marku, answered.

Such favoritism, i.e., allocating grants and compensation to some of Bathore residents who are not damaged by the earthquake or are not residents of the area, but live abroad, is not only a corrupt affair, but was used by the Ministry of Reconstruction, Kamza Municipality and Bathore Administrative Unit to maximize unlawfully the number of votes for the Socialist Party.

E.3/c Using the Reconstruction Fund to maximize the number of votes in Rogozhina (1 fact)

After the earthquake of 26.11.2019, the Albanian Government adopted a series of Laws, Decisions of the Council of Ministers and Decisions of the Municipal Councils concerning introduction and implementation of measures to eliminate the consequences and rebuild the damaged and destroyed buildings from the earthquake, defining the beneficiary buildings and the amount to be spent.

Taking advantage of the natural disaster, the Government and the Municipalities have created a criminal scheme of vote buying and corruption with the earthquake reconstruction funds, in order to maximize number of votes for the Socialist Party, thus consuming serious criminal offenses and extraordinary corrupt affairs.

In Rogozhina Municipality, Tirana District, an organized criminal scheme of vote buying and corruption through reconstruction funds and process is implemented. This municipality and its surroundings were not hit by the earthquake of 26 November, but the buildings of 1970s in Lekaj, Sinaballaj and Cikallesh suffered major damage making them non habitable.

These areas are on the outskirts of the hills, on the top, where there has never been any road infrastructure and where dozens of families are trapped due to the natural disaster, i.e., the earthquake.

For two years now, since their houses are non-habitable due to damages caused by the earthquake, these families have been living in extreme poverty, in plastic tents, and without any support from the government or the municipality.

The criminal scheme of vote buying in Rrogozhina starts with the Municipality designing houses alleged to be damaged by the earthquake. The first list has 1,700 houses/households alleged to be damaged, which initially were categorized as DS1, DS2 and only 20% of them as DS3. Despite this categorization, all these dwellings were categorized as DS4 and DS5 on the final list.

On 12.04.2021, at a meeting with closed doors and without any transparency, the Municipal Council of Rrogozhina decided to include, in addition to the first 1,700 houses/households, also 871 houses/households as beneficiaries of reconstruction funds.

This decision lays down the list of specifications per square meters of the building, the number of beneficiaries and the total value for each category as follows:

1. 57 buildings categorized DS2 under 100 m² and entitled to ALL 200,000/building or ALL 11,400,000/total.
2. 210 buildings categorized DS2 over 100 m² and entitled to ALL 250,000/building or ALL 52,500,000/total.
3. 32 buildings categorized DS3 under 100 m² and entitled to ALL 400,000/building or ALL 12,800,000/total.
4. 572 buildings are categorized DS3 over 100 m² and entitled to all 500,000/building or all 286,500,000/total.

According to this decision, 871 houses/households categorized as DS2 and DS3 are beneficiaries, entitled to an ALL 362,700,000 in total.

On the other hand, by Decision No. 20 dated 24.3.2021 “*On determining the amounts to be allocated to the beneficiaries of reconstruction grant for the DS4 and DS5 buildings*”, the Municipality approved to give grant also to 85 families. The citizens will make such reconstructions on their own with the grants received from the State.

Under this decision, the families with more than 4 members are entitled to ALL 35 million grant; the families with more than 3 members are entitled to ALL 28 million and those families with more than 2 members are entitled to ALL 22 million.

Rogozhina Municipality, through the above-mentioned three decisions, without any transparency and for merely electoral purposes, intending to maximize the number of votes for the Socialist Party, provided for allocating 2,656 houses/households grants for reconstruction of houses damaged from the earthquake.

These decisions are unlawful and above all extremely corruptive.

Firstly, in view of a costly tender, without transparency and with predetermined winners, school of Kryevish in Spitalla was demolished without having any damage.

Secondly, the residents of Lekaj, Sinaballaj and Cikalles, who for 2 years, have been living in plastic tents, because their houses are non-habitable, are not the grant beneficiaries. So, they continue to be completely isolated as there is no road; they are living in extreme poverty and without any support from the government or the municipality.

The real grant beneficiaries are residents of Rogozhina, who were not affected by the earthquake. Contrary to the law, some of them are living in villas in the town, but received grants for their second houses, in the village.

Considering the nominal lists of beneficiaries, it becomes evident not only that that they do not meet the legal criteria to be eligible, but also that the reconstruction funds are used for merely electoral purposes. This is evident also by the fact that the majority of Municipal staff, principal socialist supporters in Rogozhina Municipality and other persons who, despite not being eligible, have received the grants from the Municipality in exchange for votes for Socialist Party.

Mr. **Muharem Troka**'s house did not suffer any damage, but he received ALL 400,000 because he is the father of the Gosë Unit Administrator, Valmira Troka.

68	Gose	Muharrem	Isuf	Traka	E905050271	DS3	120	300,000
60	...	...	...	...	...	DS3	56	400,000

Mr. **Fatmir Haska** is the Chairman of Gosë Centre Section for the Socialist Party. Even in his case, the house did not suffer any damage, but he received money because he is part of the Socialist Party's structures and voters.

By Decision No. 20 dated 24.3.2021 *“On determining the amounts to be allocated to the beneficiaries of the reconstruction grant for the DS4 and DS5 buildings”*, the employee of Rrogozhina Municipality, **Shefit Hajdar Thartori**, who, despite living in a villa, received a grant for a second house, contrary to DCM that prohibits allocating grants to those who have two or more houses.

F. Massive vote buying among Roma and Egyptian community (1 fact)

285. **Community Reporters Organization**⁶⁶ observed the elections at Roma and Egyptian communities in Tirana, Elbasan, Durres and Fier, where a significant Roma and Egyptian communities are living. *“During the election campaign, various people distributed food packages and cash to influence voters,”*, the organization notes in its election report.

The report stresses that in 5 May and Beqir Dardha Quarters of the town of Elbasan, **two impoverished areas of this town where organised crime is deeply rooted, Roma and Egyptians have voted in groups. They were offered food and cash, and they were “guided towards polling stations by persons without badges”.**

The same problem was observed in Durrës, whereas in Fier, in **addition to buying votes in cash, 20 persons from this community were employed just before the elections.**

“According to observers, the problems remain the same. Roma and Egyptians are escorted to the polling station and instructed where to vote. The voters have also declared that their votes were sold and influenced by other persons from political parties,” adds the report.

I. Two serious misconducts of the Prime Minister Rama during the campaign

I.1 Public administration personnel intimidation by dismissal (1 fact)

286. On 06.04.2021, in a conversation with Milva Ekonomi on the road to Leskovik, Përmet, the Prime Minister Edi Rama directly threatened and blackmailed the teachers and nurses to defend their job position only by voting for the Socialist Party.

In **this conversation broadcasted live** on Facebook and local media, the Prime Minister said:

Milva Ekonomi: *” I was in Kruja and the situation looked very good. There is a lot of enthusiasm, especially among young persons, who have found a job through our portals “Teachers for Albania” and “Nurses for Albania”.*

⁶⁶<https://reportersalbania.com/wp-content/uploads/2021/05/RAPORTI-I-ZGJEDHJEVE-CRA-2021.pdf>

Rama: ***“They have to defend their job position by vote. If you take an unknown direction, you end up in an unknown place. They can do it again for they know nothing else”.***

Intimidation against public administration to get involved in the campaign, the pressure to bring up to 20 safe votes for the Socialist Party and the threat of dismissal are all phenomena present in every institution. However, a threatening declaration by the Prime Minister himself is very dangerous, even more when the general parliamentary elections are taking place in 17 days.

We stress that 185,000 people are already working for the public administration, compared to 85,000 employed in 2013. 10,000 people were employed for electoral purposes only in the last few months. Not including here 2,500 persons temporary contracted under DCM No. 1151, dated 24.12.2020 *“On setting the number of temporary contracted employees for 2021, in the central government units”.*

The Prime Minister addressed this direct threat to 185,000 public administration staff and their families to vote for the Socialist Party, otherwise they will be dismissed.

Through his act, the Prime Minister has not only prejudiced the free and fair elections, but above all has committed a series of serious criminal offenses, the consequences of which directly affected the election result.

The Democratic Party pressed charged before the Central Election Commission and filed a criminal report before SPAK for this case.

I.2 Dissemination of false information triggering panic about the absence of Covid vaccines in case Rama would not be elected Prime Minister (1 fact)

287. One of the most sensitive issues of the current pandemic situation for Albanian citizens is without doubt the vaccination, which the Prime Minister is using by any means and in a way in election campaigns to maximize the number of votes for the Socialist Party.

On 30.03.2021, during a political activity in Lezha, the Prime Minister Edi Rama said **“There are no more doses, as we are leaving now”.**

During the presentation of candidates for MP, the Prime Minister called on citizens to vote for the SP, as otherwise, the successor government would not be able to provide as many anti-Covid-19 vaccines as he and his cabinet could.

Such public declaration addressed to all Albanian citizens is a fake news disclosed in one of the most delicate moments of the country, i.e., coping with the Covid-19 pandemic, and the Prime Minister, in order to maximize the vote for the Socialist Party, is instilling fear, uncertainty and panic among citizens.

Through this declaration, that if Albanian citizens are not voting for the Socialist Party and Rama is no longer the country's Prime Minister, the next government will not be able to provide anti-Covid-19 vaccines, Prime Minister Edi Rama has committed a series of criminal offenses with the sole purpose of rigging elections of 25 April and the effects of such unfair influence has directly affected the election result.

Being fully aware of the effects of his statement and while trying to take advantage of the pandemic and critical situation that has gripped the entire world, Edi Rama is seeking to secure votes by manipulating public opinion manipulation with fake news and spreading panic about the lack of vaccines should he is not elected once again Prime Minister.

With his statement, Edi Rama has committed active corruption in elections, for he is publicly offering to all Albanian electors the anti-Covid-19 vaccine, which in any case is provided by the state budget and the taxes of Albanian citizens, in exchange for voting for the political party lead by him.

Rama used the vaccination issue in the campaign by using all communication means and channels in the media and social networks. He was present every day and, in every town, where vaccination is carried out, from the first moment of very start of vaccination campaign, and used this in his election campaign.

This was demonstrated by the Prime Minister, MPs and all the administration's postings on social media. The SP party's Propaganda Office has distributed and sent to them ready made posts to be mandatorily posted on their social medias.

Through his statement that “There will be no more, if we are not in power”, **Edi Rama** committed the crimes of “**Abuse of office**” provided by Article 248, “**Dissemination of false information triggering panic**” provided by Article 267 and “**Active Corruption in Elections**” provided by Article 328 of the Criminal Code. For this case the Democratic Party has filed a report with SPAK.

IV. PUBLIC ADMINISTRATION AND POWER TO MAXIMIZE UNLAWFULLY THE NUMBER OF VOTES FOR SP

A. Adopting primary and secondary legislation during the election period (37 facts)

Article 91, paragraph 4 of Election Code provides:

“Four months before the election date until the creation of the new government after the elections, the proposal, adoption or issuance of primary or secondary legislation providing for the granting of benefits to certain categories of population, such as acts providing for the increase of wages, pensions, economic or social support, tax reductions or omission, fiscal amnesties, privatization or granting assets or compensations, etc., are prohibited, unless the initiative is conditioned by a state of natural disaster.”

Article 3, paragraph 3 of CEC Decision No. 9 provides:

“Four months before the election date until the creation of the new government after the elections, the proposal, adoption or issuance of primary or secondary legislation with a view to inform the public about decision-making of the issuing institution on its official website providing for granting of benefits to certain categories of population, such as acts providing for the increase of wages, pensions, economic or social support, tax reductions or omission, amnesty of default payments, fines, taxes and customs duties, fiscal amnesties, privatization or granting assets or compensations, are prohibited, unless the initiative is conditioned by a state of natural disaster or epidemics/pandemic, or it is intended to implement an international legal obligation or to implement a final court decision.”

B. Violations of Election Code

B.1 Unilateral amendment to the Election Code (1 fact)

328. On 30.07.2020, the Albanian Parliament approved, by the Law No. 115/2020, the proposal of the Socialist Party for several constitutional amendments, which in essence provided: (i) abolition of pre-election coalitions; (ii) preferential voting system for 2/3 of candidates; and (iii) setting a national threshold.

Following the constitutional amendments, Albania Parliament adopted on 05.10.2020 some amendments to the Election Code concerning:

- (i) **lowering from 3% to 1%** the national threshold;
- (ii) ranking of winning candidates may change if the candidate has received a higher number of preferential votes than the quotient resulting from the division of the number of votes of the contestant by the number of mandates won;
- (iii) the re-ranking of winning list according to the candidates winning a higher number of votes than the quotient; and (iv) the leader of the party has the right to run in up to four districts.

The unilateral amendment to the Election Code by the Socialist Party, in violation of the consensual agreement with CEC, were evidenced as problematic by the OSCE/ODIHR Mission. Specifically, the Mission states that some ODIHR NEOM interlocutors, including CEC, said that the recent amendments to the Election Code created several ambiguities and are concerning about the technical capacity for their implementation, given the short time between the amendment and the elections (see pg. 5).

The Venice Commission and ODIHR regret, in their Joint Opinion, that the procedure for the adoption of the amendments to the Constitution as well as the Election Code was extremely hasty and was not preceded by an adequate consultation process. They also noted that the amendment to the minimum number of candidates constitute a disadvantage for small parties. The possibility of party leaders to run in several constituencies simultaneously is a violation of the right to run on equal terms (see the joint opinion of Venice Commission and ODIHR 2020).

B.2 Display of propaganda materials contrary to Election Code (2 facts)

329. Based on Article 79 of the Election Code and Instruction No. 6, dated 23.03.2021, *“On the use of propaganda, education materials and their posting rules during the election campaign”*, of the State Election Commissioner, the Mayor is the authority responsible for designating in a just and unbiased manner the public places, within the territory of the respective Municipality, for displaying the propaganda materials by the political parties and election contestants.

The Election Code, in Article 79 “Display of propaganda materials”, provides explicitly:

“1. No later than 35 days before the election date, the Mayor shall designate in a just and unbiased manner the public places, within the territory of the respective Municipality, for displaying the propaganda materials by the political parties and election contestants. The designated places shall be in premises that ensure public visibility and provide sufficient space for all contestants in elections to present their electoral programs and electoral messages. The decision of the mayor is made public on the website of the municipality promptly after its approval.

2. The use and posting of any other fixed election propaganda material, including flags and billboards during the election campaign, is allowed only at a distance up to 5 meters from the electoral office of the political party or the respective election contestant.

3. All visual propaganda materials utilized in the campaign shall be accompanied by the imprint: “Produced under the legal responsibility of...” (the name of election contestant shall be given here).

4. The use of propaganda materials contrary to the definitions made in paragraphs 2 and 3 of this Article is prohibited.

5. The Municipal Police and/ or the State Police shall ensure the implementation of the provisions of this Article by removing immediately any propaganda material of election contestants in places contrary to paragraphs 1 and 2 of this Article.”

Instruction no. 6, dated 23.03.2021 “On the use of propaganda, education materials and their posting rules during the election campaign” of the State Election Commissioner, the Central Election Commission, expressly provides:

“1. No later than 35 (thirty-five) days before the election date, the Mayor shall designate in a just and unbiased manner the public places, within the territory of the respective Municipality, for displaying the propaganda materials by the election contestants. Electoral propaganda materials are allowed to be displayed up to a distance of 5 (five) meters from the electoral office of the political party or the

respective election contestant, no later than 30 (thirty) days before the election date. Upon termination of the election campaign, the election contestant shall take measures to remove all propaganda materials.

2. The display of propaganda materials on facades of residential buildings, public institutions or their surrounding and adjacent premises, within recreational areas, parks, city trees and lighting poles is prohibited.

3. Placing propaganda materials on vehicles operating in public transport is prohibited.

4. The places specified in paragraph 1 of this Article must be in premises that ensure public visibility and provide sufficient space for all contestants in elections to present their propaganda materials, election programs and/or electoral messages.

5. The public places in the territory of Municipality dedicated to displaying propaganda materials shall be allocated proportionally to election contestants avoiding giving priority to any of the contestants.

6. The mayors shall take measures not to allow or remove immediately any fixed material, including posters and flags from any other location where they are found not to have been placed in accordance with the criteria of this instruction.

7. The decision of the Mayor indicating the places for posting propaganda materials is made public on the website of the Municipality promptly after its approval and a copy thereof is sent to the State Election Commissioner within 24 hours of its approval. The decisions taken by the mayors before adoption of this instruction shall be reviewed in accordance with the criteria set out in this instruction.

8. Election contestants are allowed to display propaganda materials only in the places indicated by the Mayor under this Article and shall take measures to remove them upon termination of the election campaign.

9. The State Police is in charge of implementation of paragraph 3 of this Article.”

In violation of the law, all the Mayors have not taken decisions about the public places where propaganda materials by the political parties and election contestants in the territory of the Municipalities can be posted.

For this reason, we sent all Mayors a **request for designation of public places for posting propaganda materials during the election campaign.** Since we

received no reply, we pressed criminal charged before **the District Prosecution Offices** against 60 mayors for abuse of office:

Notwithstanding that there is no decision about this matter by the Mayors, the Socialist Party, during the campaign, placed on the public premises of all the Municipalities of Albania, a banner with **offensive and denigrating content** towards the leader of opposition, the former Prime Minister, the President and other opposition figures, making Democratic Party members and supported unsatisfied and stirring unnecessary conflict in the election campaign.

For the purpose of having smooth and conflict-free elections, viewing the banners of similar content, the Democratic Party, on 18 April, sent a letter to the State Commissioner of the Central Election Commission **asking for the removal of banners with offensive and denigrating content in public premises of the Municipalities**, for which there was no decision yet.

330. Contrary to Election Code and in the absence of a decision of Mayor of Tirana designating the public place in the territory of the Tirana Municipality for displaying propaganda materials, the Socialist Party, three weeks ago, installed a LED screen adjacent to the Commune of Paris Roundabout, which is showing propaganda material in favor of the Socialist Party.

This constitutes a violation of the Election Code and of Instruction no. 6, dated 23.03.2021 *"On the use of propaganda, education materials and their posting rules during the election campaign"* of the State Election Commissioner, the Central Election Commission.

The Election Code, in Article 79 **"Display of propaganda materials"**, provides:

"1. No later than 35 days before the election date, the Mayor shall designate in a just and unbiased manner the public places, within the territory of the respective Municipality, for displaying the propaganda materials by the political parties and election contestants. The designated places shall be in premises that ensure public visibility and provide sufficient space for all contestants in elections to present their electoral programs and electoral messages. The decision of the mayor is made public on the website of the municipality promptly after its approval.

2. The use and posting of any other fixed election propaganda material, including flags and billboards during the election campaign, is allowed only at a distance up to 5 meters from the electoral office of the political party or the respective election contestant.

3. All visual propaganda materials utilized in the campaign shall be accompanied by the imprint: "Produced under the legal responsibility of..." (the name of election contestant shall be given here).

4. The use of propaganda materials contrary to the definitions made in paragraphs 2 and 3 of this Article is prohibited.

5. The Municipal Police and/or the State Police shall ensure the implementation of the provisions of this Article by removing immediately any propaganda material of election contestants in places contrary to paragraphs 1 and 2 of this Article."

Instruction No. 6, dated 23.03.2021, *"On the use of propaganda, education materials and their posting rules during the election campaign"*, of the State Election Commissioner, the Central Election Commission provides in Article 3 *"Designation of places for posting propaganda materials"*:

"1. No later than 35 (thirty-five) days before the election date, the Mayor shall designate in a just and unbiased manner the public places, within the territory of the respective Municipality, for displaying the propaganda materials by the election contestants. Electoral propaganda materials are allowed to be displayed up to a distance of 5 (five) meters from the electoral office of the political party or the respective election contestant, no later than 30 (thirty) days before the election date. Upon

termination of the election campaign, the election contestant shall take measures to remove all propaganda materials.

2. The display of propaganda materials on facades of residential buildings, public institutions or their surrounding and adjacent premises, within recreational areas, parks, city trees and lighting poles is prohibited.

3. Placing propaganda materials on vehicles operating in public transport is prohibited.

4. The places specified in paragraph 1 of this Article must be in premises that ensure public visibility and provide sufficient space for all contestants in elections to present their propaganda materials, election programs and/or electoral messages.

5. The public places in the territory of Municipality dedicated to displaying propaganda materials shall be allocated proportionally to election contestants avoiding giving priority to any of the contestants.

6. The mayors shall take measures not to allow or remove immediately any fixed material, including posters and flags from any other location where they are found not to have been placed in accordance with the criteria of this instruction.

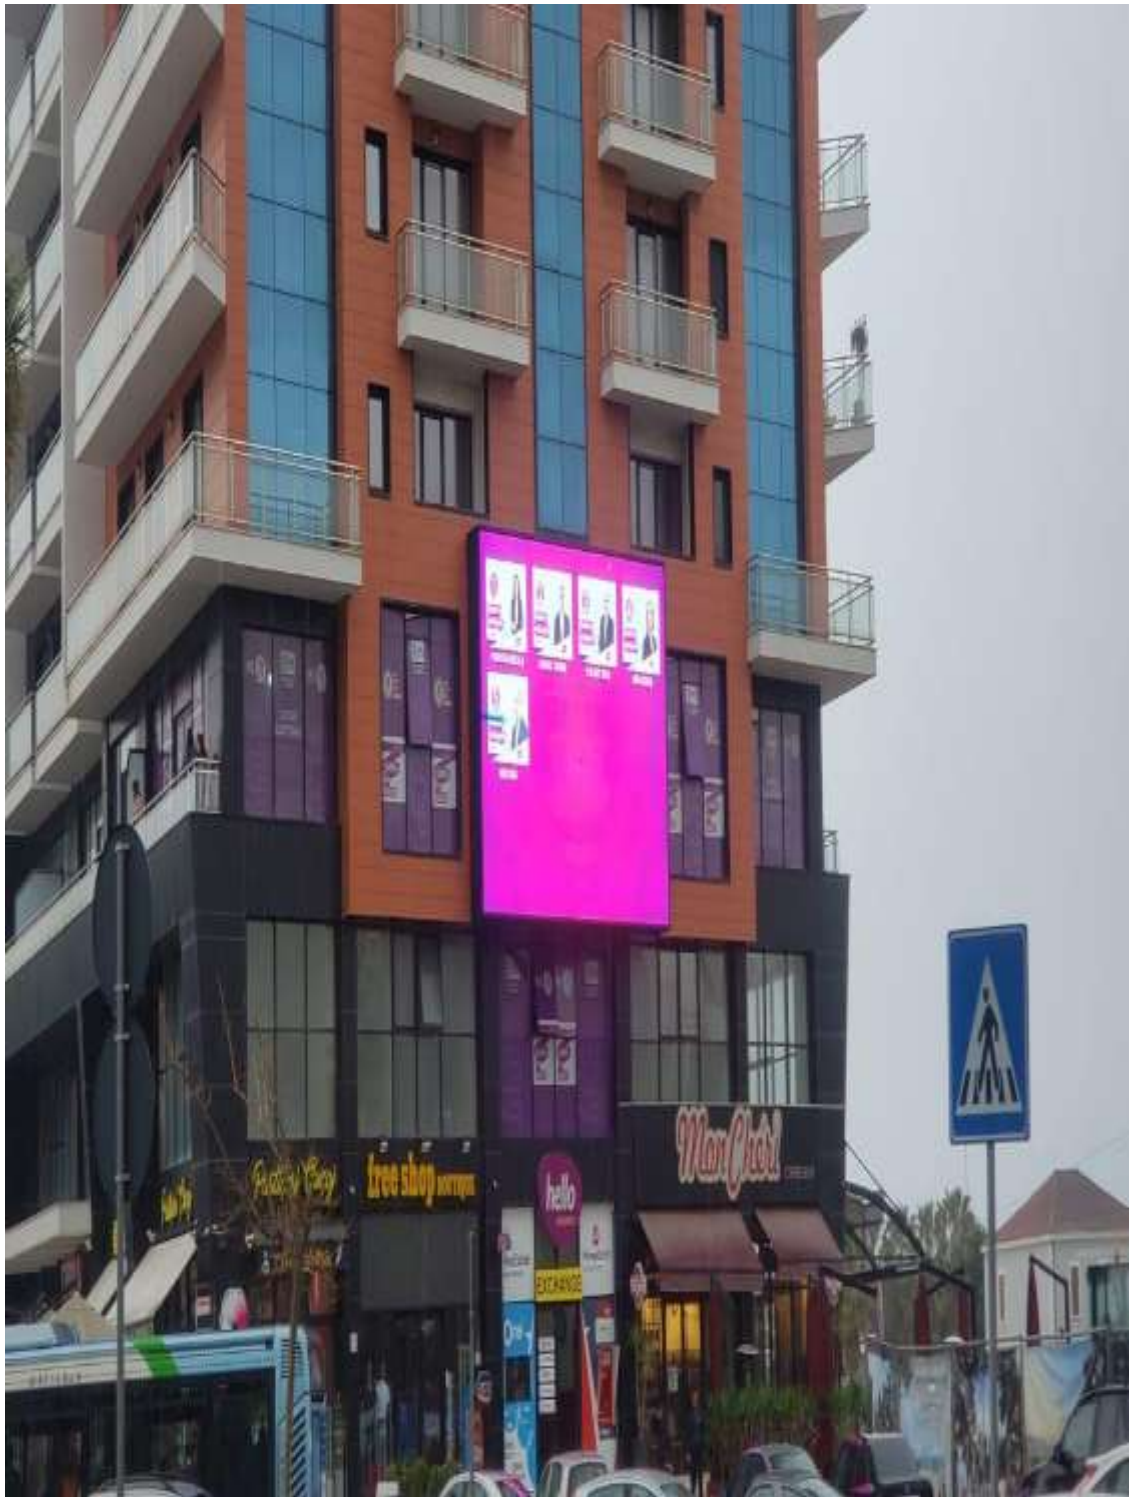

7. The decision of the Mayor indicating the places for posting propaganda materials is made public on the website of the Municipality promptly after its approval and a copy thereof is sent to the State Election Commissioner within 24 hours of its approval. The decisions taken by the mayors before adoption of this instruction shall be reviewed in accordance with the criteria set out in this instruction.

8. Election contestants are allowed to display propaganda materials only in the places indicated by the Mayor under this Article and shall take measures to remove them upon termination of the election campaign.

9. The State Police is in charge of implementation of paragraph 3 of this Article.”

331. Contrary to Article 79 of Election Code and Instruction No. 6, dated 23.03.2021, “*On the use of propaganda, education materials and their posting rules during the election campaign*”, of the State Election Commissioner, at the absence of a decision of the Mayor, a LED was installed in Lungomare, in the center of Vlora, transmitting 24 hours the government propaganda during the campaign.

332. Contrary to Article 79 of Election Code and Instruction No. 6, dated 23.03.2021, “*On the use of propaganda, education materials and their posting rules during the election campaign*”, of the State Election Commissioner, at the absence of a decision of the Mayor, banners were placed, during the campaign, in Lungomare, in the center of Vlora, with the image of Prime Minister Rama and the inscription “vote”.

B.3 Imposing quarantine rule for Albanian immigrants coming from Greece and North Macedonia, denying them the Constitutional right to vote (1 fact)

333. Until 19.04.2021, there was no rule for Albanian immigrants entering Albania (their homeland) to be in quarantine. The Technical Committee of Experts of the Ministry of Health, just 1 week before the elections, issued a decision forcing immigrant coming from Greece or North Macedonia to be in a mandatory quarantine for a 2-week period. In a discriminatory manner, this decision effectively prevented over 500,000 Albanian immigrants living in Greece from exercising their right to vote.

On 19 April, the Technical Committee of Experts of the Ministry of Health and Social Protection decided that for the next two weeks, the persons coming from North Macedonia and Greece will be in quarantine due to the pandemic situation.

This decision was entirely political and dictated by the government to prevent the exercise of the constitutional right to vote by Albanian citizens living in North Macedonia and Greece. Based on official data, Italy, Turkey, Serbia, Montenegro, Kosovo have a higher number of infections, but through this decision no measures have been taken against Albanian citizens living in these countries and coming to vote in the elections of 25 April.

The use of Technical Committee of Experts for political purposes is contrary to Article 91, paragraph 2 of Election Code and Article 6, paragraph 3 of Decision No. 9, dated 24.12.2020, *“On rules for reporting the public activities of public institutions, agencies and/or state enterprises, categories of prohibited activities, as well as monitoring the activity, conduct and use of human, financial and logistical resources of state administration before the elections”*.

Article 91, paragraph 2 “Prohibition of use of public resources in support of election contestants” of the Criminal Code provides explicitly:

1. *Unless otherwise provided by law, the resources of central or local public bodies or entities, or of any other entity where the state holds capital or shares or/and appoints the majority of the supervisory or administrative body of the entity, regardless of the source of the capital or ownership, may not be used or made available to support candidates, political parties or coalitions in elections*

2. *Within the meaning of this article, “resources” means movable and immovable assets, as foreseen in Article 142 of the Civil Code, and any human resource of the institution. “Use of human resources” means the forced use of the institution's administration within the working hours in election campaign for electoral purposes, as well as the forced and organized use during the classes of pre-university students in the election campaign. Use of human resources means also the promise*

or giving of benefits to public servants or students in exchange for taking part in activities related to the election campaigns outside working hours or classes, as well as exerting pressure on them for this purpose.

3. The recruitment, dismissal, release, promotion and transfer in public institutions or entities, unless the case is legally justified, is prohibited. A case is legally justified when the movement or dismissal from office results from violation of respective legislation, or recruitment is made by the public institution or entity in fulfillment of its mission, before the election campaign, to fill in a vacancy in its organizational structure. Cases of emergencies due to unforeseen events dictating new recruitment are exempted from this rule.

4. Four months before the election date until the creation of the new government after the elections, the proposal, adoption or issuance of primary or secondary legislation providing for the granting of benefits to certain categories of population, such as acts providing for the increase of wages, pensions, economic or social support, tax reductions or omission, fiscal amnesties, privatization or granting assets or compensations, etc., are prohibited, unless the initiative is conditioned by a state of natural disaster.

5. The CEC shall issue detailed instruction to determine the use and misuse of public resources.

Article 6, paragraph 3 of Decision no. 9 dated 24.12.2020, “On rules of reporting the public activities of public institutions, agencies and/or state enterprises, categories of prohibited activities, as well as monitoring the activity, conduct and use of human, financial and logistical resources of state administration before the elections”, provides explicitly:

1. During the election period, the state administration staff is provided the necessary conditions and guaranteed the non-infringing of constitutional rights and freedoms to exercise without influence the freedom of expression and/or to participate in political activities, within the limitations and restrictions set by special provisions of the legislation into force and in this Decision.

2. A state administration employee registered as a candidate for elections shall be suspended from office from the moment, he/she is registered as a candidate until the date of ballot counting in the area where he/she is running. For civil servants whose employment relationship is regulated by the Labor Code, in case they do not notify their candidacy in election, their employment relationship shall be terminated.

3. During the official working hours and within the premises of state institutions, a state administration employee is prohibited from participating in any kind of political activities or activities in function of political parties/ candidates or in the election campaign of a political party or candidate contesting in elections. State administration employees are prohibited from using public goods, office or state activity, or public financial, material, human resources, for the purpose of favoring a political party, coalition or candidate contesting in elections.

4. *Only after the official working hours and outside the premises of state institutions, a state administration employee has the right to participate in political or electoral activities of political party of candidate contesting in elections.*
5. *When participating in political or electoral activities, a civil servant is prohibited from publicly expressing his political beliefs or preferences and campaigning for a political party or candidate.*
6. *Forced use of state administration of the institution in election campaigns by pressuring them for this purpose, as well as promising or offering benefits to public servants, to participate in activities related to election campaigns outside working hours, is prohibited.*
7. *The state administration employee has the right to engage as a commissioner in the composition of CEAZs, BSCs and VCGs, after having officially notified the direct superior and the human resources unit of this activity. Engaging as a commissioner should not affect the performance of functional duties, in accordance with the Law "On Rules of Ethics in Public Administration".*

Decision of Technical Committee of Experts:

For the Greek media, this decision discouraged Albanian citizens to come to vote in Albania in the elections of 25 April. For them it is no secret that Rama considers Albanian citizens working and living in Greece as a factor that could harm him in the in Sunday's election.

Himara Association President Thodoris Goumas told Protothema.gr that “ *such movement of Rama shows that he is in panic and is playing his last cards in order to preserve his position. Stopping Albanian citizens living in Greece from exercising their right to vote on 25 April is an anti-democratic action, like the ones Rama is accustomed to do.*”

Despite Articles 24 and 25 establishing the right of Albanian citizens living outside Albania to vote where they live, the electoral administration did nothing to effectively guarantee this right. **Based on INSTAT data for 2020, the number of Albanian citizens living and working outside Albania is 1.68 million or 44.5% of the total number of electors.** Moreover, **600,000 immigrants living in Greece** were effectively denied the right to vote, imposing quarantine rules, only a week

before the elections. The obligation to quarantine was abolished on 3 May, one week after the end of elections.

The denial of the right to vote of Albanian citizens living outside Albania was also evidenced in the OSCE/ODIHR Preliminary Report. The Mission stated that, although the Election Code provides for the possibility, citizens were not offered the opportunity to vote abroad. However, voters living abroad may return and vote at their respective polling station, although in practice this may have been hampered by measures taken due to COVID-19 (see pg. 7). A considerable number of electors live abroad. Most of them were unable to vote due to voting and travel restrictions imposed for COVID-19 (see pg. 19).

Under such situation, over **600,000 immigrants living in Greece** and the majority of them would come to vote in Gjirokastra District, are denied the constitutional right to vote by a government decision. On 20 April, the Democratic Party sent a *“Request for immediate action”* to the State Election Commissioner, the Central Election Commission, **Ilirjan Celibashi**, who took no action.

Immediately after the elections, on 5 May, the Technical Committee of Experts lifted the quarantine rule with Greece and North Macedonia, which shows that the decision taken on 19 April was entirely political and in function of the Socialist Party's campaign.

B.4 Invalidity of ballot papers after changing it with numbers not with candidate names (1 fact)

334. On 31.03.2021, the State Commissioner approved the ballot papers, which contained the logo of the parties, the name of the party/coalition, the name of the leader of party and **the names of candidates for MP**. This decision of the Commissioner was appealed by the **Socialist Party, which asked that the ballot paper be NUMBERED only, WITHOUT NAMES of candidates**. On 03.04.2021, the Appeals and Sanctions Commission decided to accept the appeal of SP to approve a ballot paper with numbers only, without names of candidates. This decision was appealed by the Democratic Party at the Election College, which decided to affirm the decision of CAS on 04.04.2021. The Celtics Company that was in charge of producing ballot papers, informed CEC on the same day that the 10-day deadline for

producing ballot papers was “an impossible mission”, requiring a minimum of 20 days.

Considering the short time remaining available from election day, the CEC undertook an awareness raising campaign informing citizens how to fill in the ballot paper to be considered valid. However, this did not decrease the number of invalid votes, which according to CEC official data amounted to 83,028 votes or 5% of the total number of voters.

This fact was also evidenced in the Statement of Findings and Preliminary Conclusions, published on 25.04.2021 by the OSCE/ODIHR International Election Observation Mission, which, on page 7 says: “...the campaign undertaken to inform the voters was insufficient and belated, especially as regards the identification of voters and the new configuration of the ballot paper. This contributed to creating confusion on election day.”

On 28.04.2021, the State Election Commissioner made a press release: “If the ballot papers were with names, it would probably be different. But, the decision-making of CAS and the College deemed that the information could be simpler for voters. We have 83,000 invalid ballots. Before the CEC burns them, it is probably better to go through those ballot papers that have been considered as invalid, why they were considered as such.”

The constitutional amendments, unilateral amendments to the Election Code, the approval of ballot papers with numbers not with names, and the SP's order to her ballot counters to consider as invalid those ballots that jeopardized this political force, actions that are supported by evidence of observers and the CCTV cameras installed by the Central Election Commission inside the counting area, contributed that the elections of 25 April had the highest record of invalid votes from 2% to 5% of the total votes.

Elections 2005: **21,973 invalid votes**

Elections 2009: **42,074 invalid votes**

Elections 2013: **24,279 invalid votes**

Elections 2017: **31,790 invalid votes**

Elections 2021: **83,001 invalid votes**

In the 2021 elections, invalid votes amounted to **5.3% of the total vote** and accounting for up to **8 MP mandates**. During the count, persons directly related to the Socialist Party were noticed to make efforts to do notes contrary to the law, thus make votes invalid.

B.5 Democratic Party appeals before the Central Election Commission (1 fact)

335. On 04.05.2021, the State Election Commissioner of the Central Election Commission approved by decisions the Summary Table of Results in 12 Districts, for the parties and candidates for the MP in the parliamentary elections of 25 April 2021.

Considering the serious violations of the law, which have gravely affected the election process, as well as the totality of violations of the law, occurring before, during and after the process have had an impact on the election process to such an extent that the distribution of seats was influenced, on 09.10.2021, the Democratic Party filed 9 complaints before the Central Election Commission to declare the invalidity of elections in 9 Districts as below:

Durrës District
Korça District
Berat District
Tirana District
Elbasan District
Vlora District
Shkodra District
Gjirokastra District
Fier District

All complaints are based on Article 160 of the Election Code, “**Invalidity of elections at the polling station**” that provides:

“1. The CEC shall, ex officio or at the request of the election contestants, declare the elections invalid in one or more polling stations if:

a) there have been violations of the law, which have seriously affected the election process or when the totality of violations of the law, according to this letter, occurring in those polling stations may have affected the election process to such an extent that the distribution of seats in that area may have been impacted;

b) there have been natural disasters of such proportions that participation of voters in voting has been hindered; or

c) the voting has not started or is suspended for more than five hours.

2. Election contestants, in accordance with the rules and time limit set out in Article 124 of this Code, have the right to ask CEC to declare the invalidity of elections in certain polling stations.

3. The request for invalidity of elections shall contain the legal grounds, a description of the cases of violations and the detailed rationale of their consequences.

4. The requests are examined in accordance with the procedures laid down in Part X of this Code. When taking a decision on the invalidity of elections, CEC may consult the relevant CEAZ. In the reasoning of decision, CEC shall provide the legal grounds, proven violations and detailed rationale of their consequences”.

To help the administrative investigation and to shed light in the electoral massacre of 25 April, which calls for the invalidity and repetition of elections in the areas subject to complaint, the Democratic Party asked CEC, under Articles 136, 137 and 138 of the Election Code, to gather the following evidence:

- (i) To collect official information from Prosecution Office Against Corruption and Organized Crime on the number of criminal proceedings related to election crimes and their stage;
- (ii) To collect official information from Korça Prosecution Office and Judicial District Prosecution Office on the number of criminal proceedings related to election crimes instituted in the prosecutorial offices of these districts and their stage;
- (iii) To collect official information from the General Directorate of State Police on the number of persons detained and the number of cases referred for election crimes;
- (iv) To collect official information from the General Directorate of State Material Reserves on the status of state reserves in central and local deposits for each month from December – May 2021;
- (v) To collect official information from the Central Inspectorate and all inspectorates operating in Albania on the number of inspections carried out over the period 24 December 2020 - 1 May 2021; on the number of fines and sanctions imposed; the number of sanctions/fines revoked by administrative decision/court decision;
- (vi) To collect official information from the Public Procurement Agency on the number of recently published or awarded tenders, concessions, PPPs over the period 24 December 2020 - 1 May 2021;

- (vii) To collect official information from the National Territorial Council on the number of construction permits granted over the period 24 December 2020 - 1 May 2021;
- (viii) To collect official information from the State Agency of Cadaster on the number of legalization permits granted by districts over the period 24 December 2020 - 1 May 2021;
- (ix) To collect official information from the Minister of State on the number of built/reconstructed buildings of the period 24 December 2020 – 1 May 2021;
- (x) To collect official information from the General Directorate of Civil Register on the number of Albanian citizens who have changed their residence addresses over the period 1 January 2020 - 1 May 2021;

By a majority vote, CAS rejected the application of Democratic Party to gather evidence.

The evidence required by us is essential evidence to prove the election massacre of 25 April, because it proves and supports every aspect of the institutions' conduct in this election process. According to all the evidence available to us, such conduct was completely contrary to the law and in flagrant violation of CEC decisions.

Two CAS members decided to receive partially the evidence regarding the complaint of Gjirokastra and Berat. They concluded:

The document below presents the cross data of PEI devices for Gjirokastra District. It results that fingerprints of 14 persons were used to identify 74 voters. In other words, 14 people have potentially voted 74 times or on average 5 times/each.

Nga procesi i kryqëzimit të të dhënave daktiloskopike për qarkun Gjirokastrë (rastet e evidentuara nga sistemi, të cilat më pas i janë nënshtruar verifikimit të stafit të trajnuar të KQZ-së dhe supervizimit), rezultoi se kemi:

73 - Raste të dyshimta

Këto 73 raste të dyshimta ndahen në:

- a) 2 raste ku i njëjti person është identifikuar 2 herë, përkatësisht në 2 (dy) QV të ndryshme;
- b) 12 shenja gishtërinjsh (secila shenjë është unike) të përdorura si nënshkrim biometrik për identifikimin e 70 zgjedhësve, sipas tabelës së mëposhtme:

Duke qenë se në Qarkun e Gjirokastrës janë evidentuar 2 (dy) ID unike, ku secila rezultoi të jetë identifikuar përkatësisht në 2 (dy) qendra votimi të ndryshme, rastet e dyshimta që lidhen me këto 2 (dy) ID, janë 4 (katër). Nëse 1 (një) ID unike do të identifikohet në 3 (tri) qendra votimi të ndryshme, rastet e dyshimta do të ishin 3 (tre), e kështu me radhë.

The document below presents the cross data of PEI devices for Berat District, showing that the fingerprints of 21 persons were used to identify 57 voters, 21 persons voted 57 times, or about 3 times/each.

The last documents show the results CAS received from data crossing of electronic identification devices (PEI) for Vlora District, where fingerprints of 23 persons were used to identify 60 voters. This means that 23 persons may have voted 60 times, or about 3 times/each (see photo 1 and 2 below).

The document below, in No. 7, shows that the same fingerprint was used to identify two voters in two different districts: one in Vlora Municipality and the other in Ura Vajgurore Municipality.

As noted above, only some evidence corroborate a series of serious legal implications of the election massacre of 25 April. If CAS would have had the will to enforce the law and investigate further into these issues, at the requests of the Democratic Party, it would have corroborated the violations that would cause the invalidity of elections in these districts.

B.6 Denying the right to vote of persons infected with COVID-19 (1 fact)

336. The voters infected with COVID-19 and that were in quarantine were obliged to comply with the rules of isolation, leading de facto to a denial of their right to vote. According to the Ministry of Health, about 23,000 persons were infected with COVID-19 on election day. This practice is contrary to the provisions on voting rights and voting equality provided for in Article 45 of the Constitution and paragraph 7.2 of the OSCE Copenhagen Document 1990 (see pg. 8 of the OSCE/ODIHR Preliminary Report).

B. 7 Other violations of the law (21 facts)

337. The media denounced a series of flagrant cases of damaging ballot papers for making them invalid by the Socialist Party counters. One of the flagrant cases is **that of Ana Kekezi**⁶⁷, Director of National Water-Supply, Sewerage and Waste Infrastructure Agency, who is run by the MP candidate **Alqi Bllako**.

⁶⁷<https://www.standard.al/2021/05/01/skandali-i-radhes-drejtoresha-e-alqi-bllakos-ben-te-pavlefshme-fletet-e-votimit/>

338. On 26.04.2021, in CEAZ No. 79, at Tepelena Palace of Culture, the member of Counting Group, representative of Socialist Party, placed an “X” marks on the ballot papers during the counting process, thus making them invalid.

339. In Gjirokastra, the representative of the Socialist Party has marked with an “X” the ballot papers during the counting process by making the ballot papers invalid.

340. ODIHR NEOM received credible reports that the campaign coordinators of the largest parties had approached a considerable number of voters from the Roma and Egyptian communities to get their votes. Roma NGOs reported that this practice is common and that many voters were likely to sell their votes, driven by poverty (see p. 18). In some districts, NEOM noticed some groups of boys gathered outside the polling stations, who looked like they controlled the area and saw who was voting. **In Shkodra District, the observers noticed a person pulling someone else to make him enter the polling station, and, as soon as the latter was inside the polling station, was instructed who to vote for. In this district, NEOM witnessed a cash distribution case at a polling station** (see pg. 19).

341. Contrary to Article 91 of Election Code and Decision No. 9, dated 24.12.2020, *“On rules for reporting the public activities of public institutions, agencies and/or state enterprises, categories of prohibited activities, as well as monitoring the activity, conduct and use of human, financial and logistical resources of state administration before the elections”* of the Regulatory Commission, of the Central Election Commission. In a conversation with Milva Ekonomi on the road to Leskovik, Përmet, **the Prime Minister Edi Rama warned the teachers and nurses to defend their job position by vote**⁶⁸.

Milva Ekonomi: *“I was in Kruja and the situation looked very good. There is a lot of enthusiasm, especially among young persons, who have found a job through our portals “Teachers for Albania” and “Nurses for Albania”.*

Rama: *“They have to defend their job position by vote. If you take an unknown direction, you end up in an unknown place. They can do it again for they know nothing else”.*

In Article 91 “Prohibition of use of public resources in support of election contestants”, the Election Code provides explicitly:

1. *Unless otherwise provided by law, the resources of central or local public bodies or entities, or of any other entity where the state holds capital or shares or/and appoints the majority of the supervisory or administrative body of the entity, regardless of the source of the capital or ownership, are not used or made available to support candidates, political parties or coalitions in elections.*
2. *Within the meaning of this article, “resources” means movable and fixed assets, as foreseen in Article 142 of the Civil Code, and any human resource of the institution. “Use of human resources” means the forced use of the institution's administration within the working hours in election campaign for electoral purposes, as well as the forced and organized use during*

the classes of pre-university students in the election campaign. Use of human resources means also the promise or giving of benefits to public servants or students in exchange for taking part in activities related to the election campaigns outside working hours or classes, as well as exerting pressure on them for this purpose.

- 3. The recruitment, dismissal, release, promotion and transfer in public institutions or entities, unless the case is legally justified, is prohibited. A case is legally justified when the movement or dismissal from office results from violation of respective legislation, or recruitment is made by the public institution or entity in fulfillment of its mission, before the election campaign, to fill in a vacancy in its organizational structure. Cases of emergencies due to unforeseen events dictating new recruitment are exempted from this rule.*
- 4. Four months before the election date until the creation of the new government after the elections, the proposal, adoption or issuance of primary or secondary legislation providing for the granting of benefits to certain categories of the population, such as acts providing for the increase of wages, pensions, economic or social support, tax reductions or omission, fiscal amnesties, privatization or granting assets or compensations, etc., are prohibited, unless the initiative is conditioned by a state of natural disaster.*
- 5. The CEC shall issue detailed instruction to determine the use and misuse of public resources.*

Article 6, paragraph 1 of Decision no. 9, dated 24.12.2020 of the Regulatory Commission, the Central Election Commission:

1. During the election period, the state administration staff is provided the necessary conditions and guaranteed the non-infringing of constitutional rights and freedoms to exercise without influence the freedom of expression and/or to participate in political activities, within the limitations and restrictions set by special provisions of the legislation into force and in this Decision.

2. A state administration employee registered as a candidate for elections shall be suspended from office from the moment, he/she is registered as a candidate until the date of ballot counting in the area where he/she is running. For civil servants whose employment relationship is regulated by the Labor Code, in case they do not notify their candidacy in election, their employment relationship shall be terminated.

3. During the official working hours and within the premises of state institutions, a state administration employee is prohibited from participating in any kind of political activities or activities in function of political parties/ candidates or in the election campaign of a political party or candidate contesting in elections. State administration employees are prohibited from using public goods, office or state activity, or public financial, material, human resources, for the purpose of favoring a political party, coalition or candidate contesting in elections.

4. *Only after the official working hours and outside the premises of state institutions, a state administration employee has the right to participate in political or electoral activities of political party of candidate contesting in elections.*
5. *When participating in political or electoral activities, a civil servant is prohibited from publicly expressing his political beliefs or preferences and campaigning for a political party or candidate.*
6. *Forced use of state administration of the institution in election campaigns by pressuring them for this purpose, as well as promising or offering benefits to public servants, to participate in activities related to election campaigns outside working hours, is prohibited.*
7. *The state administration employee has the right to engage as a commissioner in the composition of CEAZs, BSCs and VCGs, after having officially notified the direct superior and the human resources unit of this activity. Engaging as a commissioner should not affect the performance of functional duties, in accordance with the Law "On Rules of Ethics in Public Administration".*

342. Justice Minister **Etilda Gjon**⁶⁹ has threatened and blackmailed the Commissioners, vote counters and Observers of the Democratic Party in CEAZ of Administrative Unit No. 7 in Tirana.

343. Vangjush Dako, the former Mayor of Durrës who resigned after being declared “non grata” by the United States of America for serious corruption, has threatened and blackmailed the candidates and supporters of Democratic Party. Despite his resignation, his presence in organizing this campaign has been constant. Even on the day of the vote counting he was present threatening and blackmailing in CEAZ members.

344. Contrary to Election Code and Decision No. 9, dated 24.12.2020 of Central Election Commission, **Albanian Telegraph Agency**, an institution directly subordinate to the Prime Minister, is involved in the campaign not only by distributing propaganda news in favor of the government but also by conducting and propagating surveys that reveal the Socialist Party as the winner.

Institutions subordinated to the Prime Minister:

Survey of Albanian Telegraphic Agency:

<http://ata.gov.al/2021/03/19/sondazhi-ps-merr-57-2-te-votave-ne-tirane-pd-27-1-dhe-lsi-1-1/>

This activity is contrary to Election Code and Article 3, paragraph 1/3, letters “c” and “ç” of Decision No. 9, dated 24.12.2020, of the Regulatory Commission, the Central Election Commission, expressly providing:

“Making available the movable and fixed assets provided for in Article 142 of the Law No. 7850, dated 29.7.1994, “On the Civil Code of the Republic of Albania”, as amended, for electoral purposes, that are owned or managed by public central or local bodies or entities, or any other type of entity where the state owns capital/ quota/ shares or/ and appoints the majority of the supervisory body or management body of the entity”.

“Forced use in election campaigns of the central and local state administration within working hours for electoral activities and/ or activities, including by electronic means of communication, as well as the forced and organized use during classes hours of students of pre-university school system for activities related to elections, or promising or offering benefits to public servants or students to participate in activities for election purposes, outside working hours or classes, as well as pressuring them for this purpose. “

345. Mr. Granit Gjana, Director of Cabinet in Kukës Municipality, has added the administration staff in a Whatsapp group without asking for their permission or informing them beforehand. This Whatsapp group was created to engage the administration staff in the campaign in favor of the Socialist Party's candidate and to distribute their propaganda in social networks.

The heads of directorates of Kukës Municipality, contrary to Election Code and Decision No. 9, dated 24.12.2020 of Central Election Commission, have handed over to the Director of Cabinet and his staff a list with names and personal contacts of their subordinates without informing or asking for the permission of the respective persons beforehand.

The law is violated not only in handing over the lists with names and personal contacts of the administration staff from their superiors, without informing or taking their permission beforehand, but also in the fact that the Director of Cabinet

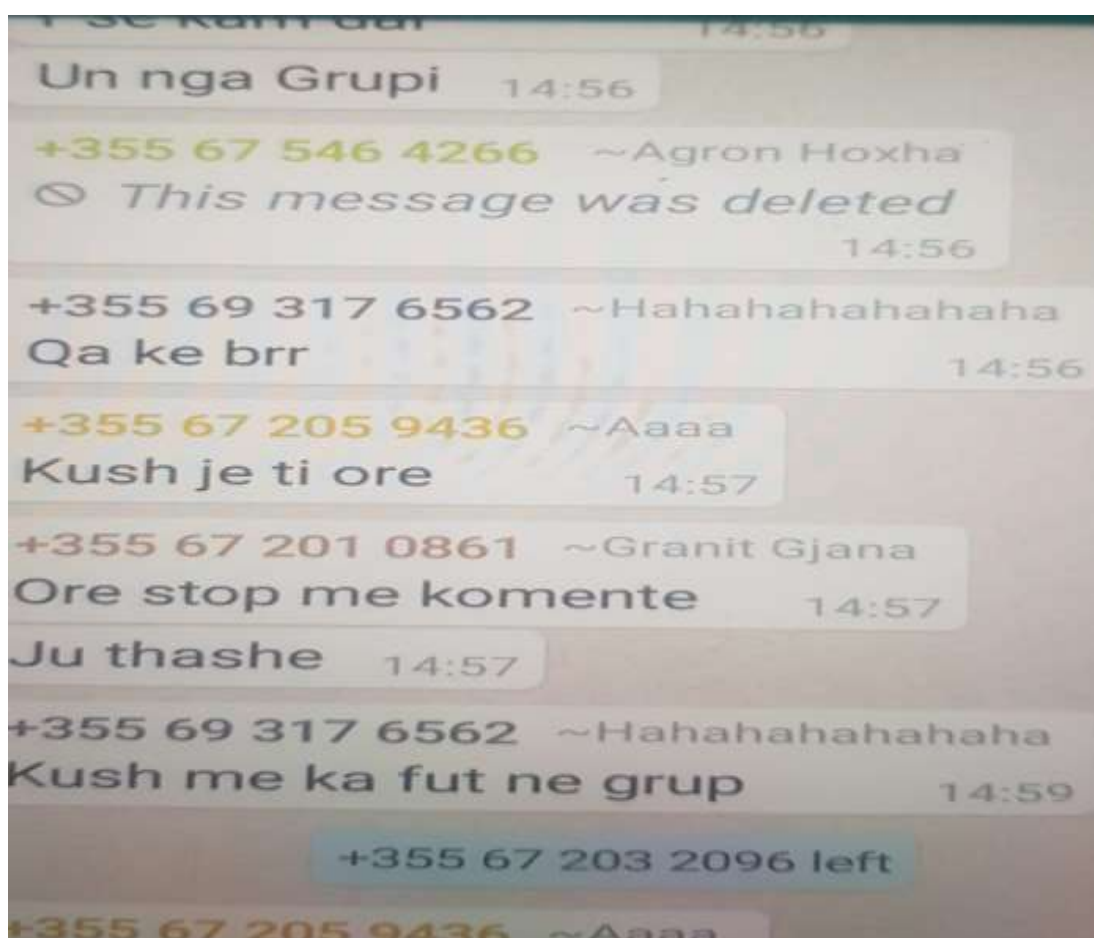

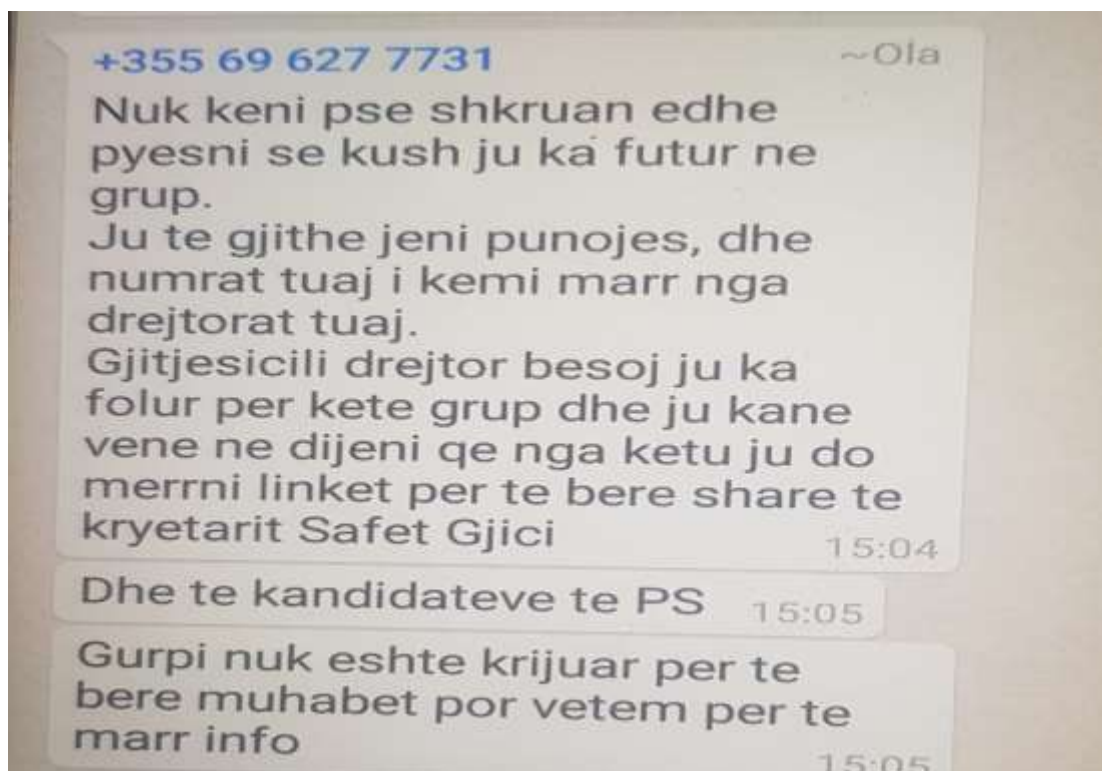

and his staff obliged the staff to get engaged actively in the campaign and to disseminate the propaganda of the Government and of the Mayor in social media.

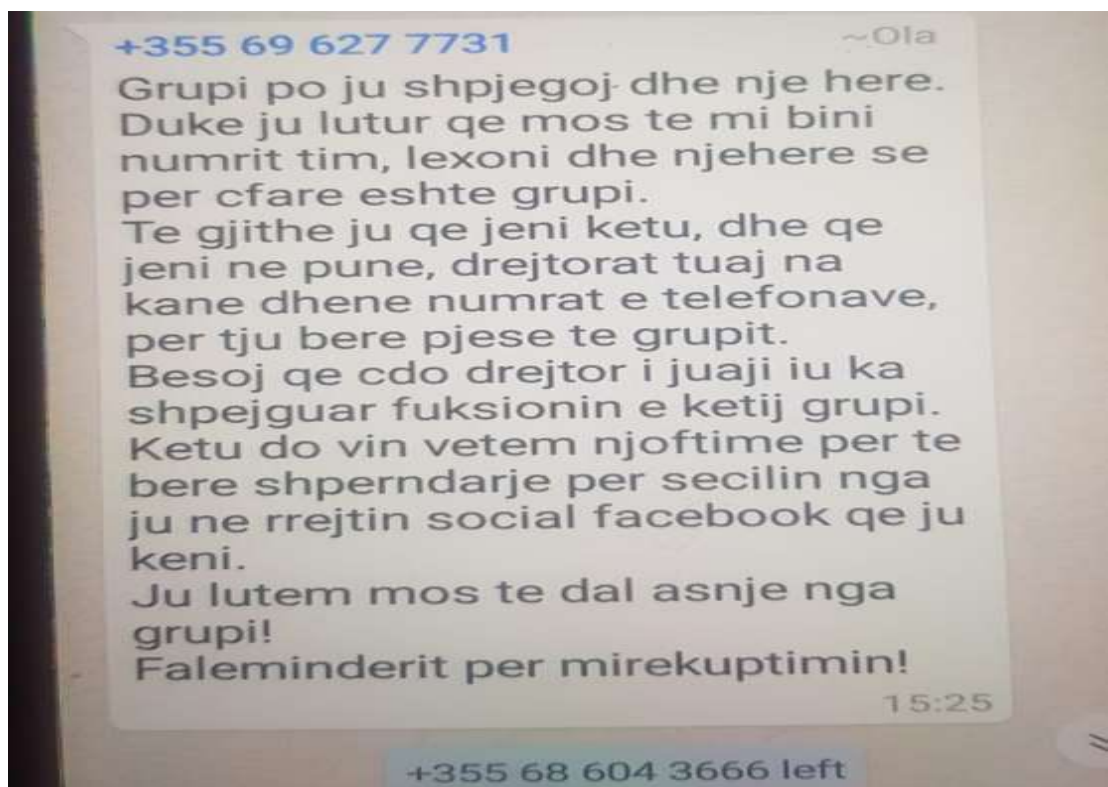

We want to stress that the involvement of municipal administration staff in the campaign was made without asking for their consent, and within the official working hours and under threat of dismissal.

This activity is contrary to Election Code and Article 3, paragraph 1/3/ç of Decision No. 9, dated 24.12.2020, of the Regulatory Commission, the Central Election Commission, expressly providing:

“Forced use in election campaigns of the central and local state administration within working hours for electoral activities and/or activities, including by electronic means of communication, as well as the forced and organized use during classes hours of students of pre-university school system for activities related to elections, or promising or offering benefits to public servants or students to participate in activities for election purposes, outside working hours or classes, as well as pressuring them for this purpose.”

346. Socialist Party candidate in Gjirokastra, **Laert Duraj**⁷⁰, Director of Post, did not resign, but acted contrary to the Election Code.

The Election Code in its Article 63 provides that senior state administration officials must resign before running for a seat in Parliament. Laert Duraj, in the position of general administrator of “Albanian Post” sha is included in the list of senior state officials, referring to the provisions of the Law on the Organization of Public Administration, but contrary to the Code he not only did not resign but the CEC has not taken any measures against this violation of the law.

347. Mrs. **Joana Melengu**, chairwoman of Administrative Unit No. 2 in Berat Municipality, was on the list of SP's observers for ballot counting in Berat District. As an observer in Table No. 3 of CAS, she threatened the Democratic Party's observer.

⁷⁰<https://boldneës.al/2021/03/27/kandi1dat-i-ps-l1aert-d1uraj-i-po1stes-shkel-kodin-zgjedhor-nuk-jep-doreheqjen-kqz-mbyll-syte/>

Joana Melengu, is the same person, who on 19 April was caught red handed in Berat distributing food aid from the state's material reserves in exchange for voting.

Here are 3 flagrant evidence of the election massacre of 25 April in Berat:

We have denounced vote buying and we found evidence that Mrs. Joana Melengu, a municipality employee in Berat, distributes food aid in exchange for voting.

We have denounced the illegal use of state administration, and these two days not only Mrs. Joana Melengu, but all the SP's observers and other people accompanying them were employees of the state administration in Berat.

We have denounced the threat, pressure and intimidation of voters, and today, in the eyes of all Albanians, in the hall of the Complaints and Appeal Commission, the DP's observer was threatened by Mrs. Joana Melengu, a local leader in Berat, and SP's observer in CAS.

348. Contrary to Election Code and Instruction No. 6, dated 23.03.2021, “On the use of propaganda, education materials and their posting rules during the election campaign”, as clearly indicated below, **Ogerta Manastirliu**, MP candidate of the Socialist Party, opened her electoral office in front of **the polling stations No. 1951 and 1951/1**. The Democratic Party has filed a complaint with the CEC for this case.

Article 5 of the Instruction no. 6, dated 23.03.2021 “On the use of propaganda, education materials and their posting rules during the election campaign”, of the State Election Commissioner, the Central Election Commission, provides:

*“1. Electoral offices of electoral entities may be opened at a distance **of not less than 300 (three hundred) meters from the location of CEAZs, Polling Stations and Ballot Counting Centers (BCCs)**.*

2. No later than 35 days before the election date, the electoral entity informs in writing the respective Mayor and sends a copy to the CEC about the setting up of electoral offices and their exact addresses.

3. No later than 5 days upon receipt of information, the Municipal Administration shall verify the location of electoral offices and the observance of provisions of this Instruction for posting the propaganda materials.

4. *The municipal police shall guarantee the implementation of obligation set forth in paragraph 1 of this Article at the request of CEC.”*

349. Contrary to Election Code and Instruction No. 6, dated 23.03.2021, "*On the use of propaganda, education materials and their posting rules during the election campaign*", **Ogerta Manastirliu**, MP candidate of the Socialist Party, opened her electoral office in front of the polling stations No. 1955/0, 1955/1 and 1955/2. The Democratic Party has filed a criminal complaint with the CEC for this case.

Article 5 of Instruction no. 6, dated 23.03.2021 "*On the use of propaganda, euthanasia and their posting rules during the election campaign*", of the State Election Commissioner, the Central Election Commission, provides:

“1. Electoral offices of electoral entities may be opened at a distance of not less than 300 (three hundred) meters from the location of CEAZs, Polling Stations and Ballot Counting Centers (BCCs).

2. No later than 35 days before the election date, the electoral entity informs in writing the respective Mayor and sends a copy to the CEC about the setting up of electoral offices and their exact addresses.

3. No later than 5 days upon receipt of information, the Municipal Administration shall verify the location of electoral offices and the observance of provisions of this Instruction for posting the propaganda materials.

4. The municipal police shall guarantee the implementation of obligation set forth in paragraph 1 of this Article at the request of CEC. “

350. Contrary to Election Code and Instruction No. 6, dated 23.03.2021, “*On the use of propaganda, education materials and their posting rules during the election campaign*”, Taulant Balla, political leader and Socialist Party candidate in Elbasan, has placed propaganda

material not only without a decision of the Mayor, but in public premises that is strictly forbidden by the above legislation.

351. Contrary to Election Code and Instruction No. 6, dated 23.03.2021, “On the use of propaganda, education materials and their posting rules during the election campaign”, **Blendi Çuçi**, an MP candidate of the Socialist Party in Gjirokastra, has placed his banner in front of CEAZ No. 80 on the facade of the Sports Palace, without a decision of the Mayor, and again in violation of the law, has opened his electoral office less than 300 meters from the CEAZ and the polling station.

In this case, the Democratic Parish filed a complaint with the Central Election Commission and informed the entire diplomatic corps.

Article 5 of Instruction no. 6, dated 23.03.2021 “*On the use of propaganda, education materials and their posting rules during the election campaign*”, of the State Election Commissioner, the Central Election Commission, provides:

*“1. Electoral offices of electoral entities may be opened at a distance **of not less than 300 (three hundred) meters from the location of CEAZs, Polling Stations and Ballot Counting Centers (BCCs).***

2. No later than 35 days before the election date, the electoral entity informs in writing the respective Mayor and sends a copy to the CEC about the setting up of electoral offices and their exact addresses.

3. No later than 5 days upon receipt of information, the Municipal Administration shall verify the location of electoral offices and the observance of provisions of this Instruction for posting the propaganda materials.

4. The municipal police shall guarantee the implementation of obligation set forth in paragraph 1 of this Article at the request of CEC.”

352. Contrary to Election Code and Instruction No. 6, dated 23.03.2021, “On the use of propaganda, education materials and their posting rules during the election campaign”, **Blendi Çuçi**, an MP candidate of the Socialist Party in Gjirokastra, has decided to post on the facade of Tepelena Castle and the facades of buildings.

Article 3 of Instruction no. 6, dated 23.03.2021 “On the use of propaganda, education materials and their posting rules during the election campaign”, of the State Election Commissioner, the Central Election Commission, provides:

“1. No later than 35 (thirty-five) days before the election date, the Mayor shall designate in a just and unbiased manner the public places, within the territory of the respective Municipality, for displaying the propaganda materials by the election contestants. Electoral propaganda materials are allowed to be displayed up to a distance of 5 (five) meters from the electoral office of the political party or the respective election contestant, no later than 30 (thirty) days before the election date. Upon termination of the election campaign, the election contestant shall take measures to remove all propaganda materials.

2. The display of propaganda materials on facades of residential buildings, public institutions or their surrounding and adjacent premises, within recreational areas, parks, city trees and lighting poles is prohibited.

3. Placing propaganda materials on vehicles operating in public transport is prohibited.

4. The places specified in paragraph 1 of this Article must be in premises that ensure public visibility and provide sufficient space for all contestants in elections to present their propaganda materials, election programs and/or electoral messages.

5. The public places in the territory of Municipality dedicated to displaying propaganda materials shall be allocated proportionally to election contestants avoiding giving priority to any of the contestants.

6. The mayors shall take measures not to allow or remove immediately any fixed material, including posters and flags from any other location where they are found not to have been placed in accordance with the criteria of this instruction. On the use of propaganda, education materials and their posting rules during the election campaign

7. The decision of the Mayor indicating the places for posting propaganda materials is made public on the website of the Municipality promptly after its approval and a copy thereof is sent to the State Election Commissioner within 24 hours of its approval. The decisions taken by the mayors before

adoption of this instruction shall be reviewed in accordance with the criteria set out in this instruction.

8. Election contestants are allowed to display propaganda materials only in the places indicated by the Mayor under this Article and shall take measures to remove them upon termination of the election campaign.

9. The State Police is in charge of implementation of paragraph 3 of this Article.”

353. On 16 March, **39 days before the election day** and the propaganda materials of the Socialist Party were posted in a **public property** in the town of Belsh, as the supporting materials attached herein reveal.

This constitutes a violation of the Election Code and is contrary to Decision No. 9, dated 24.12.2020 of the Regulatory Commission, the Central Election Commission. The **Election Code**, in Article 79 “Display of propaganda materials”, provides:

*“1. **No later than 35 days before the election date**, the Mayor shall designate in a just and unbiased manner the public places, within the territory of the respective Municipality, for displaying the propaganda materials by the political parties and election contestants. The designated places shall be in premises that ensure public visibility and provide sufficient space for all contestants in elections to present their electoral programs and electoral messages. The decision of the mayor is made public on the website of the municipality promptly after its approval.*

2. The use and posting of any other fixed election propaganda material, including flags and billboards during the election campaign, is allowed only at a distance up to 5 meters from the electoral office of the political party or the respective election contestant.

3. All visual propaganda materials utilized in the campaign shall be accompanied by the imprint: “Produced under the legal responsibility of...” (the name of election contestant shall be given here).

4. The use of propaganda materials contrary to the definitions made in paragraphs 2 and 3 of this Article is prohibited.

5. The Municipal Police and/or the State Police shall ensure the implementation of the provisions of this Article by removing immediately any propaganda material of election contestants in places contrary to paragraphs 1 and 2 of this Article.”

Decision no. 9, dated 24.12.2020, Article 3, paragraph 1.3, letter “c”, of the Regulatory Commission, the Central Election Commission provides:

“Making available the movable and fixed assets provided for in Article 142 of the Law No. 7850, dated 29.7.1994,” On the Civil Code of the Republic of Albania”, as amended, for electoral purposes, that are owned or managed by public central or local bodies or entities, or any other type of entity where the state owns capital/ quota/ shares or/ and appoints the majority of the supervisory body or management body of the entity”.

354. Socialist Party MP candidate **Halit Valteri**⁷¹ has posted posters on the streets of Kamza asking for a vote on his name, thus violating the election code.

355. Contrary to Election Code and Instruction No. 6, dated 23.03.2021, “*On the use of propaganda, education materials and their posting rules during the election campaign*”, Taulant

⁷¹https://abcnews.al/foto-i-35-ti-ne-listen-e-ps-halit-valteri-thyen-kodin-zgjedhor-mbush-kamzen-me-postera/?fbclid=IëAR0djiL5rĚSRj8n2OzVdU3gLu0LypëTMfdUYnK9bSngOkI2CiTcY8ĚBf_M

Balla, political leader and Socialist Party candidate in Elbasan, has placed propaganda material not only without a decision of the Mayor, but in public premises that are strictly forbidden by the above legislation.

356. 50 days before the election day, contrary to the 35-day deadline provided by Article 79 of the Election Code for posting propaganda materials, the following banners were posted on Peqin – Rrogozhina Street.

357. Posting of the Socialist Party posters at the Agricultural University of Tirana contrary to Election Code and Instruction no. 6, dated 23.03.2021 *“On the use of propaganda, education materials and their posting rules during the election campaign”*.

358. Displaying propaganda banners at ART, Shkodra, 12 April 2021

C. Violation of Decision No. 9, dated 24.12.2020, “On reporting rules of activities of a public character of any public institution and with state capital, agencies, state entities, categories of prohibited activities, and monitoring of activity, conduct and the use of human, financial and logistical resources of state administration before the elections”, of the Regulatory Commission, the Central Election Commission (1317 facts)

C.1 Violation of Article 1, paragraph 1/1, letter “a” of Decision No. 9/2020, promotion of investment (948 facts)

Under Article 1, paragraph 1/1, letter “a” of Decision No. 9, dated 24.12.2020 of the Central Election Commission, 4 months before election day, *“supporting and promoting projects and/or investments, waterworks of any kind, in the service and interest of the public”* by the entities provided for in Article 1, paragraph 2 is prohibited:

“Prime Minister, his administration, deputy prime minister, minister and deputy minister, their administration, the mayor, the deputy mayor and his administration, the prefect and his administration, general director of agencies or institutions subordinated to the Prime Minister, the Council of Ministers or the Minister, the general director, the heads of departments, the directors of the respective directorates and administrations, the heads and members of collegial bodies, entities, boards, any head of commercial companies under administration by the State as well as in any entity where the state owns shares and capital/ quota or appoints the majority of the supervisory or management body, the head and its deputies of the state enterprises, during the 4-month period before election until election day, are prohibited from running, participating in or contributing in any form to public activities banned by this Decision”.

In this context, the following entities and activities have been promoted as an achievement of the Government in violation of CEC Decision:

We'd like to emphasize that the Palace of Culture is under the administration of the Municipality of Vlora and already functions as an electoral office for the Socialist Party. The meeting was held behind closed doors, in which they asked all employees of OST sha to commit to voting in favor of the Socialist Party.

6. Albanian Telegraphic Agency⁷², an institution directly subordinate to the Prime Minister, has been involved in the campaign not only by propagating news in favor of the government, but also by conducting and propagating polls that show the Socialist Party as the winner⁷³. In this case, we have filed a report with the Central Election Commission and the fact that throughout the campaign this institution has propagated only pro-government news and has been active during the campaign by publishing positive news about the government, a completely biased institution, acting under the direct tutelage of the Prime Minister; for which we have filed a Criminal Report, for abuse of office, with the Prosecutor's Office of the Tirana Judicial District for its director, **Armela Krasniqi**.

This activity is in contradiction with the Electoral Code and article 3, point 1/3, letters "c" and "ç" of Decision no.9, dated 24.12.2020, of the Regulatory Commission, Central Election Commission, which expressly provides that:

“The placing at disposal of movable and immovable assets provided in article 142, of law no. 7850, dated 29.7.1994, "On the Civil Code of the Republic of Albania", amended, for electoral purposes, which are owned or administered by public bodies or entities at the central or local level, or any other type of entity where the state owns capital/quotas/shares or/and appoints the majority of the supervisory body or the governing body of the entity”.

“Compulsory use in the election campaign of the central and local state administration, within the working hours, for ventures and/or activities, including through means of electronic communication, as well as the forced and organized use, within the teaching hours, of the students in the pre-university level for electoral ventures and activities, or the promise or granting of benefits to public servants or students, to compel them to participate in activities, serving electoral purposes, outside working hours or teaching, as well as exerting pressure on them for this purpose.”

7. Contrary to the anti-Covid measures and the Electoral Code, on the 1st of March, in the sports field of the integrated school "AAlbanian Leksandër Markaçin", in Havaleas of Kuçova, the principal of the school **Vjollca Kllapi**, organized festive activities for electoral purposes, in the presence of the Director of ZVA, the Mayor, **Sybi Shehu** and MP **Ermonela Felaj**.

8. Bledar Doracaj, General Director in the Ministry of Interior is part of the TND as a civil servant, but has been involved in the campaign for the Socialist Party not only attacking the Chairman of the Democratic Party, but also calling on citizens to vote "the rose".

9. An increase by 198 vacancies for electoral effects in the Municipalities of Korça Region, according to data extracted by the Social Services.

In the Municipality of Pogradec, 120 vacancies have been added

In the Municipality of Devoll, 42 vacancies have been added

In the Municipality of Pustec, 10 vacancies have been added

In the Municipality of Korça, 26 vacancies have been added.

10. The use for campaign purposes of the premises of Ballsh School by the Head of ZVA Mallakastër, Etleva Dishaj. The lady has consistently pushed for dismissal, if the teachers do not pledge to vote for the Socialist Party. Also confirmed are the meetings with first time voters graduates, offering them an increase of grade in exchange for the vote for the Socialist Party.

In this case, a Criminal Report was filed with the Fier District Prosecutor's Office.

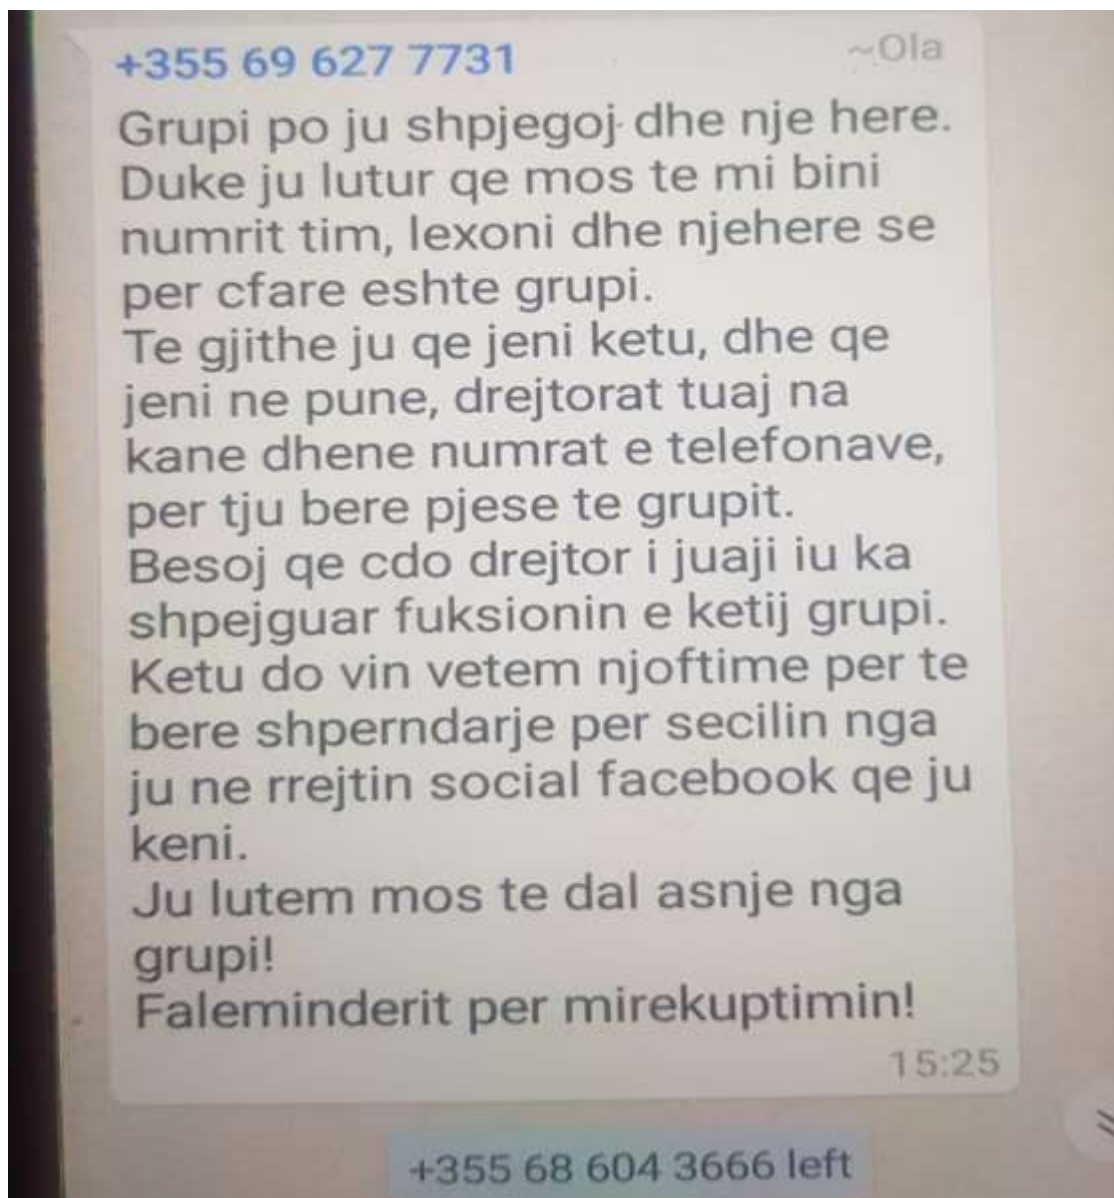

11. The Director of Kindergartens at the Municipality of Kukës, Zhurije Lita, blackmails the employees of the Nurseries and Kindergartens in the Municipality of Kukës, especially those with right-wing affiliation. All employees are being forced to submit lists of secure SP voters and identity cards, openly declaring their vote for the SP.

12. Every employee is forced by Deputy Mayor of Kukës, Beglie Cena and the Head of Kindergartens at the Municipality of Kukës, Zyrie Lita, to submit within 3 days a list of 10 voters, including personal details: name, father, surname, card identity and polling station, otherwise they would be fired.

13. Subject Granit Gjana, acting Head of the Kukës Municipality Cabinet, using a "Whatsapp" group, has included the employees of the administration under duress, without desire or knowledge, using the heads of institutions who have provided the data and phone numbers, in order to engage the administration in the campaign in favor of the Socialist Party candidates and to forcibly disseminate their propaganda on social networks.

14. The use of the public administration for propaganda purposes in official hours by the Mayor of Kukës, Safet Gjici. Contrary to the Electoral Code, as evidenced by the attached photo, he appeared in a live video on Facebook, during working hours and accompanied by the administration of the Municipality, wearing a mask with the Socialist Party logo.

15. The use of the administration of the General Directorate of Customs for campaign purposes in Tirana's no.8 Unit.

16. In the integrated high school "Qazim Shehu" Shtiqen, the principal Lindita Mucmata pressures the teachers to complete and guarantee a list of 20 voters for the SP. Through a form that identifies their personal details, teachers are also required to provide a photocopy of ID card and telephone number of the people, in order to later verify whether they are SP voters.

17. In the Secondary (9-year) School "Avni Rustemi" in Kukës, the principal Besa Shahu pressures the teachers to complete and guarantee a list of 20 voters for the Socialist Party. Through a form that identifies their personal details, teachers are also required to provide a photocopy of ID card and telephone number of the people, in order to later verify whether they are SP voters.

18. The inducing of Municipal Police to distribute propaganda materials on social networks in support of Xhemal Qefalia. It's been verified that all Municipal Police employees, who cover the Dajti area, have shared the following image on social networks.

19. Individuals appointed by Safet Gjici in the Kukës District Police, whom, on his orders, are being actively used in the campaign.

Alban Çela, Director of Kukës Local Police, from Tepelena.

Albert Pata, Deputy Director of Kukës Local Police, from Tepelena.

Hajri Kushe, Deputy Director of Kukës Local Police, from Skrapar.

Dritan Metaj, Chief of Kukës Police Department, from Kuci - Vlora.

Andi Dhrami, Chief of Crimes, Kukës Police Department, from Vlora.

Artur Mersini, Chief of Has Police Department, from Përmeti.

Alfred Mazreku, Chief of Crime Police Department Has, sent for the elections.

Arjan Dumi, Chief of Tropoja Police Department, from Fier.

Zia Cela, Director of Border Crossing Kukës, from Vlora.

Arber Alimadhi, Commander of the Morine Border Crossing Point in Kukës, from Kuçi, Skrapar.

20. The SP candidate Petrit Malaj uses the premises of the Municipality of Tropoja and its investments for the interest of the SP and for campaign purposes.

21. Militants employed by the Municipality of Rrogozhina, that don't show up for work any day due to political engagements in the campaign for the Socialist Party.

Elidon Bega, is an Advisor to the Mayor (from Berat)

Lulëzim Haliti, husband of the Mayor's aunt, employed at the Water Supply (from Lushnja)

Romina Bega, employee by the Municipality of Rrogozhina (from Elbasan)

Erald Abazi, employee by the Municipality of Rrogozhina (from Elbasan).

22. On the day 18.03.2021, the Chief of Civil Emergencies in the Municipality of Rrogozhina, Rakip Tosku, using the vehicle of the institution, distributed aid in blankets and clothes in the neighborhood no.1 of Rrogozhina, in exchange for pledge to vote for the Socialist Party.

23. Citizens Hamdi Pepa and Muharrem Troka have had their documentation completed by the Municipality of Rrogozhina as beneficiaries of compensation from the reconstruction process only because they are voters of the Socialist Party. As the attached photos prove, the houses of the above citizens have no damage from the earthquake.

24. The following subjects have abusively benefited from the Municipality of Tirana from the reconstruction process and economic aid, only because of the facts that they vote for the Socialist Party.

The following people have benefited from the earthquake reconstruction process:

Eshref Disha, father of the Chairman of SP Lapraka

Syle Gosturani, Eshrefi's friend, part of the SP structure, polling station 2029

Mimoza Pëllumbi, employed at the Inspection-Rescue- Mining Department. Leads the SP organization in the 2007-2008 polling stations

Dali Totraku, part of the structure of the SP polling station 2009

Besnik Cjapi, part of the SP structure

Arze Zejneli, employee of the Municipality of Tirana

Kujtim Mema, employee of the Municipality of Tirana

Besim Mamo, employee of the Municipality of Tirana

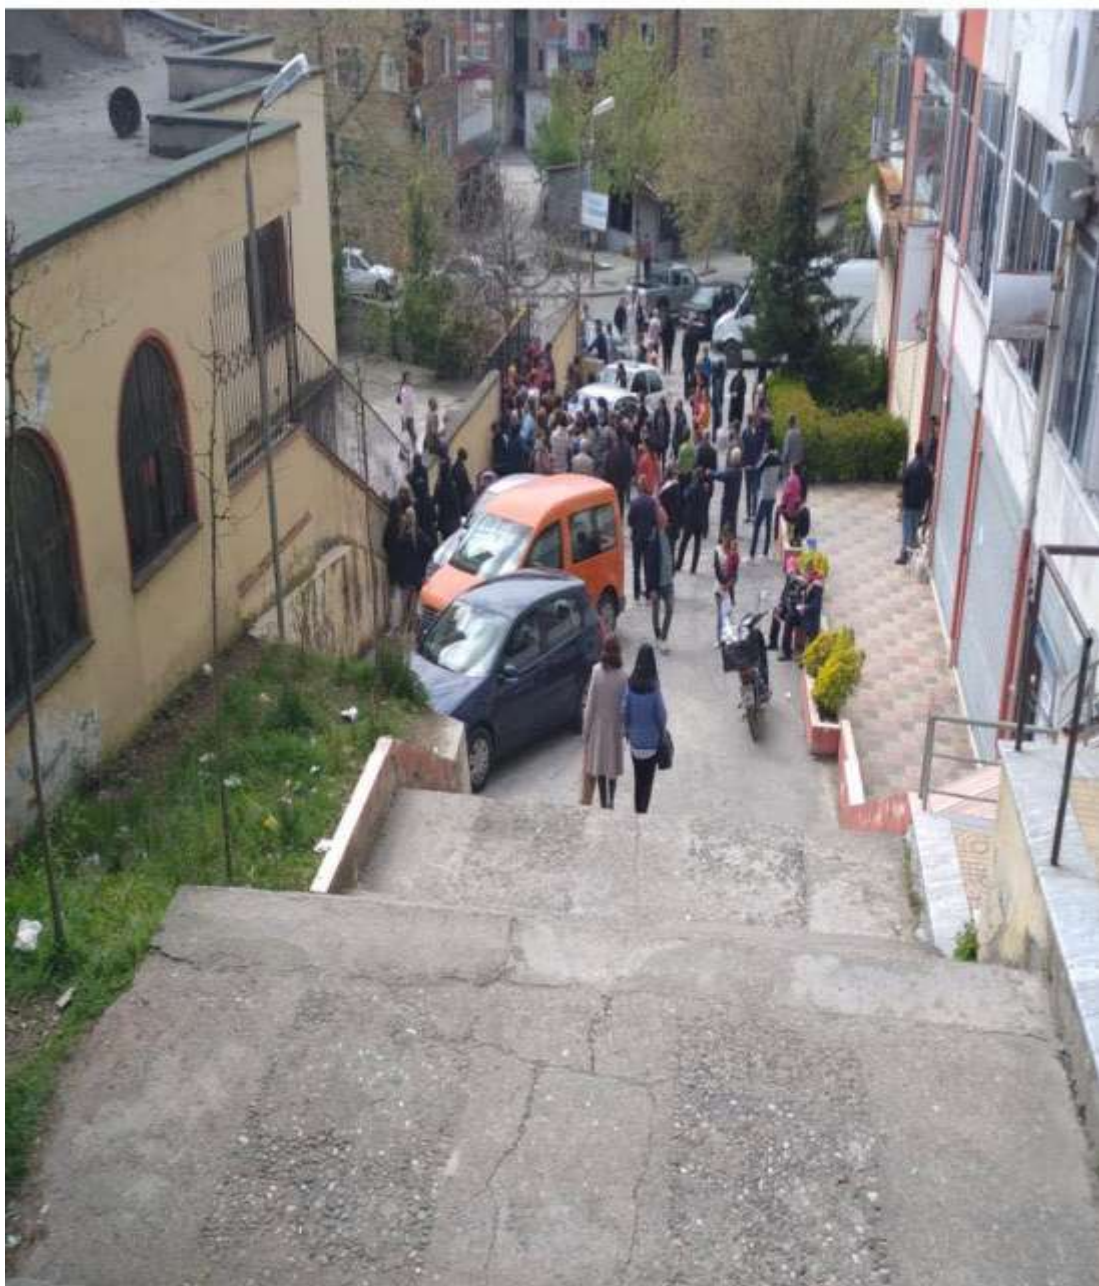

25. The subject Artur Mara, has received as a voter of the Socialist Party economic assistance from the Municipality despite the fact that he owns a business in Tirana's no. 9 unit.

26. On 09.04.2021 **Rozafat Sopaj**, Director of Social Housing, Municipality of Tirana, published a photo on social networks campaigning for candidate no. 17 of the list of the Socialist Party in the offices of said institution.

Mr. **Prek Albanian Leka** Pojan Pojan⁷⁴, has received a permit from the Municipality for the reconstruction of the house, the works of which were illegally interrupted by the administration of the ACA and the Police, because on the facade of the house this person had placed PD flags.

28. On 14.04.2021, Klodian Taçe, Mayor of Gramsh distributed food in exchange voting using public vehicles.

⁷⁴<https://www.facebook.com/luan.baci.79/posts/3050363798437016>

29. **The Water Supply, Sewerage and Waste Infrastructure Agency (AKUM)**⁷⁵, an institution paid by Albanian taxpayers, is used by the Socialist Party to distribute Prime Minister Edi Rama's election campaign posts on AKUM's official Facebook page.

30. The Police State Department, through Order no.63129, dated 10.07.2020, has provided for the admission of 300 trainees, out of which 240 males and 60 females. Contrary to what this order envisages, today the number of trainees admitted is, in fact, 461. The trainees added in violation of the law are voters for the Socialist Party.

Of the additional trainees admitted in violation of the law, only 7 have received 70 points in the test (theoretical test of high school knowledge). They have been admitted as trainees even with 35 points, which means that we have a student whose high school knowledge is evaluated with a grade of 2.5 **out of 4 (ToBeSpced)**.

31. Erfan Shkempi, Head of Sector in the Directorate of Administration of Administrative Units in the Municipality of Tirana, campaigned for the SP candidate, Plarent Ndreca during the official working hours, violating the law on the involvement of public administration employees in the election campaign. This constitutes concrete evidence on how Erion Veliaj and the Municipality of Tirana are using the administration to campaign.

32. The exploitation of the Municipality administration in order to carry out, without public tender and at night, the laying of electoral asphalt in the Senatorium road, Administrative Unit no. 2, Tirana, on the day 15.04.2021, for which DP has filed a Criminal Report in SPAK against Erion Veliaj and Florian Pullazi, Head of Administrative Unit no. 2.

33. Budget and Finance Director, Alma Lleshi and the Director of Human Resources, Gazmend Gazha pressure employees to vote for the Socialist Party and complete lists with the names of their families.

34. **Robert Bitri**, MP candidate for the Socialist Party, is illegally building a storey during the election campaign, unbothered by the authorities, after an order was issued to not stop any illegal construction during this period (Photo dated 12.04.2021).

35. In Tepelena and Memaliaj were sent Arjanit Arapi, Juli Qebini, currently holding the position of crime officers at the Gjirokastra Police Department,

to campaign in the field on behalf of the SP political entity. They move around with an Audi vehicle, with license plate AB444AS.

36. Leonard Dividari, is a crime investigation officer at the Gjirokastra Border Control Directory, originating from the city of Memaliaj. All the employees came

to Memaliaj with the same van. The names of the others are not known, nor in which sectors do they work. In the picture, Leonard is the one who extends his hand to the policeman.

37. The mayors of Gjirokastra Region have summoned every school's sanitation personnel to their offices and in the presence of Bledi Çuçi, have pressured them to pledge their vote to the Socialist Party.

38. Other officers appointed in other regions, who have joined Bledi Çuçi's campaign in Gjirokastra and work for the Socialist Party. These employees are:

Birbil Makriu, on duty in Lushnja, materialized in the Dunavat neighborhood, where he met people with the intention of pushing them to vote for the left.

Olti Bistri, on duty in Tirana, materialized in Gjirokastra and the Mashkullorë village, campaigning for the left.

Marsel Dule, on duty in Tirana, materialized in Tepelena, campaigning for the left.

Mondi Targa, materialized in Tepelena, campaigning for the left.

Perlat Çulli accompanies Aranit Arapin, moving throughout the region.

39. In the Gjirokastra Region, police officers in the Regional Directorate, such as Juli Qebini, Mariglen Dine, Feim Onjea, Tafil Mele, Visi Sinani, Niku Rama, campaign openly on behalf of the Socialist Party. These employees move around during night hours and monitor the DP electoral offices.

40. Police officers who have been transferred for elections to assist the SP in buying votes in Gjirokastra. Karafil Haruni, recently appointed crime officer in Tepelena, previously spent about 15 years in Kakavija and Armalindo Haruni, appointed in the Sector Against Organized Crime, in the Local Police Directorate of Gjirokastra.

41. In the last days of the campaign, in the warehouses and garages of the Fire Department of Gjirokastra, a large amount of food assortments were unloaded and stored, waiting to be distributed to families for election purposes.

42. During the weekend, in Gjirokastra and mainly in the city of Libohova, came the former Director of the Border Directorate, Arjan Ferri. He met all Border workers and asked them, in the form of pressure, to vote for the Socialist Party. Also, the same senior official in the State Police has met in the city of Libohova with the MP candidate for the Socialist Party, Mrs. Mirela Kumbaro.

43. Ilir Muçmata was appointed director of the Kukës Water Supply and Sewerage Company 2 months ago, by order of the Mayor of Kukës, Safet Gjici. As soon as he took office, he started to pressure his employees by dismissing them unjustly, as they are supporters of the Democratic Party. During this period, 7 militants of the Socialist Party were employed in the directorate of the WSSC, hired in violation of

the Electoral Code. This official has hired people during the election campaign and fired others. This constitutes a flagrant case in violation of the Electoral Code. Employees hired, listed as follows:

Izmir Muçmata (brother)

Naim Basha

Gent Halim Shehu

Aida Muja

Ram Albanian Lekica

Ahmet Voka

Artur Muja

These two employees were fired after they refused to submit the list with 20 names and ID numbers to vote for the Socialist Party. Employees who have been unjustly dismissed from work, listed as follows:

Sami Petku

Besnik Rata

The incumbent was not satisfied with the pressure and psychological violence he exerted on the employees of the WSSC, which is dependent on the Municipality of Kukës, in that if you do not bring the names and ID numbers you'll be fired, but has instructed his employees to intervene in the main water pipe in Shtiqën, which supplies the entire city of Kukës. He ordered this intervention in order to sway his supporters, by giving them water in the main pipe, placing 13 illegal connections to his house and other citizens in the village of Shtiqën.

These illegal connections were made in exchange for votes, in violation of the law, because touching the main drinking water pipe is a criminal offense, as it is an object of special importance and is protected by law.

The incumbent, instead of taking measures and channeling efforts to cut illegal connections made by various citizens, which is his main task, in order to supply the city of Kukes with drinking water, provides illegal connections to the detriment of citizens, as well as obliges and offers favor to the people who vote for the Socialist Party.

44. Electoral employments in the Municipality of Kukës during the electoral period.

E. Criminal scheme of illegal transfer of polling stations of Socialist Party militants (1 fact)

On March 17 and 18, the Investigative Show "BOOM" on "Ora" Radio Television published irrefutable facts of the criminal scheme of transferring citizens from one polling station to another, in order to illegally influence and change the election results of April 25, 2021.

Through this criminal scheme led by the Electoral Offices of the Socialist Party, by order of mayor Erion Veliaj, at the same time Political Co-Chair of the Socialist Party for Tirana Region, the Administrative Units and legal procedures have been completely bypassed, moving unregistered or citizens from districts in Tirana, as a resident and consequently a voter in Tirana.

According to the investigation, the main condition that citizens must meet to move as residents and voters in Tirana, is to vote for the Socialist Party in the April 25 elections.

According to Law no. 10129, dated 11.5.2009, "On civil status" as amended, citizens are forced to perform initial registration of residence/address of the apartment, as well as change of residence/address of the apartment, a procedure which, as a rule, is performed in the civil status office of the declared residence or dwelling municipality/district. In case of a change in residence, or when an apartment is no longer used for personal or family use, this change is declared at the civil status office. The initial registration of the place of residence or its change is done no later than 30 days from the arrival in this place of residence. The same deadline applies to the declaration of dwellings that do not have the status of residence.

This law in article 74, point 1, letter "ç", provided a fine of up to 10 thousand Albanian Lek for persons who declare their residence outside the deadlines:

ç) the violation or non-observance of the provision defined in point 3, of article 15, is punished with a fine, in the amount of 10,000 Albanian Lek or 82 Euros, and with suspension of the service until the collection of the fine, which is set and collected by the civil registry.

As the penalty discouraged citizens from declaring a change of residence, aiming to facilitate the declaration of residence by citizens, but, at the same time, changing the polling station as a result of the change in residence, Parliament approved Law no. 130/2020 "On an amendment to law no. 10129, dated 11.5.2009, "On the civil status".

This law was published on 22.10.2020 in the Official Gazette and repealed the letter "ç" of point 1, of article 74, the penalty of 10 thousand Albanian Lek in case of delayed declaration of the change in residence.

Through Decree no. 11812, dated 5.11.2020, the President of the Republic sent the law back to the Parliament and did not approve it.

On 26.11.2020, the Parliament rejected Decree no. 11812 of the President of the Republic, dated 5.11.2020, "On the return of law no. 130/2020, 'On an amendment to law no. 10129, dated 11.5.2009, 'On the civil status', as amended" and finally, approved the abrogation of letter "ç" of the law.

The initiator of the amendment and the abolition of the 10 thousand Albanian Lek fine as a result of the delayed declaration of residence was Blerina Gjylameti, MP of Yzberisht, Tirana's no. 14 Administrative Unit.

Expecting to be confirmed as this unit's MP again, Mrs. Gjylameti has been actively working to transfer citizens to Yzberisht, Tirana's no. 14 Administrative Unit and this is confirmed by irrefutable facts from the investigation. After the completion of the procedure and transfer, as a resident and voter in Tirana, the associate of "BOOM" asked the person responsible for the transfers in the SP's Electoral Office for help for another person, but it was not possible, because, according to the SP's Electoral Office, the change of the area's MP complicated matters.

The investigation of Boom proved that the abolition of the fine was premeditated and part of a criminal scheme aimed at transferring unregistered residents or resident from other cities, as registered residents in Tirana; bearing, as a consequence, the right to vote in Tirana.

Essential is the fact that the process of registration of residents has become a party process led by the Electoral Offices of the Socialist Party, completely bypassing the Administrative Units and legal procedures, by order of the Mayor and Political Co-Chair of the Socialist Party for Tirana Region, **Erion Veliaj**.

The law requires a lease contract in the unit where the transfer is requested, the investigation proved that the associate of "BOOM" had a lease contract in Tirana's no. 6 Administrative Unit, and with the intervention of the SP's Electoral Office, you can put a fictitious address in the Administrative Unit no. 14. This way, the citizen was registered as a resident and born the right to vote in this unit, as the change of residence is accompanied by the change of the polling station.

The investigation proved beyond any doubt that the abolition of the fine of 10 thousand Albanian Lek, promoted as alleviation for the citizens, was a mechanism used by the Socialist Party to register its supporters in Tirana, with the direct intervention of its Electoral Offices, bypassing the institutions and legal procedures, with fictitious addresses and not based on official documents.

From November 2020 to March 5, 2021 (date on which no change of residence is allowed) only in the Tirana's no. 14 Municipal Unit, 14 were registered thousands of people. From 8 thousand people that resided in this unit, there are currently 22 thousand residents.

We'd like to bring to your attention that, an MP mandate in Tirana is won with about 10 thousand votes, consequently the change of residence in such high numbers in only one administrative unit of Tirana before the April 25 elections, through a well-thought-out and criminal scheme from the Electoral Offices of the Socialist Party

and not the Administrative Units, with fictitious documentation, with the sole purpose of changing the election result, it is very dangerous for an honest and legal electoral process.

For this issue, the Democratic Party has filed a Criminal Report with the Special Prosecutor's Office Against Organized Crime and Corruption - SPAK.

F. Illegal use of personal data: the state handed over the citizen's personal details to the SP servers

On April 11, as per a media investigation by Lapsi.al, a data system that violates the Criminal Code, the Electoral Code and the Law "On Personal Data Protection" was set up in the electoral offices of the Socialist Party.

Through this criminal scheme, the Government Portal e-Albania and other state-administered data were used, in advantage of the ruling party's campaign, violating the process of free and fair elections.

The use of the e-Albania's personal details and other data administered by the state by Edi Rama and the Socialist Party is a flagrant violation of the privacy of citizens, guaranteed by the Law "On personal data protection", which provides that "The legal processing of personal data is done by respecting and guaranteeing fundamental human rights and freedoms and, in particular, the right to privacy."

e-Albania is a one-stop shop for online public administration services and is connected to the Government Gateway, to which 48 systems are connected, which exchange data in real time. e-Albania was created and administered by the National Agency for Information Society (NAIS).

In an unprecedented way, computers and servers were installed in the Headquarters of the Socialist Party, using for electoral purposes the confidential and personal tails of the citizens from the e-Albania portal.

This way the Socialist Party had data on citizens in real time, based on polling stations, such as: whether or not citizens are employed, have tax liabilities, have applied for legalizations, mortgages or any other certificate issued by ASHK, have they paid social insurance, have they applied for a construction permit, have they applied for various licenses or permits, etc.

Using this information, the public administration, which is in fact headed by politically appointed people, addresses the citizens identified by government records, promising them the services they need, in exchange for their pledge to vote for the Socialist Party.

Lapsi.al platform has managed to obtain this database, containing confidential and personal details of 910 thousand voters in Tirana, ranging from 19 - 99 years old.

The document contains personal data for each citizen, such as telephone numbers, ID numbers, polling station numbers, employment data for most of the registered people and a description of political affiliation, which is practically the result of a citizen monitoring work, based on data they have entrusted to the state.

This unprecedented scandal seriously violates the privacy of every citizen who uses the e-Albania portal or other government portals that administer citizens data, in order to receive state services.

Use in the campaign and for electoral purposes, by the SP and its officers, of personal data, ID number, telephone number and all of other personal and confidential data contained in e-Albania and other state digital platforms, goes against the Criminal Code, the Electoral Code and the Law "On Personal Data Protection".

All personal data processed by e-Albania platform are for the sole purpose of receiving the services, provided by the latter, and according to the law it is not allowed to transfer this data to any third party, without the prior approval of the person.

The transfer of personal data and their processing by the Socialist Party of Albania is prohibited by the Law "On Personal Data Protection", which considers political preferences as sensitive data and the processing of which is expressly provided in Article 7 of the Law "For the protection of personal data".

The "personal data" scandal was also highlighted in the OSCE/ODIHR Preliminary Report. The flow of sensitive personal information, including voters' political preferences, is a serious concern and makes voters vulnerable (see p. 2). During the campaign, through a leak of information, a database containing the personal information and contact details for approximately 900,000 Albanian citizens appeared in the public domain, which also included their potential voting

preferences. The existence of this database in the public domain was independently confirmed by the ODIHR MKVZ. Some IEOM interlocutors from the main political parties believed that such an incident could be considered by the electorate as a misuse of personal data in the interests of the parties (see p. 12).

87. In the late hours of Saturday, April 24, the chairwoman of the SMI, Monika Kryemadhi⁸², issued a statement to the media denouncing that the patronage of the Socialist Party had been involved in the purchase of votes in Durrës, which proves that the system of patronage and use of personal data is not a local phenomenon limited to Tirana, but is applied all over Albania.

88. On April 17, 2021, Prime Minister Edi Rama, during an electoral meeting with young people in the city of Durrës, thanked the patronage workers for the work done. The fact that the Prime Minister himself accepted this phenomenon and normalized it through thanksgiving, shows that the same databases as the ones discovered (Tirana and Durrës regions) have existed throughout the Republic of Albania, including Vlora.

V. CRIMINAL REPORTS IN SPAK AND DISTRICT PROSECUTOR'S OFFICES

89. Rama continues to abuse data, sending messages to citizens after the elections⁸³.

Many citizens have received the message on WhatsApp or other networks from the number: 0697048901.

The photo shows the face of Edi Rama.

"Thank you from the bottom of my heart if you voted for me and unreserved respect even if you did not vote for me! I want to be the worthy prime minister of all of you, regardless of convictions and provinces, and I will do everything I can, so together we can make Albania our future! Sending hugs and wishing for health and happiness in your families. Edi Rama," Rama writes.

Even at the beginning of the pandemic, Edi Rama brutally interfered with the citizens' mobile communication.
